## Polen Capital Launches Concentrated International Growth Strategy

**BOCA RATON, FL (01/03/2017)**—Polen Capital, a growth equity investment manager with a 28-year track record, announced today that its International Growth strategy is available to investors via separately managed accounts and a mutual fund.

The International Growth strategy provides clients with another access point to the Firm's time-tested, bottom-up, concentrated investment philosophy and process.

"The International Growth strategy is a natural extension of our global research efforts and will enhance the intellectual capital, long-term stability and growth opportunities of our Firm," said Stan Moss, Chief Executive Officer of Polen Capital.

International Growth Portfolio Manager Todd Morris has spent most of his asset management career at Polen Capital, where he globalized the Firm's research effort and led the execution of research for the Focus Growth and Global Growth strategies.

The Polen International Growth Equity strategy seeks to invest in stocks of businesses in non-U.S. markets that are well positioned to capitalize on long-term growth opportunities and have strong financials, a sustainable competitive advantage and the potential for durable five-year earnings growth.

A new mutual fund, the Polen International Growth Fund (POIIX), which seeks to mirror the management and make-up of the International Growth strategy, opened to new investors today.

In addition to the launch of the International Growth strategy, Polen Capital's suite of products for individual and institutional investors also includes two other long-term growth strategies: [Focus Growth](#) and [Global Growth](#).
