Background to Company

Polen Capital Investment Funds plc (the “Company”) is an open-ended umbrella investment company with variable capital and with limited liability. The Company is structured as an umbrella fund and may comprise several portfolios of assets. The share capital of the Company may be divided into different sub-funds (the “Funds”) each representing a separate portfolio of assets and further sub-divided, to denote differing characteristics attributable to particular Shares, into “Classes”. The functional currency of the Funds is U.S. Dollar.

At the financial year end there were six Funds which had been launched in the umbrella.

	Launch Date
Polen Capital Focus U.S. Growth Fund	8 March 2013
Polen Capital U.S. Small Company Growth Fund	31 December 2018
Polen Capital International Growth Fund	31 December 2018
Polen Capital Global SMID Company Growth Fund	31 January 2022
Polen Capital Emerging Markets ex China Growth Fund	30 November 2022
Polen Capital China Growth Fund	28 April 2023

Following consultation with the Investment Manager, the Board of Director made a decision to terminate Polen Capital Global Emerging Markets Growth Fund. The final Dealing Day of the Polen Capital Global Emerging Markets Growth Fund was on 12 December 2023.

Investment Objective and PolicyPolen Capital Focus U.S. Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve its investment objective by investing typically in a focused portfolio of high quality common stocks of large capitalization companies (market capitalisations greater than \$10 billion at time of purchase) which are listed or traded on Recognised Exchanges in the United States of America and which, in the view of the Investment Manager, have a sustainable competitive advantage. The Fund may from time to time also purchase the common stock of companies whose shares are listed or traded on Recognised Markets in the United States of America which have a market capitalisation of less than \$10 billion at the time of purchase if the Investment Manager is of the opinion that the stock represents a particularly attractive investment opportunity.

The Fund will measure its performance against the Russell 1000 Growth Index and the S&P 500 Index (the “Benchmarks”). The Russell 1000 Growth Index measures the performance of the large-cap growth segment of the U.S. equity universe. It includes those Russell 1000 companies with higher price-to-book ratios and higher forecasted growth values. The Russell 1000 Growth Index is constructed to provide a comprehensive and unbiased barometer for the large-cap growth segment. The index is completely reconstituted annually to ensure new and growing equities are included and that the represented companies continue to reflect growth characteristics. The S&P 500 Index measures the performance of the top 500 large-cap companies listed on stock exchanges in the U.S. The Fund is considered to be actively managed in reference to the Benchmarks by virtue of the fact that it uses the Benchmarks for performance comparison purposes. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmarks. However, the Benchmarks are not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmarks. Any change to the indices against which the performance of the Fund is measured will be disclosed in the annual or half-yearly report of the Company issued subsequent to such change being effected.

Polen Capital U.S. Small Company Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve its investment objective by investing typically in a focused portfolio of high quality common stocks of small companies (market capitalisations within the range of the market capitalizations of companies in the Russell 2000 Index and the S&P Small Cap 600 Index on a rolling three year basis at time of purchase) which are listed or traded on Recognised Exchanges in the United States of America and which, in the view of the Investment Manager, have a sustainable competitive advantage. The Fund may from time to time also purchase the common stock of companies whose shares are listed or traded on Recognised Markets in the United States of America which have a market capitalisation outside of the small company definition described in the preceding paragraph at the time of purchase if the Investment Manager is of the opinion that the stock represents a particularly attractive investment opportunity. The Fund may also invest in American Depositary Receipts where deemed appropriate by the Investment Manager in order to achieve the investment objective of the Fund.

Background to Company (continued)**Investment Objective and Policy (continued)**Polen Capital U.S. Small Company Growth Fund (continued)

The Fund will measure its performance against the Russell 2000 Growth Index. The Russell 2000 Growth Index measures the performance of those Russell 2000 companies with higher price-to-book ratios and higher forecasted growth values. The Fund is considered to be actively managed in reference to the Russell 2000 Growth Index and the S&P Small Cap 600 Index (the “Benchmarks”) by virtue of the fact that it uses each of the Benchmarks to define the characteristics of the securities held by the Fund. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmarks. However, the Fund may be wholly invested in securities which are not constituents of the Benchmarks. The Fund may also use the Russell 2000 Growth Index for performance comparison purposes, however it is not used as a performance target. Any change to the index against which the performance of the Fund is measured will be disclosed in the annual or half-yearly report of the Company issued subsequent to such change being effected.

Polen Capital International Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve its investment objective by investing typically in a focused portfolio of high quality common stocks of large capitalization companies (market capitalisations greater than \$5 billion at time of purchase) which are listed or traded on Recognised Exchanges globally (including those domiciled in emerging markets) and which, in the view of the Investment Manager, have a sustainable competitive advantage. Investment in emerging market securities will comprise no more than the greater of 35% of the Fund’s Net Asset Value or 150% of the Benchmark’s emerging market weighting as of the latest calendar quarter-end. The Fund may from time to time also purchase the common stock of companies whose shares are listed or traded on Recognised Markets globally which have a market capitalisation of less than \$5 billion at the time of purchase if the Investment Manager is of the opinion that the stock represents a particularly attractive investment opportunity. The Fund may also invest in Global Depository Receipts, American Depository Receipts, European Depository Receipts, and International Depository Receipts where deemed appropriate by the Investment Manager in order to achieve the investment objective of the Fund.

The Fund will measure its performance against the MSCI All Country World Index (“ACWI”) (ex-USA) (the “Benchmark”). The MSCI ACWI (ex-USA) captures large and mid-cap companies across 22 of 23 Developed Markets countries (excluding the U.S.) and 24 Emerging Markets countries. The index covers approximately 85% of the global investable equity opportunity set outside the U.S. The Fund is considered to be actively managed in reference to the Benchmark by virtue of the fact that it uses the Benchmark to define the maximum emerging market exposure of the Fund but the Benchmark is not used to define the portfolio composition of the Fund. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmark. However, the Fund may be wholly invested in securities which are not constituents of the Benchmark. The Fund may also use the Benchmark for performance comparison purposes, however it is not used as a performance target. Any change to the index against which the performance of the Fund is measured will be disclosed in the annual or half-yearly report of the Company issued subsequent to such change being effected.

Polen Capital Global SMID Company Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve its investment objective through investment in a well-diversified portfolio of global equity securities of small and mid-cap companies (market capitalisations within the range of the market capitalisations of companies in the MSCI ACWI SMID Cap Index (the “Benchmark”) at the time of purchase) which are listed, traded or dealt in or on Recognised Exchanges worldwide. While the Investment Manager will monitor position size, country and sector weightings, it is not proposed to concentrate investments in any one country, industry or sector.

The Fund is considered to be actively managed in reference to the Benchmark by virtue of the fact that it uses the Benchmark to define the characteristics of the securities held by the Fund. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmark. However, the Fund may be wholly invested in securities which are not constituents of the Benchmark. The Fund may also use the Benchmark for performance comparison purposes, however it is not used as a performance target.

Background to Company (continued)**Investment Objective and Policy (continued)**Polen Capital Emerging Markets ex China Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve the investment objective through investment in a well-diversified portfolio of equity securities of issuers in Emerging Markets excluding China or of issues established outside of Emerging Markets, which have a predominant proportion of their assets or business operations in Emerging Markets excluding China and which are listed, traded or dealt in or on Recognised Exchanges worldwide. It is not proposed to concentrate investments in any one industry or sector.

The Fund is considered to be actively managed in reference to MSCI Emerging Markets ex China Index (the “Benchmark”) by virtue of the fact that it uses the Benchmark for performance comparison purposes. The Benchmark is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of emerging markets excluding China. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmark. However, the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

Polen Capital China Growth Fund

The investment objective of the Fund is to seek long-term growth of capital. The Fund seeks to achieve its objective by investing in a well-diversified portfolio of equity securities issued by companies with either the predominant part of their assets in, or the predominant part of their revenues derived from or which have the predominant proportion of their business operations in, the People’s Republic of China (“PRC”), Hong Kong and/or Taiwan which are listed, traded or dealt in on Regulated Exchanges. While the Sub-Investment Manager will monitor position size, country and sector weightings, it is not proposed to concentrate investments in any one country other than the PRC, industry or sector.

The Fund is considered to be actively managed in reference to the MSCI China All Shares Index (the “Benchmark”) by virtue of the fact that it uses the Benchmark for performance comparison purposes. Certain of the Fund’s securities may be components of and may have similar weightings to the Benchmark. However, the Benchmark is not used to define the portfolio composition of the Fund or as a performance target and the Fund may be wholly invested in securities which are not constituents of the Benchmark.

Polen Capital Global Emerging Markets Growth Fund

The investment objective of the Fund was to seek long-term growth of capital. The Fund sought to achieve the investment objective through investment in a well-diversified portfolio of equity securities of issuers in the Emerging Markets or of issuers established outside of the Emerging Markets, which have a predominant proportion of their assets or business operations in the Emerging Markets and which are listed, traded or dealt in or on Recognised Exchanges worldwide. It was not proposed to concentrate investments in any one industry or sector. The Fund might have from time to time also purchased the common stock of companies whose shares are listed or traded on Recognised Exchanges globally which have substantial business in, or revenues from Emerging Markets if the Investment Manager was of the opinion that the stock represents a particularly attractive investment opportunity in accordance with its investment strategy. The Fund might have invested up to 20% of net assets in securities which are listed or traded on the Moscow Exchange. The Fund might have also invested in Global Depositary Receipts, American Depositary Receipts, European Depositary Receipts, and International Depositary Receipts where deemed appropriate by the Investment Manager in order to gain exposure to international stocks rather than purchasing the stock directly from the underlying company in order to achieve the investment objective of the Fund. Investment by the Fund in these instruments would have limited the need for the Fund to transact in foreign currencies to achieve the investment objective of the Fund.

The Fund was considered to be actively managed in reference to MSCI Emerging Markets Index (the “Benchmark”) by virtue of the fact that it uses the Benchmark for performance comparison purposes. The Benchmark is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of emerging markets. Certain of the Fund’s securities might have been components of and may have similar weightings to the Benchmark. However, the Benchmark was not used to define the portfolio composition of the Fund or as a performance target and the Fund might have been wholly invested in securities which are not constituents of the Benchmark.

This Fund was terminated on 12 December 2023.

Background to Company (continued)**Investment Restrictions & Prohibited Investments**

Investment of the assets of each Fund must comply with the European Communities (Undertakings for Collective Investments in Transferable Securities) Regulations, 2011 (as amended), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (the “UCITS Regulations”), as amended and the Companies Act 2014. The Directors may impose further restrictions in respect of any Fund. Each Fund may also hold ancillary liquid assets. Permitted Investments and Investment Restrictions are provided in the Prospectus of the Company.

SFDR & Taxonomy Regulation

Information on the environmental and social characteristics promoted by each of the Funds is available in the annexes to the financial statements.

**Investment Manager's Report
For the financial year ended 31 December 2023****Polen Capital Focus U.S. Growth Fund****Market Commentary**

U.S. equities rebounded strongly in 2023 after the turmoil of 2022's extended sell-off, delivering total returns beyond even the most optimistic expectations. Growth equities far outpaced their value counterparts. Investors had largely begun to adjust for the rapid shift in the interest rate environment and subsequently the steady decline in inflation has primed markets for the expectation of interest rate cuts in 2024. Equity markets were also supported by the explosion of interest in generative AI and any company perceived to potentially benefit from this emergent technology delivered outsized returns. Indeed, a new market cohort, 'The 'Magnificent 7'', emerged, leading to highly concentrated indices and component returns. Volatility was the hallmark of bond markets in 2023, with the 10-year Treasury yield oscillating markedly despite being unchanged at 3.88% for the whole year. This masks an intra-year high and low yield of 4.99% and 3.31% respectively. Oil was similarly volatile, driven by coordinated production cuts, conflict in the Middle East and changing expectations for growth.

Fund Performance & Attribution

Over the year, the Polen Capital Focus U.S. Growth Fund (the "Fund") returned 35.14% net of fees, versus the 42.68% return for the Russell 1000 Growth Index (the "Index"). While pleased with strong absolute performance, Fund underperformance relative to the Index was driven by a combination of security selection and sector allocation. In particular, security selection was weakest in Health Care and Information Technology, partially offset by strong stock selection in Consumer Discretionary. Sector Allocation was mixed, with a tailwind from zero weighting to Consumer Staples and Industrials largely offset by relative positioning in Healthcare and Information Technology. As a reminder, the outcome of sector positioning is entirely driven by bottom-up stock picking.

The Fund's most significant individual contributors to relative performance over the year were Salesforce, ServiceNow, and Amazon while the most significant relative detractors from performance were Illumina, NVIDIA (not owned, +239% in 2023) and PayPal. The most significant absolute contributors included Amazon, Alphabet, and Netflix, while the largest absolute detractors included Illumina, PayPal, and DocuSign.

Fund Activity

As expected, during periods of heightened volatility and a shifting economic environment, we have refined the Fund opportunistically. This included initiating positions in companies that have been unfairly punished and taking profits by trimming companies that have held up well and those that we believe have lower return expectations going forward. Over the year we initiated 3 new positions and eliminated 2 positions, taking the total number of holdings from 22 to 23. Much of our activity was trims and adds to existing positions and the result was turnover generally in-line with our historical range.

Outlook

We began 2023 expecting to see accelerating earnings growth for the Fund on a weighted average basis. As the year closed, the Fund was on pace for better than 20% earnings per share growth in 2023, which is well above the Fund's long-term, mid-teens average. According to our research, even in a slowing global economy, the businesses we seek to invest in have tended to grow at double-digit rates, especially as a number of held companies are moving further past a very challenging 2022. We plan to continue to use volatility to take advantage of potential pricing anomalies and become more concentrated in our best investment ideas for the next five-plus years.

Past performance is not indicative of future results. Profitable results cannot be guaranteed. Returns are presented net of management fees and have been calculated after the deduction of all transaction costs and commissions and include the reinvestment of all income. Net of fee performance was calculated using actual management fees.

This information is being provided for informational purposes only and should not be construed as a recommendation to purchase, hold or sell any particular security. There is no assurance that any securities discussed herein will remain in the Fund or that the securities sold will not be repurchased. Holdings are subject to change without notice. The securities discussed do not represent the entire Fund. It should not be assumed that any of the securities, transactions or holdings discussed will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein. A complete list of our past specific recommendations for the last year is available upon request.

**Investment Manager's Report (continued)
For the financial year ended 31 December 2023****Polen Capital U.S. Small Company Growth Fund****Market Commentary Section**

As the year began, inflation was still running well above historical averages and the debate centered on whether we would have a mild or severe recession. As the year progressed, sentiment deteriorated further with the collapse of SVB Financial in March and subsequent fears about credit contagion to Chinese economic weakness and rising global geopolitical tensions. Against this backdrop, interest rates continued to rise, with the 10-year US Treasury reaching 5%, its highest level since 2007. Equity markets rose sharply over the last few months, buoyed by optimism that falling inflation would lead to lower interest rates in 2024. Over the year Information Technology and Industrials sectors were the strongest performing, while large cap outperformed small cap and growth indices outperformed value.

Fund Performance & Attribution Section

Over the year, The Polen Capital U.S. Small Company Growth Fund (the "Fund") returned 21.74% net of fees, versus the 18.66% return for the Russell 2000 Growth Index (the "Index"). Fund outperformance was driven primarily by a combination of security selection and sector allocation. Security selection was strongest in Information Technology and Financials and was weakest in Health Care and Consumer Discretionary. Sector Allocation contributed to relative returns, primarily stemming from the overweight to Information Technology, underweight to Health Care and zero weight in Energy. As a reminder, the outcome of sector positioning is entirely driven by bottom-up stock picking.

The Fund's most significant individual contributors to relative and absolute performance over the year were Goosehead Insurance, Wingstop, and Hamilton Lane, while the most significant relative and absolute detractors from performance were Bumble, Revolve Group, and Fox Factory Holdings.

Fund Activity

As expected, during periods of heightened volatility and a shifting economic environment, we have refined the Fund opportunistically. This included initiating positions in companies that have been unfairly punished and taking profits by trimming companies that have held up well and those that we believe have lower return expectations going forward. Over the year we initiated 12 new positions and sold out of 9 companies, taking the total number of holdings from 32 to 35. Much of our activity was trims and adds to existing positions and the result was turnover generally in-line with our historical range.

Outlook

Looking ahead to 2024 and beyond, we see significant opportunity for the asset class, and particularly for our style of investing. In our opinion, high quality small cap companies have greater latent potential for growth relative to more mature businesses. The most advantaged small cap companies will be more likely to take advantage of strong balance sheets and continued reinvestment to advance their competitive position, tackle adjacencies and have a better potential opportunity for value-added acquisitions. Of course, many companies do not meet this high hurdle, which is why we hold a concentrated portfolio of companies that do not just offer the potential for growth and high returns but also durability, robust financial models, the ability to self-fund growth, and what we believe to be superior management teams.

We believe great investing requires a clear and time-tested philosophy, a disciplined process, and conviction. It also requires great humility and a willingness to change your view when the evidence requires it—something we are always prepared to do. We look forward to keeping you updated on our views in future commentary.

Past performance is not indicative of future results. Profitable results cannot be guaranteed. Returns are presented net of management fees and have been calculated after the deduction of all transaction costs and commissions and include the reinvestment of all income. Net of fee performance was calculated using actual management fees.

Investment Manager's Report (continued)
For the financial year ended 31 December 2023**Polen Capital International Growth Fund****Market Commentary Section**

As the year began, inflation was still running well above historical averages and the debate centered on whether we would have a mild or severe recession. As the year progressed, sentiment deteriorated further with the collapse of SVB Financial in March and subsequent fears about credit contagion to Chinese economic weakness and rising global geopolitical tensions. Against this backdrop, interest rates continued to rise globally. Equity markets rose sharply over the last few months of the year, buoyed by optimism that falling inflation would lead to lower interest rates in 2024. Over the year Information Technology and Industrials sectors were the strongest performing, while large cap outperformed small cap and growth indices outperformed value.

Fund Performance & Attribution Section

Over the year, The Polen Capital International Growth Fund (the "Fund") returned 27.73% net of fees, versus the 15.62% return for the MSCI ACWI ex US Index (the "Index"). Fund outperformance was driven by a combination of security selection and sector allocation. Security selection was strongest in Health Care, Consumer Discretionary, and Information Technology and was weakest in Industrials and Financials. Sector Allocation contributed to relative returns as well, primarily stemming from the overweight to Information Technology. As a reminder, the outcome of sector positioning is entirely driven by bottom-up stock picking.

The Fund's most significant individual contributors to relative and absolute performance over the year were Sage Group, ICON PLC, and Shopify while the most significant relative detractors from performance were Teleperformance, AON, and Unilever. The most significant absolute detractors included Teleperformance and Unilever as well, but CSL had a bigger absolute impact than AON.

Fund Activity

As expected, during periods of heightened volatility and a shifting economic environment, we have refined the Fund opportunistically. This included initiating positions in companies that have been unfairly punished and taking profits by trimming companies that have held up well and those that we believe have lower return expectations going forward. Over the year we initiated 3 new positions and did not eliminate any positions, taking the total number of holdings from 23 to 26. Much of our activity was trims and adds to existing positions and the result was turnover generally in-line with our historical range.

Outlook

Heading into 2024, conflicts in Western Asia and Eastern Europe are front of mind and threaten to disrupt the flow of traded goods. Further geopolitical uncertainty percolates in the background elsewhere, from the western Pacific to the southern Caribbean. Most economies continue to tread a fine line between positive, slow growth or a garden variety downturn.

The Fund holds what we believe to be competitively advantaged businesses whose weighted average earnings are expected to grow at a mid-teens rate over time. In our view, a portfolio of well positioned businesses supports confidence that short term disruptions are speedbumps on the road to long term success. Please feel free to reach out with any questions you might have.

Past performance is not indicative of future results. Profitable results cannot be guaranteed. **Investment Manager's Report (continued)
For the financial year ended 31 December 2023****Polen Capital Global Emerging Markets Growth Fund**

Please note that this Fund terminated on 12 December 2023.

Market Commentary

The MSCI Emerging Markets Index (the "Index") delivered a return of 4.6% for the year to end 12 December. During this period the strongest markets included Brazil, Taiwan and Poland while the weakest markets included China, South Africa and Thailand.

Fund Performance & Attribution Section

In the period, 31 December 2022 to 12 December 2023, the Polen Capital Global Emerging Markets Growth Fund (the "Fund") underperformed the Index. From a country perspective, the largest negative detractors from relative performance included a relative underweight to South Korea (the portfolio presently has no investments in the market relative to 13% weight in the index) which was among the stronger markets in the period, security selection in India and the Fund's relative underweight in Taiwan. Exposures in Vietnam and Uruguay contributed most to relative performance.

The Fund's most significant individual contributors to absolute returns over the period were Mercado Libre, FEMSA and FPT Corp while the most significant detractors were Meituan, Alibaba and Momo.com.

Fund Activity

All Fund positions were liquidated in the period.

Investment Manager's Report (continued)
For the financial year ended 31 December 2023**Polen Capital Global SMID Company Growth Fund****Market Commentary Section**

As the year began, inflation was still running well above historical averages and the debate centered on whether we would have a mild or severe recession. As the year progressed, sentiment deteriorated further with the collapse of SVB Financial in March and subsequent fears about credit contagion to Chinese economic weakness and rising global geopolitical tensions. Against this backdrop, interest rates continued to rise, with the 10-year US Treasury reaching 5%, its highest level since 2007. Equity markets rose over the last few months, buoyed by optimism that falling inflation would lead to lower interest rates in 2024. Over the year Information Technology and Industrials sectors were the strongest performing, while large cap outperformed small cap and growth indices outperformed value.

Fund Performance & Attribution Section

Over the year, The Polen Capital Global SMID Company Growth Fund (the "Fund") returned 11.61% net of fees, versus the 16.02% return for the MSCI ACWI SMID Cap Index (the "Index"). Fund underperformance was driven primarily by security selection, as weaker selection in Industrials and Information Technology outweighed stronger selection in Financials and Health Care sectors. Sector Allocation contributed to relative returns, primarily due to our overweight to Information Technology and zero weight in Utilities. As a reminder, the outcome of sector positioning is entirely driven by bottom-up stock picking.

The Fund's most significant individual contributors to relative and absolute performance over the year were Goosehead Insurance, Floor & Décor and Dechra Pharmaceutical, while the most significant relative and absolute detractors from performance were Keyword Studios, Paycom Software and Revolve Group.

Fund Activity

As expected, during periods of heightened volatility and a shifting economic environment, the investment manager has refined the Fund opportunistically. Additionally, in December, changes were made to how the Fund will be run, departing from a sole portfolio manager approach, to one that will be managed by a team of portfolio managers. This involved portfolio turnover as the new portfolio managers implemented changes.

Outlook

We continue to stay focused on the long-term value propositions, competitive advantages, ongoing initiatives, growth opportunities, and potential earnings power of our Portfolio companies. While the market remains dynamic, we are confident that the portfolio is well positioned to continue to deliver strong EPS growth into 2024 and beyond. While valuations have recovered somewhat this year, the Global SMID asset class remains attractive on both an absolute and relative basis, and the fundamentals of the Portfolio remain sound.

Past performance is not indicative of future results. Profitable results cannot be guaranteed. Returns are presented net of management fees and have been calculated after the deduction of all transaction costs and commissions and include the reinvestment of all income. 31 January 2024

Investment Manager's Report (continued)
For the financial year ended 31 December 2023**Polen Capital Emerging Markets ex China Growth Fund****Market Commentary**

The MSCI Emerging Markets Ex-China Index (the "Index") delivered a return of 20% in 2023. There were significant gains in many of the largest markets with Taiwan (30%), South Korea (23%), and Brazil (33%) among the strongest. Taiwan and Korea saw strong gains particularly in Tech related companies driven to some degree by an investor rush towards AI related companies. Brazil was also a top performer amid easing fiscal policy concerns, optimism about potential rate cuts and a better-than-expected GDP prints and significant improvements in their current account. Most other markets ended the year in positive territory with the notable exceptions of Thailand (-10%) and Turkey (-6%).

Fund Performance & Attribution Section

The Polen Capital Emerging Markets Ex-China Growth Fund (the "Fund") returned 11.6% net of fees, versus the 20.0% return for the Index. From a country perspective, the Fund's relative underweight in Taiwan and non-index exposures in both Vietnam and Cambodia were the main detractors in the review period. Exposures in India, Mexico and an off-index exposures in Uruguay, contributed most to relative performance in the period.

Among the Fund's most significant individual contributors to absolute returns over the period were Mercado Libre, Bajaj Auto and FEMSA while the most significant detractors were Naga Corp, Phu Nhuan Jewelry and Home Product Centre.

Fund Activity

Fund activity included adding a new position in E Ink in Taiwan and Infosys in India while the Fund sold a position in Vietnam Dairy Products.

Outlook

We expect volatility to persist though we do note that growth has been and will likely continue to be robust in several of the countries in the universe. Many of the emerging economies are in a stronger position now than in the past. Unlike developed market peers, there has been less dependence on quantitative easing and extremely low interest rates. As such inflation is less of a concern while debt levels (overall) are also manageable in our view. Valuations are typically also much less demanding in the emerging space relative to developed markets peers, particularly in the higher quality space which has generally underperformed the more cyclical and value orientated parts of the markets in the past 12 to 18 months.

As investors, we focus our attention on long-term fundamentals of the companies in the Fund. Our conviction in our investment's competitive advantages, sustainability, and durability remains high, and we believe the Fund is well-positioned to navigate the future. Looking ahead, we remain dedicated to finding companies with competitive advantages that we believe can compound earnings and cash flows over the long term, independent of commodity swings or economic cycles.

Past performance does not guarantee future results. Profitable results cannot be guaranteed. Returns are presented net of management fees and have been calculated after the deduction of all transaction costs and commissions and include the reinvestment of all income. Net of fee performance was calculated using actual management fees.

Damian Bird and Dafydd Lewis
31 January 2024

Investment Manager's Report (continued)
For the financial year ended 31 December 2023**Polen Capital China Growth Fund (for period from 28 April to 31 December 2023)****Market Commentary**

Chinese equity markets, as measured by the MSCI China All Shares Index, remain volatile and declined over the period. Shifting sentiment around expectations of policy stimulus, the fortunes of the property market, geopolitical tensions, and data around consumer spending have all influenced sentiment and the direction of equity market returns. Monetary easing measures, stamp duty cuts for share trading, low valuations, and encouraging consumer data have provided some ballast, while lack of support for the real estate sector, record foreign outflows from Chinese equities, and impatience surrounding lack of policy support have weighed on the market. Energy was the only sector to post positive returns, while Real Estate and Industrials were the weakest.

Fund Performance & Attribution Section

The Polen Capital China Growth Fund (the "Fund") returned -18.56% net of fees, versus the -11.35% return for MSCI China All Shares Index (the "Index") since inception of the Fund on the 28th April 2023.

Relative underperformance was primarily driven by security selection. Security selection was strongest in the Industrials and Real Estate sectors but was outweighed by weaker selection in Financials and Consumer Staples sectors. Sector allocation, a fall-out of our bottom-up process, also detracted from relative returns, primarily due to the Fund's zero weight in the Energy sector.

The top individual contributors to relative returns over the period were Shenzhen Inovance, China Resources Gas Group, and Zhejiang Supor. The largest individual detractors from relative performance were PDD Holdings (zero weight), AK Medical, and Sino Wealth Electronic. On an absolute basis, Tencent Music Entertainment, China Resources Gas Group, and Zhejiang Supor were the top contributors to returns, while Meituan, AIA Group and Ping An Insurance detracted the most from absolute returns.

Fund Activity

We initiated four new positions over the period, sold out of three, and made some minor adjustments to existing holdings. This reflects our conviction in our Portfolio and our long-term holding period.

Outlook

We believe that even in a slowing economy, the businesses we seek to invest in can grow at double-digit rates. In our view, China's domestic economy has various areas which will develop and grow as a result of the secular trends of urbanization, income growth, and technological advancement. Yet, the extreme pessimism in the Chinese equity market in the past year has brought valuation levels to a significant discount relative to global peers, presenting investors with what we believe to be, one of the best opportunities we've seen in years to become owners of high-quality businesses that may benefit from China's economic transformation over the next decade.

Past performance is not indicative of future results. Profitable results cannot be guaranteed. Returns are presented net of management fees and have been calculated after the deduction of all transaction costs and commissions and include the reinvestment of all income. Net of fee performance was calculated using actual management fees.

31 January 2024

Directors' Report
For the financial year ended 31 December 2023

The Directors present the Annual Report including the audited financial statements of Polen Capital Investment Funds plc (the "Company") for the financial year ended 31 December 2023.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with International Financial Reporting Standards (IFRS) as adopted by the EU.

Under Irish company law and applicable accounting standards the Directors are required to prepare financial statements for each financial year, which give a true and fair view of the state of affairs of the Company and of the profit or loss of the Company for that financial year. In preparing those financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent and;
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.
- state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the financial statements. The financial statements have been prepared in accordance with IFRS as adopted by the EU.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Company and which enable them to ensure that the financial statements are prepared in accordance with IFRS as adopted by the EU and comply with the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011), as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (the "UCITS Regulations"). They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Directors are responsible for the maintenance and integrity of the corporate and financial information of the Company included on the website of Polen Capital Management LLC (www.polencapital.com). Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Accounting Records

To ensure that adequate accounting records are kept in accordance with Section 281 to 285 of the Companies Act 2014 the Directors of the Company have employed a service organisation, CACEIS Investor Services Ireland Limited ("the Administrator"). The accounting records are located at the offices of the Administrator at 4th Floor, One George's Quay Plaza, George's Quay, Dublin 2. The Directors have engaged CACEIS Investor Services Bank S.A., Dublin Branch, to act as Depositary with a duty to safeguard the assets of the Company. The Depositary has the power to appoint sub-custodians.

Date of Incorporation

The Company was incorporated on 17 January 2013 and was authorised as an Undertakings for Collective Investment in Transferable Securities ("UCITS") by the Central Bank of Ireland. The Company is organised as an investment company with variable capital pursuant to the UCITS Regulations.

Principal activities

The principal activities of the Company are described in the "Background to Company" and "Investment Objective and Policy" on pages 7 to 9.

Review of Business and Future Developments

The Directors have entrusted the management of the Company to the Investment Manager. A comprehensive overview of the Company's trading activities is detailed in the Investment Manager's Report on pages 11 to 23.

Directors' Report (continued)
For the financial year ended 31 December 2023**Risk Management Objectives and Processes**

The Company operates on the principle of risk spreading in accordance with the UCITS Regulations. Achievement of the investment objectives involves taking risks. The Investment Manager exercises judgement based on analysis, research and risk management techniques when making investment decisions.

Investment in equities, cash and derivatives exposes a sub-fund to varying risks, including market and liquidity risks. A description of the specific risks and the processes for managing these risks are included in note 2 to the financial statements. The Prospectus provides details of these and other types of risks some of which are additional to that information provided in these financial statements.

Cybersecurity breaches may occur allowing an unauthorized party to gain access to assets of the Funds, Shareholder data, or proprietary information, or may cause the Company, the Investment Manager, the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality.

The Funds may be affected by intentional cybersecurity breaches which include unauthorized access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of Shareholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Company, the Investment Manager, the Distributor, the Manager, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, Shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its Shareholders, could potentially lose all or a portion of their investment with that issuer.

Results and Dividends

The financial position and results for the financial year are set out on pages 37 to 40. Dividends paid during the financial year amount to USD nil (2022: USD 18,523,790). During the financial year the dividends declared amounted to USD nil (2022: USD nil).

Statement of Audit Information

The Directors confirm that during the financial year end 31 December 2023:

- a) So far as the Directors are aware, there is no relevant audit information of which the Company's statutory auditors are unaware, and
- b) The Directors have taken all steps that ought to have been taken by the Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Diversity

Owing to the organisational structure and operating model of the Company, whereby most activities/operational tasks have been delegated by the Company to its various service providers, the only employees of the Company are the Directors.

The Board acknowledges the importance of diversity to enhance its operation. During the selection process, the Board is committed to selecting those with diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes.

The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each director to contribute individually, and as part of the board team, to the effectiveness of the Board.

Subject to that overriding principle, the Board believe that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst board members is of great value when considering overall board balance in making new appointments to the Board.

Directors' Report (continued)
For the financial year ended 31 December 2023

Diversity (continued)

The Board's priority is to ensure that it continues to have strong leadership and the relevant skills to deliver the business strategy. The implementation of the Board's diversity policy is monitored by the Board which reviews the balance of skills, knowledge, experience and diversity on the Board and leads the process for making appointments to the Board.

The Board will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminatory.

Significant Events During the Financial Year

Polen Capital China Growth Fund was launched on 28 April 2023.

The following are share classes of the Funds that have been launched:

Fund	Class	Launch Date
Polen Capital China Growth Fund	U.S. Dollar Class (Institutional) Shares	28 April 2023
Polen Capital Focus U.S. Growth Fund	U.S Dollar D Class (Institutional Unhedged Distributing) Shares	3 August 2023

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS acquired the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank).

Completion of the sale of IS Bank occurred 3 July 2023, following regulatory approval. As a result RBC Investor Services Ireland Limited has become CACEIS Investor Services Ireland Limited and RBC Investor Services Bank S.A., Dublin Branch has become CACEIS Investor Services Bank S.A., Dublin Branch.

Following consultation with the Investment Manager, the Board of Directors made a decision to terminate Polen Capital Global Emerging Markets Growth Fund. The final Dealing Day of the Polen Capital Global Emerging Markets Growth Fund was on 12 December 2023.

Details of the material changes to Prospectus are included in note 15.

Significant Events Since the Financial Year End

There were no other significant events since the financial year end.

Directors

The Directors of the Company are Brian Goldberg, Bronwyn Wright, Jason Mullins, Kevin O'Neill and Mike Guarasci.

Unless otherwise stated the Directors have served for the full financial year.

Directors' and Secretary's Interests

At the reporting date neither the Directors nor any associated person or the Company Secretary have any beneficial interest in the share capital of the Company or held any options in respect of such capital.

Connected Persons

Regulation 43 of the Central Bank UCITS Regulations 'Restrictions of transactions with connected persons' states that 'A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit holders of the UCITS'.

As required under Central Bank UCITS Regulation 81(4), the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 42 and 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 42 and 43(1).

Directors' Report (continued)
For the financial year ended 31 December 2023**Connected Persons (continued)**

The following were connected persons of the Funds during the financial year ended 31 December 2023:

Connected Person	Name
Investment Manager and Distributor	Polen Capital Management, LLC
Sub-Investment Manager	Polen Capital UK LLP
	Polen Capital HK Limited
Depository	CACEIS Investor Services Bank S.A., Dublin Branch
Administrator	CACEIS Investor Services Ireland Limited
Manager	Amundi Ireland Limited

Independent Auditor

The independent auditors, PricewaterhouseCoopers, have indicated their willingness to continue in office in accordance with Section 383(2) of the Companies Act 2014.

Directors Compliance Statement

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act 2014). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors confirm that:

- 1) A compliance policy document has been drawn up that sets out policies, that in our opinion are appropriate to the Company, respecting compliance by the Company with its relevant obligations;
- 2) Appropriate arrangements or structures are in place that are, in our opinion, designed to secure material compliance with the Company's relevant obligations, and
- 3) During the financial year, the arrangements or structures referred to in (2) have been reviewed.

Corporate Governance Statement

Irish Funds published a corporate governance code in December 2011, the Corporate Governance Code for Collective Investment Schemes and Management Companies (the "Code") that may be adopted on a voluntary basis by Irish authorised collective investment schemes. Effective 6 March 2013 the Directors formally adopted the Code as the Company's corporate governance code. The Board of Directors have determined to apply the provisions of the Code and have and have assessed the measures included in the Code as being consistent with its corporate governance practices and procedures for the financial year. The text of the Code is available from www.irishfunds.ie.

Directors' Report (continued)
For the financial year ended 31 December 2023

Audit Committee Statement

Under section 167 of the Companies Act 2014, the Directors confirm that an audit committee has not been established. The Directors believe that there is no requirement to form an audit committee as the Board of Directors has only non-executive directors and at least one independent director and the Company complies with the provisions of the Code issued by Irish Funds.

On behalf of the Board

Bronwyn Wright

**Report of the Depositary to the Shareholders
For the year ended 31 December 2023**

As required by the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (“the Regulations”) and solely within the context of our oversight duties as depositary, we are pleased to present our report as follows.

In our opinion, Polen Capital Investment Funds plc (the “Company”) has been managed for the year ended 31 December 2023:

- (i) In accordance with the limitations imposed on the investment and borrowing powers of the Company by the Memorandum & Articles of Association and the Regulations; and
- (ii) Otherwise in accordance with the provisions of the Memorandum & Articles of Association and the Regulations.

Independent auditors' report to the members of Polen Capital Investment Funds PLC

Report on the audit of the financial statements

Opinion

In our opinion, Polen Capital Investment Funds PLC's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2023 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards ("IFRSs") as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2023;
- the Statement of comprehensive income for the year then ended;
- the Statement of Cash flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2023; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Our audit approach

Overview

	<p>Materiality</p> <ul style="list-style-type: none"> Overall materiality: 50 Basis points (2022: 50 Basis points) of Net Asset Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds. Performance materiality: 75% of overall materiality.
	<p>Audit scope</p> <ul style="list-style-type: none"> The Company is an open-ended investment Company with variable capital and engages Amundi Ireland Limited (the "Manager") to manage certain duties and responsibilities with regards to the day-to-day management of the Company. We tailored the scope of our audit taking into account the types of investments within the Funds, the involvement of third parties, the accounting processes and controls, and the industry in which the Company operates. We look at each of the Funds at an individual level.
	<p>Key audit matters</p> <ul style="list-style-type: none"> Valuation and existence of financial assets at fair value through profit or loss: investment in transferable securities.

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p><i>Valuation and existence of financial assets at fair value through profit or loss: investment in transferable securities</i></p> <p>See the accounting policies set out in note 1 (d) Significant Accounting Policies – Investment Transactions and Valuations and note 3 Fair Value Measurements.</p> <p>The financial assets at fair value through profit or loss: investment in transferable securities in the Statement of Financial Position held in the Funds' name as at 31 December 2023 are valued at fair value in line with International Financial Reporting Standards ("IFRSs") as adopted by the European Union.</p> <p>This is considered a key audit matter as it represents the principal element of the financial statements.</p>	<p>We tested the existence of financial assets at fair value through profit or loss: investment in transferable securities by obtaining independent confirmations from the Depositary of the investment portfolios held as at 31 December 2023 and agreeing the positions held to the accounting records.</p> <p>We tested the valuation of financial assets at fair value through profit or loss: investment in transferable securities by independently comparing the valuation of the investment portfolios to third party vendor sources.</p> <p>No material misstatements were identified as a result of the procedures we performed.</p>

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2023 there are seven Funds operating. The Company's Statement of Financial Position , Statement of comprehensive income, Statement of Cash flows and Statement of Changes in Net Asset Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to Polen Capital Management,LLC (the 'Investment Manager') and to Caceis Investor Services (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed Caceis Investor Services (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

<i>Overall materiality and how we determined it</i>	50 Basis points (2022: 50 Basis points) of Net Asset Value ("NAV") at 31 December 2023 (2022: 31 December 2022) for each of the Company's Funds.
<i>Rationale for benchmark applied</i>	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each fund's NAV, for NAV per share impacting differences (2022: 5 basis points of each fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Company's and Funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the key indicators that are monitored with respect to the going concern assumption and management's future plans for the Company and Funds over the going concern period (being 12 months from the date of approval of the financial statements) by considering management's assessment of going concern, as per note 1 (a) Significant Accounting Policies - Basis of Preparation.
- Reviewing available board minutes during the period under audit and those available up to the date of this report.
- Considering post year end capital activity as recorded in the underlying records.

- Making enquiries with the Investment Manager with respect to any planned significant redemptions of which they have been informed.
- Considering the liquidity risk management techniques which are available to the Company and Funds, as detailed in note 2 (d) Financial Risk Management - Liquidity Risk.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 24, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will

always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to the posting of inappropriate journal entries.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Enquiry of entity staff in tax and compliance functions to identify any instances of non-compliance with laws and regulations.
- Identifying and testing journal entries, where any such journal entries, that met our specific risk based criteria, were identified;
- Testing accounting estimates to supporting documentation;
- Reviewing relevant minutes of the meetings of the board of directors; and
- Reviewing financial statement disclosures and agreeing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Notes to the Financial Statements For the financial year ended 31 December 2023

1. Significant Accounting Policies

a) Basis of Preparation

Polen Capital Investment Funds plc (the “Company”) is an open-ended umbrella investment company with variable capital and with limited liability. At the financial year end there were six Funds (the “Funds”) which had been launched in the umbrella. The financial statements are prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011), as amended and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019 (the “UCITS Regulations”), and the requirements of the Companies Act 2014.

The financial statements have been prepared under the historical cost convention as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The Company’s management has made an assessment of the Company’s ability to continue as a going concern and is satisfied that the Company has the resources to continue in business for the foreseeable future. Furthermore, management is not aware of any material uncertainties that may cast significant doubt upon the Company’s ability to continue as a going concern. Therefore, the financial statements continue to be prepared on the going concern basis. For further information on liquidity risk see note 2 (d).

The preparation of financial statements requires the Directors to make judgments, estimates and assumptions that affect the application of policies and the reported amounts of assets, liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. The accounting policies have been applied consistently by the Company.

b) New Accounting Pronouncements Amendments and Interpretations

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning on or after 1 January 2023. None of these have had a material effect on the financial statements of the Company.

There are no other standards, interpretations or amendments to existing standards that are not yet effective and are expected to have a significant impact on the financial statements of the Company and the Funds.

c) Income Recognition

Dividend income is recognised in the Statement of Comprehensive Income on the date the related security is listed “ex dividend” and is stated gross of any withholding tax. Bank interest is recognised on an accruals basis in line with the contractual terms. Interest is accrued on a daily basis. Other income includes miscellaneous items such as tax refunds or amounts of prepaid expenses. In line with capped TER fee agreement, expense reimbursement is recognised in the Statement of Comprehensive Income as income position when expenses exceed capped threshold.

d) Investment Transaction and Valuations

(i) Classification

Pursuant to IFRS 9 the Funds classify their financial assets as measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- the business model for managing the financial assets; and
- the contractual cash flow characteristics of the financial assets.

1. Assets

The Funds classify their investments based on both the Funds’ business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The portfolio of financial assets is managed and performance is evaluated on a fair value basis. The Funds are primarily focused on fair value information and uses that information to assess the assets’ performance and to make decisions. The Funds have not taken the option to irrevocably designate any equity securities as fair value through other comprehensive income. The collection of contractual cash flows is only incidental to achieving the Funds’ business model’s objective. Consequently, all investments are measured at fair value through profit or loss.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**1. Significant Accounting Policies (continued)****d) Investment Transaction and Valuations (continued)****(i) Classification (continued)****2. Liabilities**

Derivative contracts that have a negative fair value are presented as liabilities at fair value through profit or loss. As such, the Company classifies all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

(ii) Measurement and Recognition

Under IFRS 9 all of the Funds' financial assets and financial liabilities measured at fair value through profit or loss are mandatorily measured at fair value in accordance with IFRS 9 with no assets being designated.

The Funds recognised financial assets and liabilities on the date it becomes party to the contractual provisions of the instruments, and all significant rights and access to the benefits or losses and the exposure to the risks inherent in those instruments are transferred to the Funds; generally the trade date. From this date, any gains and losses arising from changes in fair values of the assets and liabilities are recorded in the Statement of Comprehensive Income in the year to which they arise. Financial instruments are initially measured at fair value which is generally the transaction amount (excluding transaction costs which are expensed as incurred). For financial assets, the transaction amount is the fair value of the consideration given and for financial liabilities the transaction amount is the fair value of the consideration received. Financial assets at fair value through profit or loss are subsequently re-measured at fair value.

The fair value of listed financial instruments is based on their quoted market price at the Statement of Financial Position date. Where a security is listed or dealt in on more than one Recognised Exchange the relevant exchange or market shall be the principal stock exchange or market on which the security is listed or dealt on or the exchange or market which the Directors determine provides the fairest criteria in determining a value for the relevant investment. Pricing is based on quoted last traded prices for long securities and quoted offer prices for short securities which is in accordance with the prospectus.

If a quoted market price is not available on a recognised stock exchange or, in the case of non-exchange traded financial instruments, from a broker/dealer, the value shall be the probable realisation value estimated by the Directors with care and in good faith or by a competent person appointed by the Directors and approved for the purpose by the Depositary.

The fair value of all investments traded on a regulated market, held at 31 December 2023 and 31 December 2022, are based on their quoted market price. The fair value of all non-exchange traded financial instruments is based on broker/dealer prices.

Gains and losses arising from a change in the fair value of investments are recognised in the Statement of Comprehensive Income.

(iii) Derecognition

The Funds derecognise financial assets when the contractual right to the cash flows from financial assets expires or it transfers the financial asset and the transfer qualifies for derecognition in accordance with IFRS 9.

The Funds use the weighted average method to determine realised gains and losses on derecognition.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

(iv) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the assets and settle the liability simultaneously.

There were no master netting agreements in place as at 31 December 2023 (none as at 31 December 2022).

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**1. Significant Accounting Policies (continued)****e) Cash and Cash Equivalents**

Cash comprises current deposits with banks as disclosed in note 5 to the financial statements. Cash equivalents are short-term highly liquid investments maturing in less than three months that are readily convertible to known amounts of cash, are subject to a insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes. Cash and cash equivalents includes also bank overdrafts. Bank overdrafts are shown in line 'Bank overdraft' in the Statement of Financial Position.

f) Fees and Charges

In accordance with the Prospectus, management fees, administration fees, depositary fees and other operating expenses are charged to the Statement of Comprehensive Income on an accrual basis.

g) Transaction Costs

Transaction costs include fees and commissions paid to agents, advisers, brokers and dealers, levies by regulatory agencies and security exchanges, and transfer taxes and duties. Transaction costs do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs relate to the purchase and sale of investments.

h) Net Asset Value

The Net Asset Value per Share shall be calculated as at the Valuation Point on or with respect to each Dealing Day by dividing the Net Asset Value of the relevant Funds or attributable to a Class by the number of Shares in issue, or deemed to be in issue, in the Funds or Class at the relevant Valuation Point and rounded to two decimal places.

i) Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act of 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of redeemable participating shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

- (a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act of 1997, as amended, are held by the Company; and
- (b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

In October 2021, the OECD/G20 Inclusive Framework agreement set out to reform the international tax framework. A two-pillar solution, the second pillar, "Pillar Two", primarily consists of the Global Anti-Base Erosion (the "GloBE") rules, which will introduce a global minimum effective tax rate of 15%. In December 2021, the European Commission published a draft Directive aimed at providing a common framework for Member States to implement Pillar Two into national legislation. In December 2022, Member States unanimously adopted the Directive with Member States given until 31 December 2023 to transpose the Directive into national legislation.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**1. Significant Accounting Policies (continued)****i) Taxation (continued)**

The Directive applies to Constituent Entities located in a Member State that are members of an MNE Group or of a large-scale domestic group which has an annual revenue of €750 million in its ultimate parent entity (the “UPE”) consolidated financial statements in at least 2 of the 4 fiscal years preceding the tested fiscal year.

A group means “a collection of entities which are related through ownership or control as defined by the acceptable accounting framework for the preparation of consolidated financial statements by the ultimate parent entity, including any entity that may have been excluded from the consolidated financial statements of the ultimate parent entity solely based on its small size, materiality grounds or on the grounds that it is held for sale. Where the UPE does not prepare consolidated financial statements, a deemed consolidation rule may apply.

Pillar Two sets forth a system consisting of two interlocked rules - the Income Inclusion Rule (the “IIR”) and Undertaxed Payment Rule (the “UTPR”). Through these two rules, an additional amount of tax called a “top-up tax” should be collected each time that the effective tax rate (the “ETR”) due on the income of an MNE group in a given jurisdiction is below 15%. In such cases, the jurisdiction is considered to be low tax. The IIR gives top-up taxing rights to the ultimate parent entity of a group while the UTPR is a backstop rule which gives top-up taxing rights to constituent entities in jurisdictions that have implemented the UTPR. The IIR will be applicable in Member States for fiscal years starting on or after 31 December 2023 while the UTPR is expected to apply for fiscal years starting on or after 31 December 2024.

While the rules do not apply until fiscal years starting on or after 31 December 2023, the Company’s management already considered the potential impact of Pillar Two. Based on the assessment made, the Company does not form part of a large-scale group and meets the definition of an investment entity for Pillar Two purposes and as such, is carved out of the Pillar Two rules.

There were no chargeable events during the financial year ended 31 December 2023 (31 December 2022: none).

j) Foreign Currency

The functional currency of the Funds is U.S. Dollar (USD). This is representative of the primary economic environment in which these Funds operate.

Assets and liabilities denominated in currencies other than the functional currency of the Funds are translated at the rate of exchange ruling at the financial year end date. Transactions in foreign currencies are translated into U.S. Dollars at the exchange rate ruling at the date of the transaction. Gains and losses on foreign exchange transactions are recognised in the Statement of Comprehensive Income in determining the result for the financial year.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**1. Significant Accounting Policies (continued)****j) Foreign Currency (continued)**

Foreign exchange gains and losses on financial assets and financial liabilities at fair value through profit or loss are recognised together with other changes in fair value.

The following exchange rates were used to convert assets and liabilities to the functional currency of the Funds at financial year end:

	As at	As at
	31 December 2023	31 December 2022
Australian Dollar	1.4675	1.4688
Brazilian Real	4.8576	5.2797
Canadian Dollar	1.3250	1.3540
Chinese Yuan	7.0922	6.9517
Danish Krone	6.7527	6.9468
Euro	0.9058	0.9342
Hong Kong Dollar	7.8085	7.8054
Indian Rupee	83.2154	82.7267
Indonesian Rupiah	15,396.4588	-
Japanese Yen	141.0000	131.2400
Mexican Peso	16.9811	19.4863
Norwegian Krone	10.1599	-
Philippine Peso	55.3741	55.7289
Poland New Zloty	3.9347	-
Pound Sterling	0.7845	0.8272
South African Rand	18.2926	16.9912
South Korean Won	1,288.6598	1,264.2225
Swedish Krona	10.0860	10.4348
Swiss Franc	0.8410	0.9247
Taiwan Dollar	30.6909	30.7352
Thai Baht	34.1320	34.6344
Vietnamese Dong	24,261.8337	23,574.8974

k) Redeemable Participating Shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities.

l) Distributions

In the case of accumulating Classes, all net income and net realised and unrealised gains (i.e. realised and unrealised capital gains net of all realised and unrealised losses) less accrued expenses of the Funds attributable to the relevant Class, subject to certain adjustments will be accumulated and reflected in the Net Asset Value per Share.

In the case of GBP Class (Institutional Unhedged Distributing) dividends will normally be declared annually on 31 December. Dividends are recognised in the Statement of Comprehensive Income accordingly to their ex-date.

The Directors may at any time determine to change the policy of the Funds with respect to dividends distribution. If the Directors so determine full details of any such change will be disclosed in an updated Prospectus or relevant Supplement and Shareholders will be notified in advance.

m) Amounts Receivable and Payable on Sales and Purchases of Securities

Receivables and payables represent amounts receivable and payable for transactions contracted but not yet delivered.

In accordance with the Funds policies of trade accounting for regular way sales and purchases transactions, sales/purchases awaiting settlement represent amounts receivable/payable for securities sold/purchased but not yet settled. Amounts receivable on sale of securities and amounts payable on purchase of securities are shown in the Statement of Financial Position.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**1. Significant Accounting Policies (continued)****n) Amounts Receivable on Subscription and Amounts Payable on Redemption**

Receivables on subscriptions and payables on redemptions represent amounts receivable and payable for transactions contracted but not yet delivered.

o) Umbrella Cash Accounts

Pending payment to the relevant Shareholder, distribution payments will be held in an account in the name of the Company (“Umbrella Cash Account”) and will be treated as an asset of the relevant Fund until paid to that Shareholder and will not benefit from the application of any investor money protection rules (i.e. the distribution monies in such circumstance will not be held on trust for the relevant Shareholder). In such circumstance, the Shareholder will be an unsecured creditor of the relevant Fund with respect to the distribution amount held by the Company until paid to the Shareholder and the Shareholder entitled to such distribution amount will be an unsecured creditor of the relevant Fund. As at 31 December 2023 USD 230 (31 December 2022: USD 24,306) was held in umbrella cash account out of which USD 230 (31 December 2022: USD 24,306) was recorded in the Statement of Financial Position under ‘Payable to Investors’ position.

p) Forward Contract Note

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date at a price set at the time the contract is made. Realised and unrealised gains and losses on forward currency contracts are accounted for in the Statement of Comprehensive Income in Net realised gain/(loss) and movement in unrealised gain/(loss) on financial instruments at fair value through profit and loss.

2. Financial Risk Management**a) Strategy in Managing Financial Instruments**

In pursuing its investment objective, the Funds are exposed to a variety of financial risks: market risk (including market price risk, interest rate risk and currency risk), credit risk and liquidity risk that could result in a reduction in the Funds’ Net Assets or a reduction of the profits available for distribution.

IFRS 7 requires disclosures of the significance of financial instruments for the entity’s financial performance and financial position and the nature and extent of risks arising from financial instruments and how those risks are being managed.

In managing the Funds’ overall risks, the Investment Manager focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds’ financial performance. Adherence to investment restrictions as per the Funds’ Prospectus is monitored and reviewed by the Investment Manager’s Compliance Department on an ongoing basis.

b) Market Risk

Market risk arises mainly from uncertainty about future prices of financial instruments held by the Funds. It represents the potential loss that the Funds might suffer through holding market positions in the face of price movements. The Investment Manager considers the asset allocation of the portfolio in order to minimise the risks associated with particular countries or industry sectors whilst continuing to follow the Funds’ investment objective.

The Investment Manager in accordance with policies and procedures in place manages the Funds’ market risk on a daily basis. These policies and procedures include limits on the Funds’ exposure to the risks identified in the Prospectus.

At 31 December 2023 and 31 December 2022, the Funds’ market risk was potentially affected by three main components: market price risk, foreign currency risk and interest rate risk.

**Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023****2. Financial Risk Management (continued)****b) Market Risk (continued)****(i) Market Price Risk**

Market price risk is the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market. All financial instruments are at fair value, with fair value changes recognised in the Statement of Comprehensive Income, all changes in market conditions directly affect net investment income.

The Investment Manager manages the Funds' market price risk by constructing a diversified portfolio of investments traded in various industries. In accordance with the Funds' investment policy, the Funds invest in the following instruments:

Equity Securities

The Funds are subject to equity market risk. Equity market risk is the risk that a particular share investing in equities or shares in general may fall in value. The value of investments in the Funds will go up and down with the prices of securities in which the Funds invest. The prices of shares change in response to many factors, including the historical and prospective earnings of the issuer, the value of its assets, management decisions, demand for an issuer's products or services, production costs, general economic conditions, interest rates, currency exchange rates, investor perceptions and market liquidity. At financial year end, 96.52% (31 December 2022: 97.30%) of Net Assets were invested in equities of Polen Capital Focus U.S. Growth Fund, 98.61% (31 December 2022: 95.70%) of Net Assets were invested in equities of Polen Capital U.S. Small Company Growth Fund, 93.74% (31 December 2022: 95.29%) of Net Assets were invested in equities of Polen Capital International Growth Fund, 0.00% (31 December 2022: 97.91%) of Net Assets were invested in equities of Polen Capital Global Emerging Markets Growth Fund, 105.75% (31 December 2022: 97.77%) of Net Assets were invested in equities of Polen Capital Global SMID Company Growth Fund, 97.04% (31 December 2022: 98.16%) Polen Capital Emerging Markets ex China Growth Fund and 99.49% (31 December 2022: nil) Polen Capital China Growth Fund

Equity price risk – Sensitivity analysis

At 31 December 2023, had the equity market price of all equity securities been 15% higher which is deemed reasonable by management, with all other variables held constant, Net Assets Attributable to Holders of Redeemable Participating Shares of Polen Capital Focus U.S. Growth Fund would have increased by approximately USD 469,658,300 (31 December 2022: USD 417,654,745), Polen Capital U.S. Small Company Growth Fund would have increased by approximately USD 1,009,342 (31 December 2022: USD 1,353,824), Polen Capital International Growth Fund would have increased by approximately USD 3,210,676 (31 December 2022: USD 2,964,488), Polen Capital Global Emerging Markets Growth Fund would have increased by approximately USD 13 (31 December 2022: USD 274,229), Polen Capital Global SMID Company Growth Fund would have increased by approximately USD 164,871 (31 December 2022: 134,572), Polen Capital Emerging Markets ex China Growth Fund increased by approximately USD 240,281 (31 December 2022: USD 217,822) and Polen Capital China Growth Fund would have increased by approximately USD 121,540 (31 December 2022: nil). A decrease of 15% in equity prices is deemed reasonable by management, would result in an equal but opposite change in the Net Assets Attributable to Holders of Redeemable Participating Shares.

The global exposure of the Funds are calculated using the commitment approach methodology. At 31 December 2023, Polen Capital Focus U.S. Growth Fund held forward currency contracts which amounted to USD (2,348,099) (31 December 2022: USD 1,428,257). Polen Capital Global Emerging Markets Growth Fund held forward currency contracts which amounted to USD nil (31 December 2022: USD 1,027). Polen Capital Global SMID Company Growth Fund held forward currency contracts which amounted to USD 1,095 (31 December 2022: USD 1,225). Polen Capital China Growth Fund held forward currency contracts which amounted to USD 2 (31 December 2022: USD nil)

(ii) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in exchange rates.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**2. Financial Risk Management (continued)****b) Market Risk (continued)****(ii) Foreign Currency Risk (continued)**

The Funds may enter into certain currency related transactions in order to mitigate the exchange rate risk between the base currency of the Funds and the currency in which shares in a class of the Funds are designated where that designated currency is different to the base currency of the Funds. The Funds may use financial derivative instruments such as currency swaps and forward currency contracts for the purpose of share class hedging. The Investment Manager monitors non-U.S. Dollars exposures. The Funds' currency risk is managed on a regular basis by the Investment Manager in accordance with the policies and procedures in place in line with the Prospectus and relevant Supplements of the Funds. In view of this policy, it is unlikely that the Funds will be intentionally directly exposed to any material foreign exchange risk. As at 31 December 2023, all Funds were exposed to foreign currency risk except for Polen Capital U.S. Small Company Growth Fund.

The table below summarises the Polen Capital Focus U.S. Growth Fund's assets and liabilities, monetary and non-monetary, which are denominated in a currency other than USD as at 31 December 2023.

(iii) Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Interest bearing financial assets and financial liabilities held by the Funds may in particular be exposed to interest rate risk.

The Funds have little exposure to interest rate risk. The Funds have no exposure to interest rate sensitive instruments such as fixed income securities, and the cash balances held, while subject to interest rate risk, are an immaterial fraction of the total assets of the Funds and are not subject to significant interest rate risk.

c) Credit Risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds. All transactions in listed securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker. The trade will fail if either party fails to meet their obligation. The maximum exposure to credit risk in relation to each class of recognised financial assets, other than derivatives, is the carrying amounts of financial assets and cash for Polen Capital Focus U.S. Growth Fund, Polen Capital U.S. Small Company Growth Fund, Polen Capital International Growth Fund, Polen Capital Global Emerging Markets Growth Fund, Polen Capital Global SMID Company Growth, Polen Capital Emerging Markets ex China Growth Fund and Polen Capital China Growth Fund of USD 3,248,962,627 (31 December 2022: USD 2,872,099,398), USD 6,805,525 (31 December 2022: USD 9,488,206), USD 22,828,960 (31 December 2022: USD 20,765,986), USD 28,352 (31 December 2022: USD 1,875,231), USD 1,070,519 (31 December 2022: USD 922,595), USD 1,670,117 (31 December 2022: USD 1,479,671) and USD 822,857 (31 December 2022: nil) respectively.

(i) Counterparty Risk

The Funds will be exposed to a credit risk on parties with which it trades and will also bear the risk of settlement default. Counterparty risk involves the risk that a counterparty or third party will not fulfil its obligations to the Funds. Funds may be exposed to counterparty risk through investments such as forward contracts. The Investment Manager may instruct the Depositary to settle transactions on a delivery free of payment basis where they believe that this form of settlement is appropriate. The forward contracts were held by CACEIS Investor Services Bank S.A., Dublin Branch.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**2. Financial Risk Management (continued)****c) Credit Risk (continued)****(ii) Default Risk**

A default may arise in relation to the institution with which cash is deposited by Funds. In the event of the bankruptcy, or insolvency or financial difficulty of a counterparty, client money rules may not afford sufficient protection in relation to the cash deposited by Funds with a third party. Similarly, the assets of Funds may not be adequately segregated or ring fenced from those of the counterparty or the counterparty's other clients. Funds may experience delays or other difficulties in: recouping any cash deposited, or collateral or margin posted, with a counterparty, retrieving any securities lent to a counterparty or liquidating positions held with, or securities issued by, a counterparty. Furthermore, the enforcement of any netting, set-off or other rights may involve significant delays and expense and there is no guarantee that any such enforcement efforts would be successful. As at financial year end the cash held with the CACEIS Investor Services Bank S.A., Dublin Branch amounted to USD 121,905,342 (31 December 2022: RBC Investor Services Bank S.A., Dublin Branch: USD 76,086,252). As at 31 December 2023 the credit rating of CACEIS Investor Services Bank S.A. with S&P's is A+ (31 December 2022: RBC Investor Services Bank S.A., Dublin Branch: AA- with S&P's). Details of the cash holdings at individual Funds level are included in note 5.

(iii) OTC Derivatives

The Funds may enter into forward contracts in Over the Counter ("OTC") markets that expose it to the credit of its counterparties and their ability to satisfy the terms of such contracts. An OTC market is a decentralised market, without a central physical location, on which trading is done directly between two parties, without any supervision of an exchange. Where the Funds' enters into OTC arrangements it will be exposed to the risk that the counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Funds could experience delays in liquidating the position and may incur a significant loss. As at 31 December 2023 there were open forward foreign exchange currency contracts held by Polen Capital Focus U.S. Growth Fund, Polen Capital Global SMID Company Growth Fund and Polen Capital China Growth Fund which amounted to USD 395,862,668 (31 December 2022: USD 179,238,365). As at 31 December 2023 the counterparty of the Fund is CACEIS Investor Services Bank S.A. (31 December 2022: RBC Investor Services Bank S.A., Dublin Branch). As at 31 December 2023 CACEIS Investor Services Bank S.A. with S&P's is A+ (31 December 2022: RBC Investor Services Bank S.A., Dublin Branch: AA- with S&P's). As at 31 December 2023 there were no open forward foreign exchange currency contracts held by remaining Funds.

(iv) Custody and Title Risk

The Depositary is under a duty to take into custody and to hold the property of each Fund of the Company on behalf of its shareholders. The Central Bank of Ireland requires the Depositary to hold legally separately the non-cash assets of each Fund and to maintain sufficient records to clearly identify the nature and amount of all assets that it holds, the ownership of each asset and where the documents of title to such assets are physically located. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Funds.

The Company is exposed to the credit risk of the Depositary as counterparty where cash is held by the Depositary. In the event of the insolvency of the Depositary, the Company will be treated as a general creditor of the Depositary in relation to cash holdings of the Funds. The Funds' securities are however maintained by the Depositary or its sub-custodians in segregated accounts and should be protected in the event of insolvency of the Depositary or its sub-custodians. Were such counterparties to have financial difficulties, even if a Fund is able to recover all of its capital intact, its trading could be materially disrupted in the interim, potentially resulting in material losses. The credit rating of CACEIS Investor Services Bank S.A. with S&P's is A+ (31 December 2022: RBC Investor Services Bank S.A., Dublin Branch: AA- with S&P's) as per S&P's rating agency.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as Funds. Therefore, in such jurisdictions, there is a risk that if a sub-custodian becomes bankrupt or insolvent, the Funds' beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Funds. In those jurisdictions where the Funds' beneficial ownership of their assets is ultimately recognised, the Funds may suffer delay and cost in recovering those assets.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**2. Financial Risk Management (continued)****d) Liquidity Risk**

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities. The Company's assets comprise of mainly readily realisable securities which can be sold in normal market conditions.

The Company's liquidity risk is managed by the Investment Manager in accordance with policies and procedures in place. The Investment Manager will normally keep an allocation of cash to meet pending liabilities that may arise from time to time. The Company's expected cash flows on these instruments do not vary significantly from this analysis, except for net assets attributable to holders of redeemable participating shares. Typically, shares are held by shareholders on a medium- or long-term basis. During extreme or unusual market conditions redemption requests received may need to be remitted over several settlement periods.

The Funds' assets are mainly comprised of readily realisable securities, which can be readily sold, in addition to cash instruments. The main liabilities of the Funds are the redemption of any shares that investors wish to sell. The Funds' Prospectus provides that shareholders may redeem their shares on and with effect from any Dealing Day. The Funds are exposed to the liquidity risk of meeting Shareholder redemptions at these times. If the number of Shares to be redeemed on any Dealing Day equals 10% or more of the total number of Shares of a Fund in issue on that day or 10% of the Net Asset Value of the Fund, the Directors or their delegate may at their discretion refuse to redeem any Shares in excess of 10% of the total number of Shares of the Fund in issue or 10% of the Net Asset Value of the Fund as aforesaid and, if they so refuse, the requests for redemption on such Dealing Day shall be reduced pro rata and Shares which are not redeemed by reason of such refusal shall be treated as if a request for redemption had been made in respect of each subsequent Dealing Day until all Shares to which the original request related have been redeemed. Redemption requests which have been carried forward from an earlier Dealing Day shall (subject always to the foregoing limits) be complied with pro-rata to later requests.

All liabilities of the Funds including net assets attributable to holders of redeemable participating shares have a maturity of less than 1 month as at 31 December 2023 and 31 December 2022.

3. Fair Value Measurements**Valuation Techniques**

The fair value hierarchy is categorised into three levels based on the inputs as follows:

Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities;

Level 2 - Valuations based on quoted prices in markets that are not active or inputs other than level one for which all significant inputs are observable, either directly (as prices) or indirectly (derived from prices); and

Level 3 - Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

Inputs are used in applying the various valuation techniques and broadly refer to the assumptions that market participants use to make valuation decisions, including assumptions about risk. Inputs may include price information, volatility statistics, specific and broad credit data, liquidity statistics, and other factors. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Company. Unobservable inputs reflect the Company's assumptions, made in good faith, about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. However, the determination of what constitutes "observable" requires significant judgment by the Company. The Company considers observable data to be that market data which is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market. The categorisation of a financial instrument within the hierarchy is based upon the pricing transparency of the instrument and does not necessarily correspond to the Company's perceived risk of that instrument.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023

3. Fair Value Measurements (continued)

Valuation Techniques (continued)

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Investment Manager's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Investment Manager uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the transparency of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Funds' financial assets and liabilities measured at fair value on a recurring basis as of 31 December 2023 and of 31 December 2022 can be categorised as follows:

Polen Capital Focus U.S. Growth Fund

Assets and Liabilities	Balance at 31 December 2023 Total USD	Quoted prices in active markets (Level 1) USD	Significant other observable inputs (Level 2) USD	Significant unobservable inputs (Level 3) USD

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**3. Fair Value Measurements (continued)****Valuation Techniques (continued)****Level 3 reconciliation**

Transfers are deemed to occur from the start to the end of the current accounting period from the level 1 to level 3. The following table presents the movement in level 3 instruments for the year ended 31 December 2023 by class of financial instrument.

Polen Capital Global Emerging Markets Growth Fund	Unquoted securities at fair value through profit or loss 31 December 2023 EUR	Unquoted securities at fair value through profit or loss 31 December 2022 EUR
Opening balance	85	-
Total gains and losses recognised in profit or loss	-	(280,337)
Purchases	-	14,733
Sales	-	-
Transfers into or out of Level 3	-	265,689
Closing balance	85	85

During the period two securities held by Polen Capital Global Emerging Markets Growth Fund were identified as Russian Securities. As result, due to removal of companies from the Russian ETFs/indices and the overall uncertainty and volatility, those securities were classified as Level 3 securities (previously classified as Level 1 securities). The Investment Manager continues to monitor the situation to determine whether any further changes are warranted. Polen Capital Global Emerging Markets Growth Fund was terminated on 12 December 2023.

There were no transfers between Level 1, Level 2 and Level 3 during the period for the Funds not disclosed in the above tables.

When fair values of listed equity at the reporting date are based on quoted market prices or binding dealer price quotations without any deduction for transaction costs, the instruments are included within Level 1 of the hierarchy.

Assets and liabilities not carried at fair value (31 December 2023 and 31 December 2022)

Cash and cash equivalents are classified as Level 1 and all other assets and liabilities not carried at fair value are classified as Level 2 for the Funds. The assets and liabilities are carried at amortised cost; their carrying values are a reasonable approximation of fair value.

¹ Fund was launched on 28 April 2023.

In addition, the Investment Manager shall be entitled to be reimbursed for reasonable out of pocket expenses incurred by it and any VAT on fees and expenses payable to or by it.

During the financial year, Investment Management fees amounted to USD 32,649,415 (31 December 2022: USD 36,444,802) and Investment Management fees payable at 31 December 2023 amounted to USD 2,778,463 (31 December 2022: USD 2,468,090).

Administration and Transfer Agency Fees

The Administrator, in relation to the calculation of the Net Asset Value of the Fund, shall be entitled to a fee payable out of the assets of the Funds accruing at each Valuation Point and payable monthly in arrears at the end of each calendar month at a maximum rate of up to 0.010% of the Net Asset Value of the Funds per annum subject to a minimum annual fee of USD 7,500 for the Fund. These charges are inclusive of two Share Classes. Thereafter, an additional fee of \$600 per annum will apply per each additional Share Class.

The Funds shall also be subject to transaction charges, which shall not exceed normal commercial rates. The Administrator shall also be entitled to reimbursement of all reasonable out-of-pocket expenses incurred for the benefit of the Funds out of the assets of the Funds.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**6. Fees (continued)****Administration and Transfer Agency Fees (continued)**

In addition, the Administrator shall be entitled to charge the Fund for transfer agency services such as maintenance and servicing, processing payments (such as dividends), ad-hoc reporting (where the Administrator is required to report on matters to the Directors outside of the standard quarterly reporting topics) and other similar services. These Transfer Agency fees shall vary in proportion to the level of transaction activity of the Fund. Notwithstanding this, Transfer Agency fees are payable by the Fund monthly in arrears at the end of each calendar month at an annual rate of up to 0.15% of the Net Asset Value of the Fund, subject to a minimum monthly fee of \$300. In addition, each Share Class will be charged \$1,000 per annum payable in arrears at the end of each calendar month in respect of shareholder services.

The Administration and Transfer Agency fees charged during the financial year amounted to USD 218,216 (31 December 2022: USD 232,723) and USD 778,670 (31 December 2022: USD 857,651) respectively. The Administration and Transfer Agency fees payable at 31 December 2023 amounted to USD 35,563 (31 December 2022: USD 38,583) and USD 123,245 (31 December 2022: USD 133,626), respectively.

Depository Fees

Safekeeping fees are based on the Net Asset Value of the Funds and vary, from 0.002% to 0.80%, depending on the country in which the security is traded and held, exclusive of transaction charges and out-of-pocket expenses, subject to a minimum annual fee of USD 3,480 in respect of the Fund per annum. The Funds shall also bear the cost of all relevant sub-custodian transaction charges incurred by the Depository, or any sub-custodian, which shall not exceed normal commercial rates. The Depository shall also be entitled to reimbursement of reasonable out-of-pocket expenses incurred by the Depository, or any sub-custodian, for the benefit of the Fund.

The Depository shall also be entitled to a fee payable out of the assets of the Funds accruing at each Valuation Point and payable monthly in arrears at the end of each calendar month at an annual rate of up to 0.175% of the Net Asset Value of the Funds, subject to a minimum annual fee per Fund, exclusive of out-of-pocket expenses, of USD 7,100.

Depository fees charged during the financial year amounted to USD 443,198 (31 December 2022: USD 464,410) of which USD 84,702 was payable at 31 December 2023 (31 December 2022: USD 80,896).

Directors Fees

Each Director shall receive a fee for their services. Jason Mullins, Brian Goldberg and Mike Guarasci are not entitled to receive directors' fees. Each Director may be entitled to special remuneration if called upon to perform any special or extra services to the Company. All Directors will be entitled to reimbursement by the Company of expenses properly incurred in connection with the business of the Company or the discharge of their duties.

During the financial year, Directors fees amounted to USD 55,543 (31 December 2022: USD 49,255) and Directors' fees payable at 31 December 2023 amounted to USD 2,787 (31 December 2022: USD 2,573).

Management Fees

Pursuant to the Management Agreement, the Manager shall be entitled to a maximum annual management fee equal to 0.012% of the Net Asset Value of each Share Class. The Manager is also entitled to a minimum annual fee for the Company of €40,000 per Fund. Such fee shall be calculated and accrued at each Valuation Point and payable monthly in arrears.

During the financial year, Management fees amounted to USD 289,609 (31 December 2022: USD 286,659) and Management fees payable at 31 December 2023 amounted to USD 49,937 (31 December 2022: USD 61,575).

Auditor's Remuneration

The remuneration paid to the Funds' auditor during the financial year comprise the following:

	31 December 2023	31 December 2022
	USD	USD
Audit of statutory accounts (exclusive of Value Added Tax ("VAT"))	89,972	71,185
Tax advisory services (inclusive of VAT)	70,365	23,700
Total	160,337	94,885

8. Share Capital

The authorised share capital of the Company is 300,000 redeemable non-participating shares of no par value and 500,000,000,000 participating shares of no par value. Non-participating shares do not entitle the holders thereof to any dividend and on a winding up entitle the holders thereof to receive the consideration paid therefore but do not otherwise entitle them to participate in the assets of the Company. The Directors have the power to allot shares in the capital of the Company on such terms and in such manner as they may think fit.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023

8. Share Capital (continued)

Shares may be issued on any Dealing Day. Shares issued in a Fund or Class will be in registered form and denominated in the Base Currency specified in the relevant Supplement for the relevant Fund or a currency attributable to the particular Class.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**8. Share Capital (continued)**

Fund	Class	Initial Offer Price	Launch Date	Final Redemption Date	Minimum Subscription
Polen Capital China Growth Fund ¹	U.S. Dollar Class (Institutional) Shares	USD 10	28 April 2023	-	USD 250,000

¹ Fund was launched on 28 April 2023.

* Hedged share class.

Shares will have no par value and will first be issued on the first Dealing Day after expiry of the initial offer year specified in the relevant Supplement at the Initial Price as specified in the relevant Supplement. Thereafter, Shares shall be issued at the Net Asset Value per Share.

Redemption of Shares

Shareholders may redeem their Shares on and with effect from any Dealing Day at the Net Asset Value per Share for that Class calculated on or with respect to the relevant Dealing Day in accordance with the procedures described below (save during any financial period when the calculation of Net Asset Value is suspended).

The minimum value of Shares which a Shareholder may redeem in any one redemption transaction is the Minimum Transaction Size as specified in the relevant Supplement. If the redemption of only part of a Shareholder's shareholding would leave the Shareholder holding less than the Minimum Holding for the relevant Fund, the Company or its delegate may, if it thinks fit, redeem the whole of that Shareholder's holding.

Minimum Initial Subscription, Minimum Holding and Minimum Transaction Size

Each investor must satisfy the Minimum Initial Subscription requirements applicable to the relevant Class as outlined above and must retain Shares having a Net Asset Value of the Minimum Holding applicable to the relevant Class as outlined above. A Shareholder may make subsequent subscriptions, conversions and redemptions, each subject to a Minimum Transaction Size applicable to the relevant Class as outlined above.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023

8. Share Capital (continued)

Polen Capital Emerging Markets ex China Growth Fund	U.S. Dollar Class (Institutional) Shares	149,996	149,996
Polen Capital China Growth Fund	U.S. Dollar Class (Institutional) Shares	99,996	99,996

Director fees are disclosed in note 6.

The total expenses ratios (TER) for all share classes of the Company are voluntarily capped. Polen Capital Management, LLC has agreed to pay any expenses above the capped threshold back to the Company. Polen Capital Management, LLC has no intention to recoup this amount from the Company at a later date. Polen Capital Management, LLC has agreed to pay an amount of USD 498,596 (31 December 2022: USD 309,653) to the Company in relation to the capped TER fee agreement of which USD 42,897 (31 December 2022: USD 66,236) was receivable at 31 December 2023.

Polen Capital UK LLP was a Sub-Investment Manager for Polen Capital Global Emerging Markets Growth Fund and is a Sub-Investment Manager for Polen Capital Emerging Markets ex China Growth Fund. Polen Capital HK Limited is a Sub-Investment Manager for Polen Capital China Growth Fund.

Amundi Ireland Limited, the Manager, is a wholly-owned subsidiary of Amundi, a credit institution authorized by the Autorité de contrôle prudentiel et de résolution (the "ACPR") and European Central Bank. Amundi's majority shareholder is Credit Agricole SA. Credit Agricole SA is controlled by SAS Rue La Boetie. Therefore the Manager and Crédit Agricole SA are related by virtue. All subsidiary companies of Crédit Agricole SA are considered as related and connected party. The Management fees recognised during the period were disclosed in note 6.

CACEIS is a joint venture between Credit Agricole S.A. (85%) and Natixis S.A. (15%). With effect of 3 July 2023, CACEIS acquired the entire issued share capital of RBC Investor Services Bank S.A. As a result the Administrator, RBC Investor Services Ireland Limited, has become CACEIS Investor Services Ireland Limited. The Depositary, RBC Investor Services Bank S.A., Dublin Branch, has become CACEIS Investor Services Bank S.A., Dublin Branch. From that date both the Administrator and the Depositary can be considered as related parties. Administrator fees are included within administration fees as disclosed in note 6.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**9. Related Party Transaction (continued)**

The Depositary may delegate the performance of its safekeeping duties to third parties (hereinafter referred to as “Sub-custodians”) in accordance with the requirements of UCITS V. Sub-custodians may be considered as related and connected party as subsidiary companies of Crédit Agricole SA. The list of the entities to whom safekeeping of the Company’s assets have been sub-delegated is set out in Annex IV of the Prospectus, and any updates to the list are available via the website: <https://www.caceis.com/regulatory-environment/regulatorywatch/ucits-v-undertakings-for-collective-investment-in-transferable-securities/> or such other website as may be notified by the Depositary to the Company from time to time and notified to the Shareholders or made available to investors upon request. Depositary fees are included within administration fees as disclosed in note 6.

Directors’ and Secretary’s Interests

At the reporting date neither the directors nor any associated person have any other beneficial interest in the share capital of the Company or held any options in respect of such capital.

10. Soft Commission Arrangements

There are no soft commission arrangements affecting the Funds during the financial year (31 December 2022: none).

11. Securities Lending

As at 31 December 2023, the Funds had not entered into any securities lending transactions (31 December 2022: none).

12. Distributions

There were no paid and declared distributions with record date falling in year ended 31 December 2023 (31 December 2022: none).

13. Significant Events During the Financial Year End

Polen Capital China Growth Fund was launched on 28 April 2023.

The following are share classes of the Funds that have been launched:

Fund	Class	Launch Date
Polen Capital China Growth Fund	U.S. Dollar Class (Institutional) Shares	28 April 2023
Polen Capital Focus U.S. Growth Fund	U.S Dollar D class (Institutional Unhedged Distributing) Shares	3 August 2023

In October 2022, CACEIS and Royal Bank of Canada (RBC) announced they had signed a memorandum of understanding for the intended acquisition by CACEIS of the European asset servicing business of RBC. As part of this acquisition, CACEIS would acquire the entire issued share capital of RBC Investor Services Bank S.A. (IS Bank).

Completion of the sale of IS Bank occurred 3 July 2023, following regulatory approval and RBC Investor & Treasury Services S.A. became CACEIS Investor Services Bank S.A..

Following consultation with the Investment Manager, the Board of Directors made a decision to terminate Polen Capital Global Emerging Markets Growth Fund. The final Dealing Day of the Polen Capital Global Emerging Markets Growth Fund was on 12 December 2023.

14. Significant Events Since the Financial Year End

There were no other significant events since the financial year end.

Notes to the Financial Statements (continued)
For the financial year ended 31 December 2023**15. Material Changes to Prospectus**

During the year, the following material changes to legal documentation were noted:

Supplement for Polen Capital Focus U.S. Growth Fund, Polen Capital International Growth Fund, Polen Capital U.S. Small Company Growth Fund, Polen Capital Global Emerging Markets Growth Fund and Polen Capital Global SMID Company Growth Fund

- Updates to the Supplement to answer additional questions regarding investment in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy.

Supplement for Polen Capital Emerging Markets ex China Growth Fund

- Updates to the Supplement to answer additional questions regarding investment in fossil gas and / or nuclear energy related activities to address requirements of the EU Taxonomy.

- Extending the redemption settlement deadline for payment of redemption proceeds from within 3 Business Days of the Dealing Deadline to 4 Business Days of the Dealing Deadline

Supplement for Polen Capital China Growth Fund

- Updates to the Supplement to answer additional questions regarding investment in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy.

- Revising the disclosure regarding the application to the Euronext Dublin for listing of shares to clarify that an application may be made in the future.

- Changing the Sub-Investment Manager from Polen Capital UK LLP to Polen Capital HK Limited and revising the Sub-Investment Manager related disclosures accordingly.

There were no other changes to the Prospectus during the financial year.

16. Approval of Financial Statements

The financial statements were approved by the Directors on 20 March 2024.

Appendix (unaudited)**Remuneration Policy (unaudited)**

In line with the requirements of the UCITS Regulations, the Company adopted a remuneration policy (the “Remuneration Policy”) which is consistent with the principles outlined in the European Securities and Markets Authority (“ESMA”) Guidelines on sound remuneration policies under the UCITS Directive and AIFMD (the “Remuneration Guidelines”).

The total amount of remuneration paid by the Company for the financial year relates to fixed remuneration only. No variable remuneration was paid during the year.

Fixed remuneration paid by the Company to identified staff comprises Directors’ fees only, is paid solely to Ms. Bronwyn Wright and Mr. Kevin O’Neill in their capacity as non-executive Directors not affiliated with the Company’s Investment Manager. Directors who are also employees within the Investment Manager, namely Mr. Brian Goldberg and Mr. Mike Guarasci, do not receive any remuneration from the Company, Manager (Mr. Jason Mullins) does not receive any remuneration from the Company. Details of the Directors’ fees paid are included in note 6 of the annual financial statements.

The remuneration policy has been subject to internal review and no material changes have been made to the policy.

Securities Financing Transactions Regulation (unaudited)

The Securities Financing Transactions Regulation, as published by the European Securities and Markets Authority, aims to improve the transparency of the securities financing markets. Disclosures regarding exposure to Securities Financing Transactions (SFTs) will be required on all report and accounts published after 13 January 2017. During the financial year 31 December 2023, none of the Funds entered into any Securities Financing Transactions.

CRS Data Protection Information Notice (unaudited)

The Company hereby provides the following data protection information notice to all Shareholders in the Company either as at 31 December 2015 or at any point of time since this date.

For the avoidance of doubt, this notice applies equally to any Shareholders that have ceased to hold shares in the Company since January 1, 2016. Furthermore, it should be noted that this notice may be applicable to Controlling Persons of certain Shareholders.

The Company hereby confirm that they intend to take such steps as may be required to satisfy any obligations imposed by (i) the OECD’s Standard for Automatic Exchange of Financial Account Information in Tax Matters (“the Standard”), which therein contains the Common Reporting Standard (“CRS”), as applied in Ireland by means of the relevant international legal framework and Irish tax legislation and (ii) EU Council Directive 2014/107/EU, amending Directive 2011/16/EU as regards mandatory automatic exchange information in the field of taxation (“DAC2”), as applied in Ireland by means of the relevant Irish tax legislation, so as to ensure compliance or deemed compliance (as the case may be) with the Standard/CRS and the DAC2 from 1 January 2016.

In this regard, the Company is obliged under Section 891F and Section 891G of the Irish Taxes Consolidation Act, 1997 (as amended) and regulations made pursuant to those sections to collect certain information about each Shareholder’s tax arrangements (and also collect information in relation to relevant Controlling Persons of specific Shareholders).

In certain circumstances, the Company may be legally obliged to share this information and other financial information with respect to a Shareholder’s interests in the Company with the Irish Revenue Commissioners (and, in particular situations, also share information in relation to relevant Controlling Persons of specific Shareholders). In turn, and to the extent the account has been identified as a Reportable Account, the Irish Revenue Commissioners will exchange this information with the country of residence of the Reportable Person(s) in respect of that Reportable Account.

In particular, information that may be reported in respect of a Shareholder (and relevant Controlling Persons, if applicable) includes name, address, date of birth, place of birth, account number, account balance or value at year end (or, if the account was closed during such year, the balance or value at the date of closure of the account), any payments (including redemption and dividend/interest payments) made with respect to the account during the calendar year, tax residency(ies) and tax identification number(s).

Taxonomy Regulation (unaudited)

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Polen Capital Focus U.S. Growth Fund Legal entity identifier: 635400U1N3D6XATWTX13

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund's portfolio. Further information on this is outlined in the sections entitled "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and "What was the asset allocation?"

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the four calendar quarters for the period ending 31 December 2023 and is set out below.

Carbon Footprint: 18.28 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

The sustainability indicators as of a balance sheet date of 31 December, 2022 performed as follows:

Carbon Footprint: 15.13 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Investment Manager carrying out its own analysis of the Fund's portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Largest investments	Sector	% Assets	Country
Amazon	Consumer Discretionary	9.0%	United States
Alphabet	Communication Services	7.5%	United States
Microsoft	Communication Services	6.6%	United States
Netflix	Information Technology	6.4%	United States
ServiceNow	Information Technology	5.5%	United States
Mastercard	Information Technology	4.7%	United States
Visa	Information Technology	4.7%	United States
Salesforce	Information Technology	4.6%	United States
Adobe Inc	Health Care	4.5%	United States

Investments that do not promote environmental and/or social characteristics of the Fund have been included in these calculations which were carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

**What was the proportion of sustainability-related investments?**

The proportion of the investments of the Fund used to meet the environmental or social characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 97.0% based on an average of the four calendar quarters for the period ending 31 December 2023.

● **What was the asset allocation?**

The investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments. There were no minimum environmental or social safeguards. This calculation was carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

Asset allocation

describes the share of investments in specific assets.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Compared to previous periods:

As of a balance sheet date of 31 December 2022, the investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities and the proportion of the investments of the Fund for this was 97.3%. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments and the proportion of the investments of the Fund for this was 2.7%. There were no minimum environmental or social safeguards. The balance sheet date of 31 December 2022 is the basis of the calculation given that the Fund was classified as disclosing in accordance with Article 8 of the SFDR as of 16 November 2022.

In which economic sectors were the investments made?

The investments were made in the following economic sectors calculated based on an average of the four calendar quarters for the period ending 31 December 2023.

Information Technology

- Software & Services: 33.8%

Health Care

- Pharmaceuticals, Biotechnology & Life Sciences: 11.1%
- Health Care Equipment & Services: 9.8%

Appendix (unaudited)

Taxonomy Regulation (unaudited)

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.
Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Consumer Discretionary

- Consumer Discretionary Distribution and Retail: 9.0%
- Consumer Services: 4.5%
- Consumer Durables & Apparel: 1.8%

Communication Services

- Media & Entertainment: 13.9%

Financials

- Financial Services: 13.3%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

Did the financial product invest in fossil gas and/ or nuclear energy related activities that comply with the EU Taxonomy?¹

Yes:

In fossil gas

In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significant harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%

What was the share of socially sustainable investments?

N/A

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under #2 Other above consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund followed the following strategies in order to promote the environmental and/or social characteristics

- Included or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics; and
- Excluded certain investments from the portfolio.

Inclusion of certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics

In seeking to identify companies that promote the environmental and/or social characteristics outlined above, the Investment Manager committed to identifying and assessing several proprietary business matters as part of the selection of companies; by way of example this included analysing greenhouse gas emission reduction initiatives, climate change-related risks and company preparedness, and how companies attract, retain and grow key stakeholder bases.

The Investment Manager used a qualitative approach to assess prior to investment and monitoring over the life of an investment, the proprietary business matters to determine if the promotion of the social and/or environmental characteristics were being met on a regular basis through using publicly available information identified and considered material by the Investment Manager for such assessments and monitoring.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Appendix (unaudited)**Taxonomy Regulation (unaudited)**

This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information, including information obtained from engagement with third party data vendors / consultants, that the Investment Manager identified that it felt was material to such assessments and monitoring.

The information gathered by the Investment Manager in the process outlined above in respect of the sustainability approach related to the environmental and social characteristics (and proprietary business matters) that the Investment Manager assessed investee companies against. After the Investment Manager carried out their qualitative analysis, the Investment Manager determined whether to invest in a company.

Exclusion of certain investments from the portfolio

In seeking to meet the environmental and/or social characteristics outlined above, the Investment Manager excluded various companies from the Fund's portfolio as part of the investment strategy of the Fund. The Investment Manager's exclusionary process was based on the Investment Manager's assessment and judgment of the proprietary business matters, and investee companies were excluded based on the Investment Manager's view that it was too difficult to determine that such investee company were promoting what the Investment Manager considered relevant environmental and/or social characteristics through effectively balancing the interests of its customers, employees, suppliers and other business partners, shareholders, communities, and the environment. Examples of the investments that the Investment Manager did not invest directly in, based on the Investment Manager's assessment and judgment outlined above, included, but were not limited to, the following:

Investments in companies whose revenues are made up of at least 25% of the following:

- adult entertainment production,
- small arms,
- tobacco production,
- thermal coal, and
- controversial weapons.

(each an "Excluded Investment" and together the "Excluded Investments")

In addition, the Investment Manager excluded investment in companies that it believed did not follow good governance practices through the Investment Manager's analysis of several proprietary governance-related matters it considered within the investment process, as further outlined below.

Good governance

As part of the sustainability policy, the Investment Manager commits to only investing in companies that it believes follow good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance and excluding companies from the Fund's portfolio that it believes do not follow good governance practices.

In order to invest in companies that follow good governance practices and exclude companies that do not follow good governance practices the Investment Manager identified, assessed and monitored several proprietary business matters that it believed were important to assessing whether a company has good governance in its view, including but not limited to what it considers sound management structures, management of employee relations, management of remuneration of staff, and tax compliance.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

The Investment Manager monitored on a regular basis that a company that it has invested in maintained good governance practices. In addition, the Investment Manager monitored a company’s maintenance of good governance practices through using publicly available information identified and considered material by the Investment Manager. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information that the Investment Manager had identified that it felt was material to such monitoring.

How did this financial product perform compared to the reference benchmark?

N/A

- *How does the reference benchmark differ from a broad market index?*

N/A

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

N/A

- *How did this financial product perform compared with the reference benchmark?*

N/A

- *How did this financial product perform compared with the broad market index?*

N/A

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund's portfolio. Further information on this is outlined in the sections entitled "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and "What was the asset allocation?"

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the four calendar quarters for the period ending 31 December 2023.

Carbon Footprint: 50.5 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

The sustainability indicators as of a balance sheet date of 31 December, 2022 performed as follows:

Carbon Footprint: 63.65 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Investment Manager carrying out its own analysis of the Fund's portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

1 January 2023 to 31 December 2023.

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Largest investments	Sector	% Assets	Country
Houlihan Lokey	Financials	5.9%	United States
Globant SA	Information Technology	4.6%	Uruguay
Goosehead Insurance Inc – A	Financials	4.6%	United States

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Largest investments	Sector	% Assets	Country
Alight Inc - Class A	Industrials	4.2%	United States
Five Below	Consumer Discretionary	4.2%	United States
Hamilton Lane Inc-Class A	Financials	4.1%	United States
Progyny Inc	Health Care	4.1%	United States
Qualys Inc	Information Technology	4.0%	United States
Wingsstop Inc	Consumer Discretionary	4.0%	United States
Fox Factory Holding Corp	Consumer Discretionary	3.8%	United States
Ccc Intelligent Solutions Ho	Information Technology	3.7%	United States
Blackline Inc	Information Technology	3.6%	United States

Investments that do not promote environmental and/or social characteristics of the Fund have been included in these calculations which were carried based on an average of the four calendar quarters for the period ending 31 December 2023.

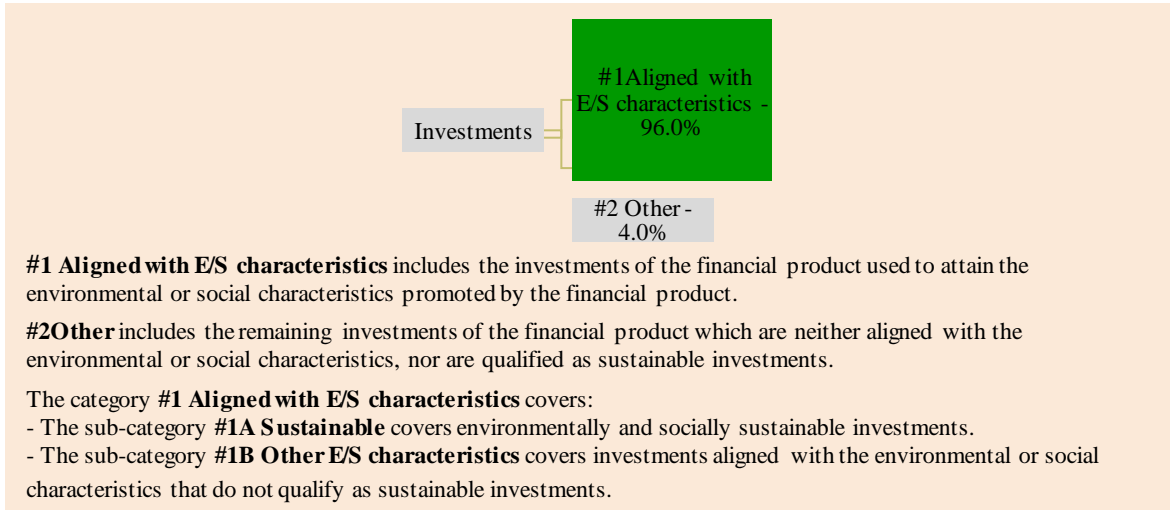

What was the proportion of sustainability-related investments?

The proportion of the investments of the Fund used to meet the environmental or social characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 96.0% based on an average of the four calendar quarters for the period ending 31 December 2023.

● **What was the asset allocation?**

The investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments. There were no minimum environmental or social safeguards. This calculation was carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

Asset allocation describes the share of investments in specific assets.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Compared to previous periods:

As of a balance sheet date of 31 December 2022, the investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities and the proportion of the investments of the Fund for this was 95.6%.

The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments and the proportion of the investments of the Fund for this was 4.4%. There were no minimum environmental or social safeguards. The balance sheet date of 31 December 2022 is the basis of the calculation given that the Fund was classified as disclosing in accordance with Article 8 of the SFDR as of 16 November 2022.

● ***In which economic sectors were the investments made?***

The investments were made in the following economic sectors calculated based on an average of the four calendar quarters for the period ending 31 December, 2023.

Information Technology

- Software & Services: 27.5%
- Semiconductors & Semiconductor Equipment: 1.9%

Consumer Discretionary

- Automobiles & Components: 4.7%
- Consumer Durables & Apparel: 5.2%
- Consumer Services: 4.0%
- Consumer Discretionary Distribution & Retail: 10.8%

Financials

- Financial Services: 13.5%
- Insurance: 4.9%

Health Care

- Health Care Equipment & Services: 8.9%
- Pharmaceuticals, Biotechnology & Life Sciences: 1.7%

Industrials

- Commercial & Professional Services: 4.9%
- Capital Goods: 3.5%

Communication Services

- Media & Entertainment: 3.1%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Real Estate

- Real Estate Management & Development: 3.2%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

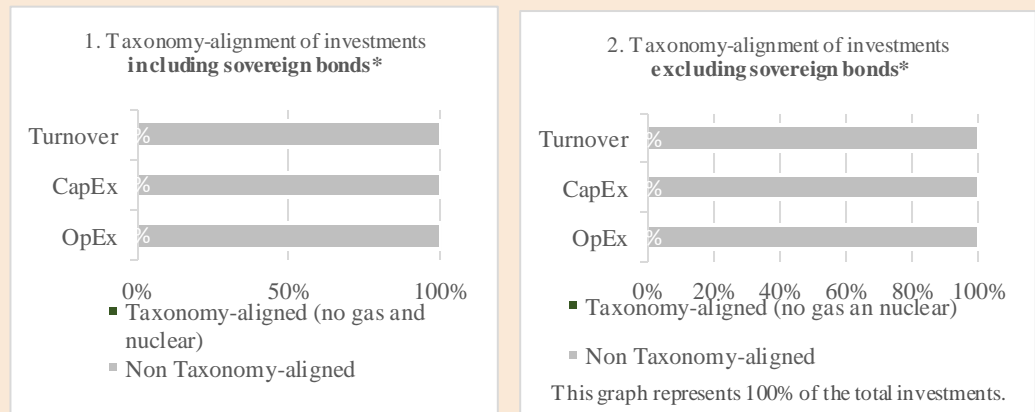

Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy?¹

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significant harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Appendix (unaudited)

Taxonomy Regulation (unaudited)

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

0%

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

0%

- **What was the share of socially sustainable investments?**

N/A

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The investments included under #2 Other above consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes.

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund followed the following strategies in order to promote the environmental and/or social characteristics

- Included or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics; and
- Excluded certain investments from the portfolio.

Inclusion of certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics

In seeking to identify companies that promote the environmental and/or social characteristics outlined above, the Investment Manager committed to identifying and assessing several proprietary business matters as part of the selection of companies; by way of example this included analysing greenhouse gas emission reduction initiatives, climate change-related risks and company preparedness, and how companies attract, retain and grow key stakeholder bases.

Appendix (unaudited)**Taxonomy Regulation (unaudited)**

The Investment Manager used a qualitative approach to assess prior to investment and monitoring over the life of an investment, the proprietary business matters to determine if the promotion of the social and/or environmental characteristics were being met on a regular basis through using publicly available information identified and considered material by the Investment Manager for such assessments and monitoring. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information, including information obtained from engagement with third party data vendors / consultants, that the Investment Manager identified that it felt was material to such assessments and monitoring.

The information gathered by the Investment Manager in the process outlined above in respect of the sustainability approach related to the environmental and social characteristics (and proprietary business matters) that the Investment Manager assessed investee companies against. After the Investment Manager carried out their qualitative analysis, the Investment Manager determined whether to invest in a company.

Exclusion of certain investments from the portfolio

In seeking to meet the environmental and/or social characteristics outlined above, the Investment Manager excluded various companies from the Fund's portfolio as part of the investment strategy of the Fund. The Investment Manager's exclusionary process was based on the Investment Manager's assessment and judgment of the proprietary business matters, and investee companies were excluded based on the Investment Manager's view that it was too difficult to determine that such investee company were promoting what the Investment Manager considered relevant environmental and/or social characteristics through effectively balancing the interests of its customers, employees, suppliers and other business partners, shareholders, communities, and the environment. Examples of the investments that the Investment Manager did not invest directly in, based on the Investment Manager's assessment and judgment outlined above, included, but were not limited to, the following:

Investments in companies whose revenues are made up of at least 25% of the following:

- adult entertainment production,
- small arms,
- tobacco production,
- thermal coal, and
- controversial weapons.

(each an "Excluded Investment" and together the "Excluded Investments")

In addition, the Investment Manager excluded investment in companies that it believed did not follow good governance practices through the Investment Manager's analysis of several proprietary governance-related matters it considered within the investment process, as further outlined below.

Good governance

As part of the sustainability policy, the Investment Manager commits to only investing in companies that it believes follow good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance and excluding companies from the Fund's portfolio that it believes do not follow good governance practices.

In order to invest in companies that follow good governance practices and exclude companies that do not follow good governance practices the Investment Manager identified, assessed and monitored several proprietary business matters that it believed were important to assessing whether a company has good governance in its view, including but not limited to what it considers sound management structures, management of employee relations, management of remuneration of staff, and tax compliance.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

The Investment Manager monitored on a regular basis that a company that it has invested in maintained good governance practices. In addition, the Investment Manager monitored a company's maintenance of good governance practices through using publicly available information identified and considered material by the Investment Manager. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information that the Investment Manager had identified that it felt was material to such monitoring.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Polen Capital International Growth Fund **Legal entity identifier:** 549300LZD83Y354EJE08

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund’s portfolio. Further information on this is outlined in the sections entitled “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” and “What was the asset allocation?”

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the four calendar quarters for the period ending 31 December 2023 and is set out below

Carbon Footprint: 48.19 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

The sustainability indicators as of a balance sheet date of 31 December, 2022 performed as follows:

Carbon Footprint: 78.97 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Investment Manager carrying out its own analysis of the Fund's portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund’s portfolio. Further information on this is outlined in the sections entitled “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” and “What was the asset allocation?”

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the four calendar quarters for the period ending 31 December 2023 and is set out below.

Carbon Footprint: 35.5 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

The sustainability indicators as of a balance sheet date of 31 December, 2022 performed as follows:

Carbon Footprint: 29.74 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 0%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Investment Manager carrying out its own analysis of the Fund's portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Largest investments	Sector	% Assets	Country
Goosehead Insurance Inc - A	Financials	4.5%	United States
Floor & Décor Holdings Inc- A	Consumer Discretionary	4.3%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:

1 January 2023 to 31 December 2023.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Largest investments	Sector	% Assets	Country
Tyler Technologies Inc	Information Technology	4.2%	United States
Five Below	Consumer Discretionary	4.0%	United States
Eurofins Scientific	Health Care	3.7%	Luxembourg

Markel Group Inc	Financials	2.8%	United States

Investments that do not promote environmental and/or social characteristics of the Fund have been included in these calculations which were carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

What was the proportion of sustainability-related investments?

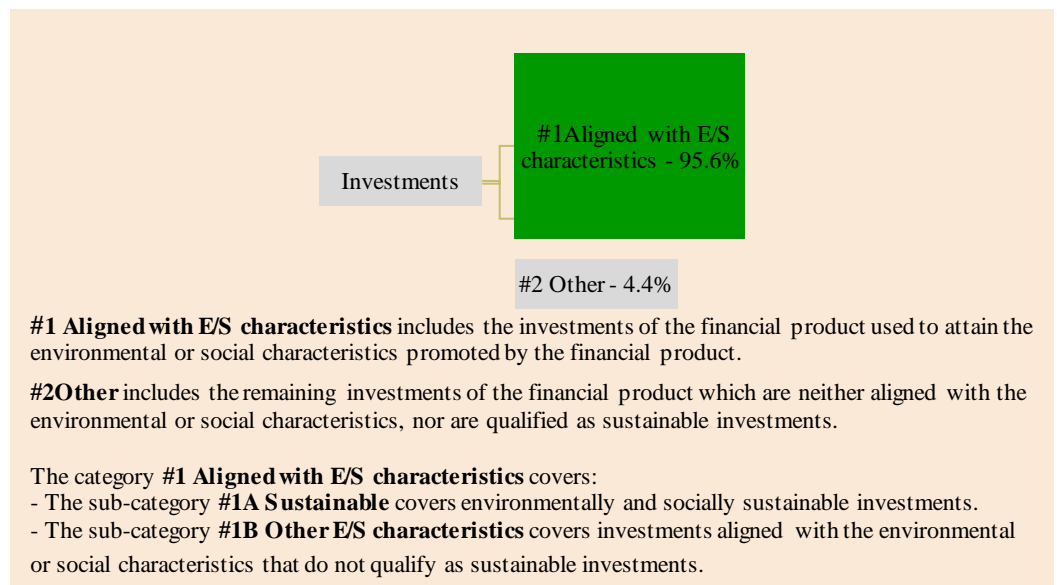

The proportion of the investments of the Fund used to meet the environmental or social characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 95.6% based on an average of the four calendar quarters for the period ending 31 December 2023.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● **What was the asset allocation?**

The investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments. There were no minimum environmental or social safeguards. This calculation was carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

Compared with previous periods:

As of a balance sheet date of 31 December 2022, the investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities and the proportion of the investments of the Fund for this was 97.3%. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments and the proportion of the investments of the Fund for this was 2.5%. There were no minimum environmental or social safeguards. The balance sheet date of 31 December 2022 is the basis of the calculation given that the Fund was classified as disclosing in accordance with Article 8 of the SFDR as of 16 November 2022.

Asset allocation describes the share of investments in specific assets.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***In which economic sectors were the investments made?***

The investments were made in the following economic sectors calculated based on an average of the four calendar quarters for the period ending 31 December 2023.

Information Technology

- Software & Services: 23.4%
- Semiconductors & Semiconductor Equipment: 2.1%

Health Care

- Health Care Equipment & Services: 9.0%

- Capital Goods: 2.2%

Communication Services

- Media & Entertainment: 5.0%

Consumer Staples

- Food, Beverage & Tobacco: 2.6%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy?¹

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

0%

¹ Fossil gas and/or nuclear related activities only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significant harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Appendix (unaudited)

Taxonomy Regulation (unaudited)

**What was the share of socially sustainable investments?**

N/A

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The investments included under #2 Other above consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund followed the following strategies in order to promote the environmental and/or social characteristics

- Included or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics; and
- Excluded certain investments from the portfolio.

Inclusion of certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics

In seeking to identify companies that promote the environmental and/or social characteristics outlined above, the Investment Manager committed to identifying and assessing several proprietary business matters as part of the selection of companies; by way of example this included analysing greenhouse gas emission reduction initiatives, climate change-related risks and company preparedness, and how companies attract, retain and grow key stakeholder bases.

The Investment Manager used a qualitative approach to assess prior to investment and monitoring over the life of an investment, the proprietary business matters to determine if the promotion of the social and/or environmental characteristics were being met on a regular basis through using publicly available information identified and considered material by the Investment Manager for such assessments and monitoring. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information, including information obtained from engagement with third party data vendors / consultants, that the Investment Manager identified that it felt was material to such assessments and monitoring.

The information gathered by the Investment Manager in the process outlined above in respect of the sustainability approach related to the environmental and social characteristics (and proprietary business matters) that the Investment Manager assessed investee companies against. After the Investment Manager carried out their qualitative analysis, the Investment Manager determined whether to invest in a company.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Exclusion of certain investments from the portfolio

In seeking to meet the environmental and/or social characteristics outlined above, the Investment Manager excluded various companies from the Fund's portfolio as part of the investment strategy of the Fund. The Investment Manager's exclusionary process was based on the Investment Manager's assessment and judgment of the proprietary business matters, and investee companies were excluded based on the Investment Manager's view that it was too difficult to determine that such investee company were promoting what the Investment Manager considered relevant environmental and/or social characteristics through effectively balancing the interests of its customers, employees, suppliers and other business partners, shareholders, communities, and the environment.

Examples of the investments that the Investment Manager did not invest directly in, based on the Investment Manager's assessment and judgment outlined above, included, but were not limited to, the following:

Investments in companies whose revenues are made up of at least 25% of the following:

- adult entertainment production,
- small arms,
- tobacco production,
- thermal coal, and
- controversial weapons.

(each an "Excluded Investment" and together the "Excluded Investments")

In addition, the Investment Manager excluded investment in companies that it believed did not follow good governance practices through the Investment Manager's analysis of several proprietary governance-related matters it considered within the investment process, as further outlined below.

Good governance

As part of the sustainability policy, the Investment Manager commits to only investing in companies that it believes follow good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance and excluding companies from the Fund's portfolio that it believes do not follow good governance practices.

In order to invest in companies that follow good governance practices and exclude companies that do not follow good governance practices the Investment Manager identified, assessed and monitored several proprietary business matters that it believed were important to assessing whether a company has good governance in its view, including but not limited to what it considers sound management structures, management of employee relations, management of remuneration of staff, and tax compliance.

The Investment Manager monitored on a regular basis that a company that it has invested in maintained good governance practices. In addition, the Investment Manager monitored a company's maintenance of good governance practices through using publicly available information identified and considered material by the Investment Manager. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information that the Investment Manager had identified that it felt was material to such monitoring.

Product name: Polen Capital Emerging Markets ex China Growth Fund
Legal entity identifier: 213800YIESPAZ32Y4M25

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ____%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Sub-Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund’s portfolio. Further information on this is outlined in the sections entitled “What actions have been taken to meet the environmental and/or social characteristics during the reference period?” and “What was the asset allocation?”

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the four calendar quarters for the period ending 31 December 2023 and is set out below.

Carbon Footprint: 186.3 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 5.3%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

The sustainability indicators as of a balance sheet date of 31 December, 2022 performed as follows:

Carbon Footprint: 117.51 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 3.5%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A

— *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

The Sub-Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Sub-Investment Manager carrying out its own analysis of the Fund’s portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Sub-Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Sub-Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Sub-Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Sub-Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is:

1 January 2023 to 31 December 2023.

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Largest investments	Sector	% Assets	Country
HDFC Bank Limited	Financials	7.8%	India
Mobile World Investment Corp	Consumer Discretionary	6.0%	Vietnam

Investments that do not promote environmental and/or social characteristics of the Fund have been included in these calculations which were carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

What was the proportion of sustainability-related investments?

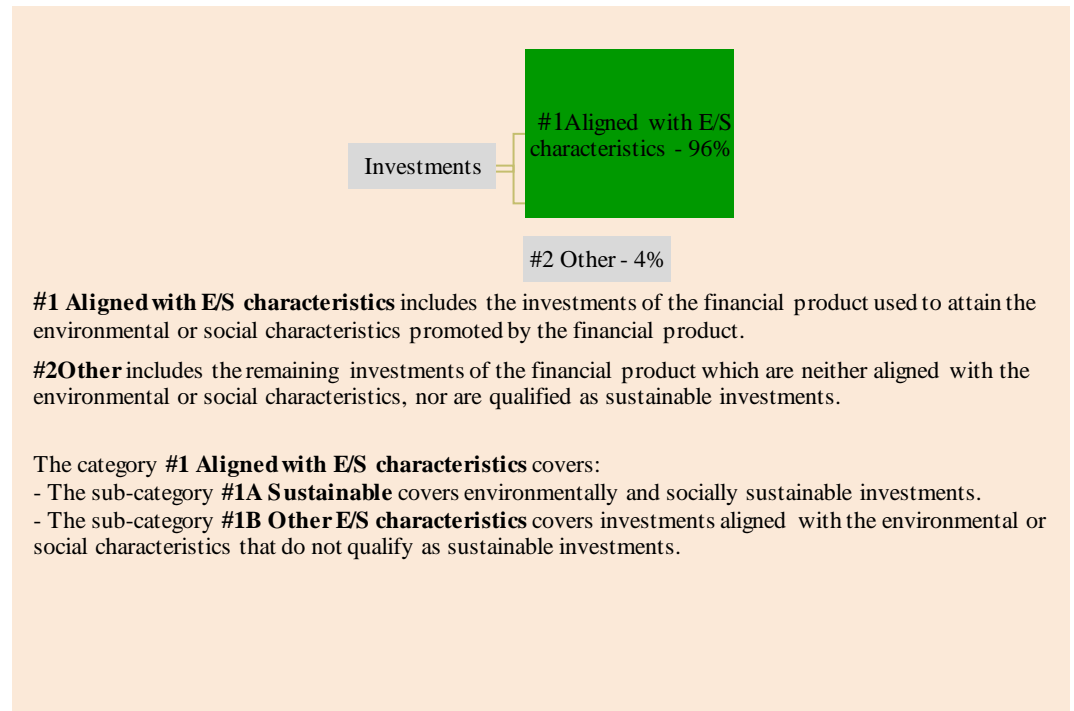

The proportion of the investments of the Fund used to meet the environmental or social characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 96% based on an average of the four calendar quarters for the period ending 31 December 2023

● What was the asset allocation?

The investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Sub-Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments. There were no minimum environmental or social safeguards. This calculation was carried out based on an average of the four calendar quarters for the period ending 31 December 2023.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Asset allocation describes the share of investments in specific assets.

Compared to previous periods:

As of a balance sheet date of 31 December 2022, the investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities and the proportion of the investments of the Fund for this was 98.1%. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Sub-Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments and the proportion of the investments of the Fund for this was 1.9%. There were no minimum environmental or social safeguards. The balance sheet date of 31 December 2022 is the basis of the calculation given that the Fund was classified as disclosing in accordance with Article 8 of the SFDR as of 16 November 2022.

● **In which economic sectors were the investments made?**

The investments were made in the following economic sectors calculated based on an average of the four calendar quarters for the period ending 31 December 2023. Consumer Discretionary

- Consumer Discretionary Distribution & Retail: 19.2%
- Consumer Durables & Apparel: 7.6%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under #2 Other above consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments where the Sub-Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund followed the following strategies in order to promote the environmental and/or social characteristics

- Included or certain investments in the portfolio that the Sub-Investment Manager believed promoted the environmental and/or social characteristics; and
- Excluded certain investments from the portfolio.

Inclusion of certain investments in the portfolio that the Sub-Investment Manager believed promoted the environmental and/or social characteristics

In seeking to identify companies that promote the environmental and/or social characteristics outlined above, the Sub-Investment Manager committed to identifying and assessing several proprietary business matters as part of the selection of companies; by way of example this included analysing greenhouse gas emission reduction initiatives, climate change-related risks and company preparedness, and how companies attract, retain and grow key stakeholder bases.

The Sub-Investment Manager used a qualitative approach to assess prior to investment and monitoring over the life of an investment, the proprietary business matters to determine if the promotion of the social and/or environmental characteristics were being met on a regular basis through using publicly available information identified and considered material by the Sub-Investment Manager for such assessments and monitoring. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information, including information obtained from engagement with third party data vendors / consultants, that the Sub-Investment Manager identified that it felt was material to such assessments and monitoring.

The information gathered by the Sub-Investment Manager in the process outlined above in respect of the sustainability approach related to the environmental and social characteristics (and proprietary business matters) that the Sub-Investment Manager assessed investee companies against. After the Sub-Investment Manager carried out their qualitative analysis, the Sub-Investment Manager determined whether to invest in a company.

Exclusion of certain investments from the portfolio

In seeking to meet the environmental and/or social characteristics outlined above, the Sub-Investment Manager excluded various companies from the Fund's portfolio as part of the investment strategy of the Fund. The Sub-Investment Manager's exclusionary process was based on the Sub-Investment Manager's assessment and judgment of the proprietary business matters, and investee companies were excluded based on the Sub-Investment Manager's view that it was too difficult to determine that such investee company were promoting what the Sub-Investment Manager considered relevant environmental and/or social characteristics through effectively balancing the interests of its customers, employees, suppliers and other business partners, shareholders, communities, and the environment. Examples of the investments that the Sub-Investment Manager did not invest directly in, based on the Sub-Investment Manager's assessment and judgment outlined above, included, but were not limited to, the following:

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Investments in companies whose revenues are made up of at least 25% of the following:

- adult entertainment production,
- small arms,
- tobacco production,
- thermal coal, and
- controversial weapons.

(each an “Excluded Investment” and together the “Excluded Investments”)

In addition, the Sub-Investment Manager excluded investment in companies that it believed did not follow good governance practices through the Sub-Investment Manager’s analysis of several proprietary governance-related matters it considered within the investment process, as further outlined below.

Good governance

As part of the sustainability policy, the Sub-Investment Manager commits to only investing in companies that it believes follow good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance and excluding companies from the Fund’s portfolio that it believes do not follow good governance practices.

In order to invest in companies that follow good governance practices and exclude companies that do not follow good governance practices the Sub-Investment Manager identified, assessed and monitored several proprietary business matters that it believed were important to assessing whether a company has good governance in its view, including but not limited to what it considers sound management structures, management of employee relations, management of remuneration of staff, and tax compliance.

The Sub-Investment Manager monitored on a regular basis that a company that it has invested in maintained good governance practices. In addition, the Sub-Investment Manager monitored a company’s maintenance of good governance practices through using publicly available information identified and considered material by the Sub-Investment Manager. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information that the Sub-Investment Manager had identified that it felt was material to such monitoring.

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Polen Capital China Growth Fund Legal entity identifier: 213800UY5KJ13L191676

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<p><input type="checkbox"/> It made sustainable investments with an environmental objective: ____%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ____%</p>	<p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and/or social characteristics promoted by the Fund are climate change initiatives, initiatives to improve environmental footprints and positive agendas of stakeholders that may be involved in, or impacted by, an investee company. These promoted characteristics were met by the inclusion or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics exclusion of certain investments from the Fund's portfolio. Further information on this is outlined in the sections entitled "What actions have been taken to meet the environmental and/or social characteristics during the reference period?" and "What was the asset allocation?"

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

● ***How did the sustainability indicators perform?***

The performance of the sustainability indicators used to measure the attainment of the promoted characteristics, namely the Fund’s carbon footprint, exposure to companies active in the fossil fuel sector, exposure to controversial weapons, and violations of UN Global Compact principles (“UNGC”) and Organisation for Economic Cooperation and Development (“OECD”) Guidelines for Multinational Enterprises was based on an average of the last three calendar quarters for the period ending 31 December 2023, given that the Fund launched and was classified as disclosing in accordance with Article 8 of the SFDR as of April 28, 2023 and is set out below.

Carbon Footprint: 113.0 tons/CO2e / EUR M invested

Exposure to companies active in the fossil fuel sector: 2.9%

Exposure to controversial weapons: 0%

Violations of UNGC principles and OECD guidelines: 0%

No derivatives were used to meet the environmental or social characteristics promoted by the Fund.

● ***...and compared to previous periods?***

N/A

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

N/A.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

N/A

— ***Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:***

N/A

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

How did this financial product consider principal adverse impacts on sustainability factors?

The Investment Manager sought to identify PAI as part of the investment process, both during the pre-investment assessments but also as part of its ongoing monitoring of investments. This involved the Investment Manager carrying out its own analysis of the Fund's portfolio against the relevant PAI indicators and/or engaging with third party data vendors who sought to accumulate data that was available for the investee companies. The Investment Manager used a combination of methods to help mitigate PAI including for example engagement with investee companies to understand their approach to the PAI and their plans for the future in this area, voting, via voting proxy forms, as a stakeholder on behalf of the Company in the investee companies on issues that related to the PAI in a way that the Investment Manager believed assisted with mitigating PAI indicators and the implementation of an explicit exclusions list as outlined below.

In considering PAI as part of the overall Sustainability Policy of the Fund, the Investment Manager considered whether all mandatory PAI indicators outlined in Annex I of Commission Delegated Regulation 2022/1288 (as may be amended, updated or supplemented from time to time) were relevant to the investment strategy. Those PAI indicators which were deemed not to be relevant to the investment strategy or where the Investment Manager did not have access to sufficient data for evaluating those PAIs were not considered during the reporting period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

The following investments represent more than 50% of the financial product.

Largest investments	Sector	% Assets	Country
Tencent Holdings Ltd	Communications Services	9.2%	China
Aia Group Ltd	Financials	8.1%	Hong Kong, SAR China

Appendix (unaudited)

Taxonomy Regulation (unaudited)

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:

1 January 2023 to 31 December 2023. However, please note that the Fund was classified as disclosing in accordance with Article 8 of the SFDR as of 28 April, 2023.

Largest investments	Sector	% Assets	Country
Hong Kong Exchanges & Clear	Financials	7.2%	Hong Kong, SAR China
Haier Smart Home Co Ltd-H	Consumer Discretionary	4.9%	China
Shenzhen Inovance Technolo-A	Industrials	4.7%	China
Shandong Sinocera Function-A	Materials	4.4%	China
By-Health Co Ltd-A	Consumer Staples	3.7%	China
Hefei Meiya Optoelectronic-A	Industrials	3.6%	China
Meituan-Class B	Consumer Discretionary	3.6%	China
Byd Co Ltd-H	Consumer Discretionary	3.5%	China

Investments that do not promote environmental and/or social characteristics of the Fund have been included in these calculations which were carried out based on an average of the last three calendar quarters for the period ending 31 December 2023, given that the Fund launched and was classified as disclosing in accordance with Article 8 of the SFDR as of 28 April, 2023.

What was the proportion of sustainability-related investments?

The proportion of the investments of the Fund used to meet the environmental or social characteristics promoted by the Fund, in accordance with the binding elements of the investment strategy was 98.1% based on an average of the last three calendar quarters for the period ending 31 December 2023, given that the Fund launched and was classified as disclosing in accordance with Article 8 of the SFDR as of April 28, 2023.

● *What was the asset allocation?*

The investments of the Fund that attained the promoted environmental or social characteristics included equities and equity related securities. The remaining investments of the Fund consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments (as defined in the Prospectus) where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes. These assets were neither aligned with the environmental or social characteristics, nor were they sustainable investments. There were no minimum environmental or social safeguards. This calculation was carried out based on an average of the last three calendar quarters for the period ending 31 December 2023, given that the Fund launched and was classified as disclosing in accordance with Article 8 of the SFDR as of April 28, 2023.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

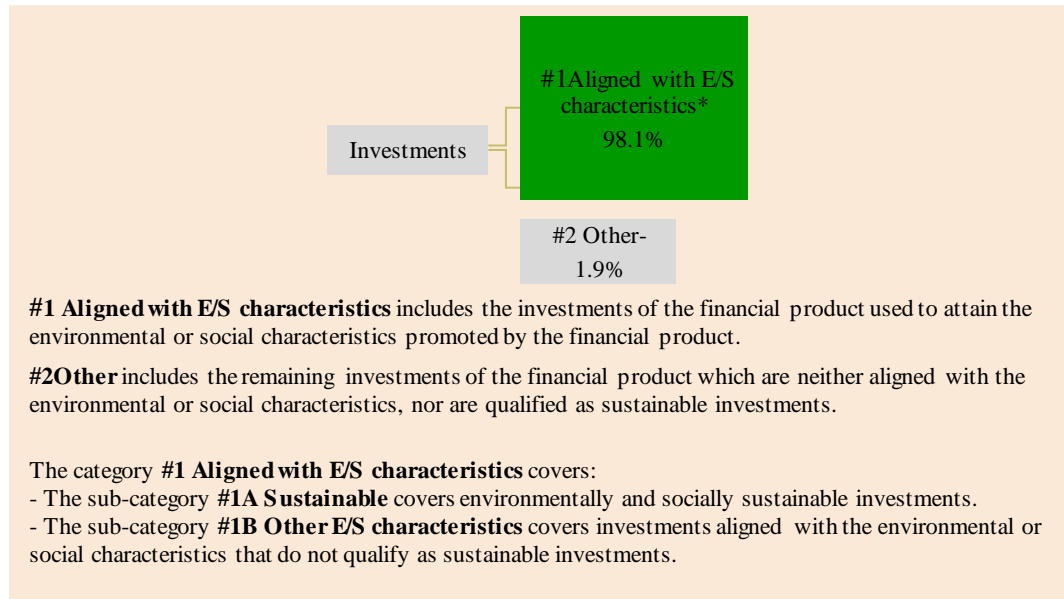

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

In which economic sectors were the investments made?

The investments were made in the following economic sectors calculated based on an average of the last three calendar quarters for the period ending 31 December 2023.

Financials

- Financial Services: 7.2%
- Insurance: 11.3%

Consumer Discretionary

- Automobiles & Components 3.5%
- Consumer Durables & Apparel 9.9%
- Consumer Services 6.4%

Industrials

- Capital Goods 8.3%
- Commercial & Professional Services 0.9%
- Transportation 3.7%

Consumer Staples

- Food, Beverage & Tobacco: 6.5%
- Household & Personal Products: 3.7%

Health Care

- Health Care Equipment & Services 5.9%
- Pharmaceuticals, Biotechnology & Life Sciences: 1.4%

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Asset allocation describes the share of investments in specific assets.

- Communication Services
 - Media & Entertainment: 10.6%
- Information Technology
 - Software & Services: 4.2%
 - Semiconductors and Semiconductor Equipment: 3.0%
- Materials
 - Materials 4.4%
- Real Estate
 - Equity Real Estate Investment Trusts: 3.0%
- Utilities
 - Utilities 2.8%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

0%

Did the financial product invest in fossil gas and / or nuclear energy related activities that comply with the EU Taxonomy?¹

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significant harm any EU Taxonomy objective – see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

Appendix (unaudited)

Taxonomy Regulation (unaudited)

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

0%

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A

What was the share of socially sustainable investments?

N/A.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The investments included under #2 Other above consisted of ancillary liquid assets, including cash and cash equivalents and Money Market Instruments where the Investment Manager deemed an appropriate investment opportunity was not available and financial derivative instruments such as currency swaps and currency forwards for hedging currency exposure of certain share classes.

Appendix (unaudited)

Taxonomy Regulation (unaudited)

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund followed the following strategies in order to promote the environmental and/or social characteristics

- Included or certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics; and
- Excluded certain investments from the portfolio.

Inclusion of certain investments in the portfolio that the Investment Manager believed promoted the environmental and/or social characteristics

In seeking to identify companies that promote the environmental and/or social characteristics outlined above, the Investment Manager committed to identifying and assessing several proprietary business matters as part of the selection of companies; by way of example this included analysing greenhouse gas emission reduction initiatives, climate change-related risks and company preparedness, and how companies attract, retain and grow key stakeholder bases.

The Investment Manager used a qualitative approach to assess prior to investment and monitoring over the life of an investment, the proprietary business matters to determine if the promotion of the social and/or environmental characteristics were being met on a regular basis through using publicly available information identified and considered material by the Investment Manager for such assessments and monitoring. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information, including information obtained from engagement with third party data vendors / consultants, that the Investment Manager identified that it felt was material to such assessments and monitoring.

The information gathered by the Investment Manager in the process outlined above in respect of the sustainability approach related to the environmental and social characteristics (and proprietary business matters) that the Investment Manager assessed investee companies against. After the Investment Manager carried out their qualitative analysis, the Investment Manager determined whether to invest in a company.

Exclusion of certain investments from the portfolio

In seeking to meet the environmental and/or social characteristics outlined above, the Investment Manager excluded various companies from the Fund's portfolio as part of the investment strategy of the Fund. The Investment Manager's exclusionary process was based on the Investment Manager's assessment and judgment of the proprietary business matters, and investee companies were excluded based on the Investment Manager's view that it was too difficult to determine that such investee company were promoting what the Investment Manager considered relevant environmental and/or social characteristics through effectively balancing the interests of its customers, employees, suppliers and other business partners, shareholders, communities, and the environment. Examples of the investments that the Investment Manager did not invest directly in, based on the Investment Manager's assessment and judgment outlined above, included, but were not limited to, the following:

Appendix (unaudited)

Taxonomy Regulation (unaudited)

Investments in companies whose revenues are made up of at least 25% of the following:

- adult entertainment production,
- small arms,
- tobacco production,
- thermal coal, and
- controversial weapons.

(each an “Excluded Investment” and together the “Excluded Investments”)

In addition, the Investment Manager excluded investment in companies that it believed did not follow good governance practices through the Investment Manager’s analysis of several proprietary governance-related matters it considered within the investment process, as further outlined below.

Good governance

As part of the sustainability policy, the Investment Manager commits to only investing in companies that it believes follow good governance practices such as sound management structures, employee relations, remuneration of staff and tax compliance and excluding companies from the Fund’s portfolio that it believes do not follow good governance practices.

In order to invest in companies that follow good governance practices and exclude companies that do not follow good governance practices the Investment Manager identified, assessed and monitored several proprietary business matters that it believed were important to assessing whether a company has good governance in its view, including but not limited to what it considers sound management structures, management of employee relations, management of remuneration of staff, and tax compliance.

The Investment Manager monitored on a regular basis that a company that it has invested in maintained good governance practices. In addition, the Investment Manager monitored a company’s maintenance of good governance practices through using publicly available information identified and considered material by the Investment Manager. This publicly available information consisted of for example financial statements and reports filed by a company, investor events and meetings hosted by a company, industry information, and any other such information that the Investment Manager had identified that it felt was material to such monitoring.

How did this financial product perform compared to the reference benchmark?
