FUND SUMMARY

POLEN OPPORTUNISTIC HIGH YIELD FUND

Investment Objective

Polen Opportunistic High Yield Fund (the “Fund”) seeks to achieve overall total return consisting of a high level of current income together with long-term capital appreciation.

Fees and Expenses

This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. **You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.**

Shareholder Fees (fees paid directly from your investment):

	Investor Class	Institutional Class	Class Y
Redemption Fee (as a percentage of amount redeemed within 60 days of purchase)	1.00%	1.00%	1.00%
Annual Fund Operating Expenses (expenses that you pay each year as a percentage of the value of your investment):			
Management Fees	0.70%	0.70%	0.70%
Distribution (Rule 12b-1) Fees	0.25%	None	None
Other Expenses	0.43%	0.38%	0.13%
Total Annual Fund Operating Expenses	1.38%	1.08%	0.83%
Fee Waiver and/or Expense Reimbursement ¹	(0.24)%	(0.19)%	(0.04)%
Total Annual Fund Operating Expenses After Fee Waiver and/or Expense Reimbursement²	1.14%	0.89%	0.79%

¹ Polen Capital Credit, LLC (“Polen Credit” or the “Adviser”) has contractually agreed to reduce its investment advisory fee and/or reimburse certain expenses of the Fund to the extent necessary to ensure that the Fund’s total operating expenses (excluding taxes, fees and expenses attributable to a distribution or service plan adopted by FundVantage Trust (the “Trust”), interest, extraordinary items, “Acquired Fund Fees and Expenses” and brokerage commissions) do not exceed 0.89% with respect to Investor Class shares and Institutional Class shares and 0.79% with respect to Class Y shares (on an annual basis) with respect to the Fund’s average daily net assets (the “Expense Limitation”). The Expense Limitation will remain in place until August 31, 2025 unless the Board of Trustees of the Trust approves its earlier termination. The Adviser is entitled to recover, subject to approval by the Board of Trustees, such amounts reduced or reimbursed for a period of up to three (3) years from the date on which the Adviser reduced its compensation and/or assumed expenses for the Fund. The Adviser is permitted to seek reimbursement from the Fund, subject to certain limitations, for fees it waived and Fund expenses it paid to the extent the total annual fund operating expenses do not exceed the limits described above or any lesser limits in effect at the time of the reimbursement. No reimbursement will occur unless the Fund’s expenses are below the Expense Limitation.

Example

This Example is intended to help you compare the cost of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in Investor Class shares, Institutional Class shares and Class Y shares of the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same (reflecting any contractual fee waivers). Although your actual costs may be higher or lower, based on these assumptions your costs would be:

	1 Year	3 Years	5 Years	10 years
Investor Class	\$116	\$413	\$732	\$1,637
Institutional Class	\$91	\$325	\$577	\$1,300
Class Y	\$81	\$261	\$457	\$1,022

Portfolio Turnover

The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, affect the Fund’s performance. During the fiscal year ended September 30, 2023, the Fund’s portfolio turnover rate was 43% of the average value of its portfolio. For the seven month period ended April 30, 2024, the Fund’s portfolio turnover rate was 44%. The Fund changed its fiscal year from September 30 to April 30.

Summary of Principal Investment Strategies

The Fund pursues its investment objective by seeking to outperform the broader high yield market over a complete credit cycle. The “credit cycle” is a cyclical event that generally occurs over a several year timeframe as access to credit increases or decreases for borrowers.

The Fund seeks to achieve its objective mainly by investing in fixed- and floating-rate high yield fixed income securities with a focus on “middle market” issuers in the United States and, to a much lesser extent, Canada. The Adviser considers middle market companies to be those with normalized earnings before interest, tax and depreciation (“EBITDA”) in the range of \$75-250 million. The Adviser believes that the flexibility to invest, sell, and reinvest throughout the capital structure of an issuer (and in particular, in both more senior bank loans and more junior high yield bonds) will enable the Adviser to tailor its investment approach to the specific credit-related circumstances of that issuer as they may change from time to time and thereby select the most attractive opportunities for the Fund.

The Adviser intends to invest assets of the Fund primarily in credit instruments that are rated below investment grade by some or all relevant independent rating agencies, including Moody’s Investors Service, Standard and Poor’s Rating Services and Fitch Ratings (including a significant portion of such assets in credit instruments in the lower tier of the high yield market that are rated B and below). Additionally, certain other high yield securities may be unrated by rating agencies, but determined by the Adviser to be of similar quality as other below investment grade bonds and credit instruments and accordingly purchased for investment by the Fund. The Fund does not have a percentage limitation on investing in securities that are rated below investment grade.

High yield fixed income securities include high yield corporate bonds (commonly known as “junk bonds”), senior loans, convertible bonds, preferred stock, and other types of debt instruments (including, without limitation, unregistered (Rule 144A) securities, floating and variable rate securities and other restricted fixed income securities to the extent permitted by the Investment Company Act of 1940, as amended (the “1940 Act”). In addition, the Fund may also purchase equity securities or otherwise hold positions in equity or other assets that the Fund receives as part of a reorganization process of a high yield issuer, and the Fund may hold those assets until such time as the Adviser believes that a disposition is most advantageous. From time to time, the Fund may make investments in distressed or defaulted securities or in issuers that are in bankruptcy. Although the Fund does not have any maturity or duration requirements, the Fund typically holds securities that, on average, have a shorter maturity and duration than the maturity and duration of broad-based high yield market indices.

In making these investments, the Adviser seeks to purchase instruments that the Adviser believes are undervalued and offer a compelling risk/reward ratio. Specifically, the Adviser’s investment process attempts to exploit inefficiencies in the high yield credit markets by adhering to a disciplined, bottom-up, fundamentally-oriented investment process with an emphasis

on downside protection. The Adviser believes that its portfolios can appropriately balance these risks with the potential reward by purchasing securities of companies at deep discounts to intrinsic enterprise value, thereby providing significant cushion from a loan-to-value perspective; by properly understanding, as part of the Adviser's due diligence process, the relevant legal aspects of a bond indenture or loan document with a focus on downside or bankruptcy scenarios; and by managing liquidity in the portfolio by limiting the number and size of positions considered by the Adviser to be less liquid in nature. This process applies value investing principles through exhaustive research coupled with financial, structural and legal analysis, including a review of bankruptcy law considerations where applicable. The foundation of this investment process is to derive an accurate, real-time valuation of a target company and to only invest in securities of that company's capital structure that offer a significant margin of safety coupled with strong total return potential. "Significant margin of safety" means that the Fund endeavors to identify securities with a low loan-to-value ratio where there is accordingly low risk that the subject security will default and experience principal losses as a result. By utilizing such a fundamental, bottom-up approach to investing, the Adviser seeks to add value first and foremost through security selection.

The Adviser intends to manage a relatively concentrated portfolio typically comprising between 50-90 issuers and 60-120 issues. The Fund has adopted an investment policy providing that under normal circumstances, the Fund will invest at least 80% of the value of its assets (net assets plus the amount of any borrowings for investment purposes) in high yield fixed income securities. This 80% policy may be changed by the Trust's Board of Trustees without shareholder approval upon 60 days' written notice to shareholders.

Summary of Principal Risks

The Fund is subject to the principal risks summarized below. The order of the below risk factors does not indicate the significance of any particular risk factor and the relative significance of each risk below may change over time. These risks could adversely affect the Fund's net asset value ("NAV"), yield and total return. It is possible to lose money by investing in the Fund. The Fund may not be a suitable investment for all investors.

- **High Yield Securities Risk:** High yield securities (also known as junk bonds) are generally considered riskier than investment grade, fixed income securities. The total return and yield of high yield securities can be expected to fluctuate more than the total return and yield of higher quality securities. High yield securities are regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. Successful investment in high yield securities involves greater investment risk and is highly dependent on the Adviser's credit analysis and market analysis.
- **Credit Risk:** The risk that the issuer of a security, or the counterparty to a contract, will default or otherwise become unable to honor a financial obligation (such as the payment of interest or principal on a debt security).
- **Debt Securities Risk:** Debt securities in which the Fund invests are subject to several types of investment risk, including market or interest rate risk (i.e., the risk that their value will be inversely affected by fluctuations in the prevailing interest rates), credit risk (i.e., the risk that the issuer may be unable to make timely interest payments and repay the principal upon maturity), call or income risk (i.e., the risk that certain debt securities with high interest rates will be prepaid or "called" by the issuer before they mature), and event risk (i.e., the risk that certain debt securities may suffer a substantial decline in credit quality and market value if the issuer restructures). Fixed income markets have recently experienced a period of relatively high volatility. If the Federal Reserve continues to increase interest rates, fixed income markets (and the high yield market in particular) could experience continuing high volatility, which could negatively impact the Fund's performance. A projection of an economic downturn or of a period rising interest rates, for example, could cause a decline in high yield bond prices because the advent of a recession could lessen the ability of a highly leveraged company to make principal and interest payment on its debt securities.
- **Bank Loan Risk:** The Fund's investment in secured and unsecured assignments of (or participations in) bank loans may create substantial risk. In making investments in bank loans, which are made by banks or other financial intermediaries to borrowers, the Fund will depend primarily upon the creditworthiness of the borrower for payment of principal and interest. In addition, the settlement of bank loans occurs on an extended (multi-week) basis, which may prevent the Fund from obtaining liquidity of certain assets within a desired timeframe. In addition, there is the potential that bank loans and other similar instruments may not be considered "securities" and, as a result, the Fund may not be entitled to rely on the anti-fraud protections under the federal securities laws and instead may have to resort to state law and direct claims.

- **Bankruptcy and Restructuring Risk:** The Fund may target securities and other obligations of issuers that are in financial difficulty and/or may be in, entering, or emerging from bankruptcy proceedings. Bankruptcy or other insolvency proceedings are highly complex and may result in unpredictable outcomes. In any investment opportunity involving work-outs, liquidations, spin-offs, reorganizations, bankruptcies and similar transactions, there exists the risk that the contemplated transaction may be unsuccessful. Similarly, if an anticipated transaction does not in fact occur, the Fund may be required to sell the investment at a loss. The level of analytical sophistication, both financial and legal, necessary for successful investment in companies experiencing significant business and financial difficulties is unusually high. Because there is a substantial uncertainty concerning the outcome of transactions involving financially troubled companies in which the Fund may invest, there is a potential risk of loss of the entire investment in such companies, as well as the risk that the Fund may be required to accept cash or new securities with a value less than the Fund's original investment and/or may be required to accept payment over an extended period of time. Under such circumstances, the returns generated from the Fund's investments may not compensate it adequately for the risks assumed.
- **Canadian Securities Risk:** The Fund may invest in, and/or have exposure to, Canadian securities. The Canadian economy may be significantly affected by the U.S. economy because the U.S. is Canada's largest trading partner and foreign investor. Canada's largest exports are its natural resources, so the Canadian economy is dependent on the demand for, and supply and price of, natural resources, and any market developments that reduce the price of such goods could disproportionately affect the Canadian economy.
- **Cash Positions:** The Fund may not always stay fully invested. For example, when the Adviser believes that market conditions are unfavorable for profitable investing or when it is otherwise unable to locate attractive investment opportunities, the Fund's cash or similar investments may increase. In other words, cash or similar investments generally are a residual – they represent the assets that remain after the Fund has committed available assets to desirable investment opportunities. When the Fund's investments in cash or similar investments increase, it may not participate in market advances to the same extent that it would if the Fund remained more fully invested, and the Fund's ability to achieve its investment objective may be affected.
- **Convertible Bond Risk:** Convertible bonds are hybrid securities that have characteristics of both bonds and common stocks and are therefore subject to both debt securities risk and equity securities risk. Convertible bonds are subject to equity securities risk especially when their conversion value is greater than the interest and principal value of the bond. The prices of equity securities may rise or fall because of economic or political changes and may decline over short or extended periods of time.
- **Equity Securities Risk:** Stock markets are volatile. The price of equity securities fluctuates based on changes in a company's financial condition, historical and prospective earnings of the company, interest rates, investor perceptions and overall market and economic conditions. The prices of securities change in response to many factors including the value of its assets.
- **Foreign Securities Risk:** The risk that investing in foreign (non-U.S.) securities may result in the Fund experiencing more rapid and extreme changes in value than a fund that invests exclusively in securities of U.S. companies, due to less liquid markets, and adverse economic, political, diplomatic, financial, and regulatory factors. Foreign governments also may impose limits on investment and repatriation and impose taxes. Any of these events could cause the value of the Fund's investments to decline.
- **Interest Rate Risk:** The risk of market losses attributable to changes in interest rates. With fixed rate securities, a rise in interest rates typically causes a fall in values. The yield earned by the Fund will vary with changes in interest rates. The longer the average maturity of the Fund's investment portfolio, the greater the fluctuation in value.
- **Liquidity Risk:** The risk that certain securities may be difficult or impossible to sell at the time and the price that the seller would like.
- **Management Risk:** As with any managed fund, the Adviser may not be successful in selecting the best performing securities or investment techniques, and the Fund's performance may lag behind that of similar funds. The Adviser may also miss out on an investment opportunity because the assets necessary to take advantage of the opportunity are tied up in less advantageous investments.

- **Market Risk:** The values of, and/or the income generated by, securities held by the Fund may decline due to factors that are specifically related to a particular company, as well as general market conditions, such as real or perceived adverse economic or political conditions, inflation rates and/or investor expectations concerning such rates, changes in interest rates, or adverse investor sentiment generally. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments. Geopolitical events, including terrorism, tensions or open conflict between nations, or political or economic dysfunction within some nations that are global economic powers, may lead to instability in world economies and markets, may lead to increased market volatility, and may have adverse long-term effects. Events such as environmental and natural disasters, public health crises (such as epidemics and pandemics), social unrest, and cybersecurity incidents, and governments' reactions to such events, could cause uncertainty in the markets and may adversely affect the performance of the global economy.
- **Preferred Stock Risk:** Preferred stock is a class of a capital stock that typically pays dividends at a specified rate. Preferred stock is generally senior to common stock, but subordinate to debt securities, with respect to the payment of dividends and on liquidation of the issuer. The market value of preferred stock generally decreases when interest rates rise and is also affected by the issuer's ability to make payments on the preferred stock.
- **Prepayment Risk:** The risk that a debt security may be paid off and proceeds invested earlier than anticipated. Depending on market conditions, the new investments may or may not carry the same interest rate.
- **Private Placement Risk:** Private placements involve securities not registered under the 1933 Act. In addition to the general risks associated with fixed income securities, such securities (including "144A" securities) may be subject to restrictions on resale, transaction costs for such securities may be higher than comparable securities, and there may be no liquid secondary market for such securities.
- **Rule 144A Securities Risk:** The market for certain Rule 144A securities can be less active than the market for publicly-traded securities. Certain Rule 144A securities carry a heightened risk that the liquidity of these securities may become impaired, making it more difficult for the Fund to sell these bonds at reasonable prices.
- **Small- and Mid-Cap Risk:** The Fund's investment approach is focused on identifying attractive securities issued by "middle market" companies. However, the securities of smaller and mid-size companies tend to be more volatile and less liquid than securities of larger companies. This can adversely affect the prices at which the Fund can purchase and sell these securities, and thus the value of the Fund's shares.
- **Valuation Risk:** Unlike publicly-traded common stock, which trades on national exchanges, there is no central exchange for fixed-income securities, including bank loans, to trade. Such fixed-income securities generally trade on an "over-the-counter" market, where the buyer and seller can settle on a price. Due to the lack of centralized information and trading, the valuation of fixed-income securities may carry more risk than that of publicly-traded common stocks. Uncertainties in the conditions of the financial market, unreliable reference data, lack of transparency and inconsistency of valuation models and processes may lead to inaccurate asset pricing by third-party pricing vendors. Moreover, to the extent that prices or quotations are not available from such third-party pricing vendors, or when the Adviser believes that they are unreliable, securities may be priced by the Fund using fair value procedures approved by the Fund's Board of Trustees. In addition, other market participants may value securities differently than the Fund. As a result, the Fund may be subject to the risk that when a fixed-income security is sold in the market, the amount received by the Fund is less than the value of such fixed-income security carried on the Fund's books.

Performance Information

The following information is intended to help you understand the risks and volatility of investing in the Fund by showing: (a) changes in the performance of the Fund's Class Y shares from year to year; and (b) how the average annual total return of the Fund's Class Y shares compare to those of a regulatorily required broad-based securities market index (Bloomberg U.S. Universal Index) (the "Regulatory Benchmark") and the ICE BofA U.S. High Yield Index (the "Performance Benchmark"). The Performance Benchmark is generally more representative of the market sectors and/or types of investments in which the Fund invests or to which the Fund has exposure and which the Adviser uses to measure the Fund's performance. The Fund has included in the table below the performance of the Regulatory Benchmark, which represents a broader measure of market performance, to comply with new regulatory requirements. The Fund is the successor to the Polen DDJ Opportunistic High Yield Fund, a series of ALPS Series Trust (the "Predecessor Fund"), a mutual fund with substantially similar investment objectives, strategies, policies, and restrictions, as a result of the reorganization of the Predecessor Fund into the Fund on July 24, 2023 (the "Reorganization Date"). The performance in the bar chart and table prior to the Reorganization Date is that of the Predecessor Fund. The Fund's performance information reflects applicable fee waivers/expense limitations, if any, during the period shown and absent such fee waivers/expense limitations performance would have been lower. The Fund's past performance (before and after taxes) does not necessarily indicate how the Fund will perform in the future. Updated performance information is available at no cost on the Fund's website at <https://www.polencapital.com/strategies/us-opportunistic-high-yield-fund> or by calling the Fund toll-free at (888) 678-6024.

Calendar Year-to-Date Total Return as of June 30, 2024: 4.46%

During the periods shown in the chart:

Best Quarter	Worst Quarter
9.83%	(15.97%)
(June 30, 2020)	(March 31, 2020)

Average Annual Total Returns as of December 31, 2023¹	1 Year	5 Years	Since Inception (July 16, 2015)
Class Y Shares Return Before Taxes	12.28%	3.04%	4.12%
Class Y Shares Return After Taxes on Distributions	8.42%	(0.02)%	0.77%
Class Y Shares Return After Taxes on Distributions and Sale of Fund Shares	7.16%	1.00% ²	1.66% ²
Institutional Class Return Before Taxes	12.25%	3.02%	4.13%
Investor Class Shares Return Before Taxes	11.82%	2.67%	3.78%
ICE BofA U.S. High Yield Index* (reflects no deduction for fees, expenses or taxes) ³	13.46%	5.21%	4.72%
Bloomberg U.S. Universal Index (reflects no deduction for fees, expenses or taxes) ³	6.17%	1.44%	1.77%

* Source: ICE Data Indices, LLC (“ICE DATA”), is used with permission. ICE DATA, its affiliates and their respective third-party suppliers disclaim any and all warranties and representations, express and/or implied, including any warranties of merchantability or fitness for a particular purpose or use, including the index, index data and any data included in, related to, or derived therefrom. Neither ICE DATA, its affiliates or their respective third-party providers shall not be subject to any damages or liability with respect to the adequacy, accuracy, timeliness or completeness of the index or the index data or any component thereof, and the index and index data and all components thereof are provided on an “as is” basis and your use is at your own risk. ICE DATA, its affiliates and their respective third-party suppliers do not sponsor, endorse, or recommend the Adviser, the Fund, or any of the Adviser’s products or services.

¹ The performance information reflects the performance of the Predecessor Fund from its inception on July 16, 2015 through the Reorganization Date.

² The “Return After Taxes on Distributions and Sale of Shares” is higher than the “Return After Taxes on Distributions” because of realized losses that would have been sustained upon sale of Fund shares immediately after the relevant periods.

³ The ICE BofA U.S. High Yield Index is maintained by ICE Data Indices, LLC and comprised of U.S. dollar denominated, below investment grade corporate debt publicly issued in the U.S. domestic market. The Bloomberg U.S. Universal Index benchmark covers U.S.-dollar denominated, taxable bonds that are rated either investment grade or high-yield.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on your tax situation and may differ from those shown and are not relevant if you hold your shares through tax-deferred arrangements, such as 401(k) plans or individual retirement accounts. After-tax returns shown are for Class Y shares; after-tax returns for Institutional Class shares and Investor Class shares will vary.

Management of the Fund

Investment Adviser

Polen Capital Credit, LLC serves as the Fund’s investment adviser.

Portfolio Managers

David J. Breazzano, Head of Team for Credit and Portfolio Manager, has served as a portfolio manager of the Fund since its inception in 2023. He served as portfolio manager and later co-portfolio manager of the Predecessor Fund since 2016.

Benjamin J. Santonelli, Portfolio Manager, has served as a portfolio manager of the Fund since its inception in 2023. He served as co-portfolio manager of the Predecessor Fund since 2018, and assistant portfolio manager since 2016.

John W. Sherman, Portfolio Manager, has served as a portfolio manager of the Fund since its inception in 2023. He served as co-portfolio manager of the Predecessor Fund since 2018, and assistant portfolio manager since 2016.

Purchase and Sale of Fund Shares

Minimum Investment Requirements

Account Type	Minimum	Investor Class	Institutional Class
Regular Accounts	Initial Investment	\$3,000	\$100,000
	Additional Investments	\$100	\$0
Individual Retirement Accounts	Initial Investment	\$2,000	\$100,000
	Additional Investments	\$100	\$0
Automatic Investment Plan	Initial Investment	\$2,000	\$100,000
	Additional Investments	\$100	\$0

The minimum initial investment in Class Y shares is \$1,000,000. Class Y shares are available exclusively to institutional investors, including, but not limited to, charitable organizations, governmental institutions, corporations, and trust & private bank platforms. Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary.

You can only purchase and redeem shares of the Fund on days the New York Stock Exchange (the "Exchange") is open and through the means described below.

Tax Information

The Fund intends to make distributions that may be taxed as ordinary income or capital gains. Such distributions are not currently taxable when shares are held through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account. However, subsequent withdrawals from any tax-deferred account in which the shares are held may be subject to federal income tax.

Payments to Broker-Dealers and Other Financial Intermediaries

If you purchase shares of the Fund through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the financial intermediary for the sale of Fund shares and/or for related services to shareholders. These payments may create a conflict of interest by influencing the broker-dealer or other financial intermediary and your salesperson to recommend the Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.

MORE INFORMATION ABOUT THE FUND'S INVESTMENT OBJECTIVE, STRATEGIES AND RISKS

INVESTMENT OBJECTIVE

The Fund seeks to achieve overall total return consisting of a high level of current income together with long-term capital appreciation. Although no change is anticipated, the Fund's investment objective may be changed by the Trust's Board of Trustees without shareholder approval upon written notice to shareholders. There is no guarantee that the Fund will achieve its investment objective.

ADDITIONAL INFORMATION ABOUT THE FUND'S INVESTMENT STRATEGIES

The Fund's principal investment strategies are discussed in the "Fund Summary" section. Principal investment strategies are those that the Adviser will use on a day-to-day basis to achieve the Fund's investment objective. This section provides more information about these strategies, as well as information about some additional strategies that the Fund's Adviser uses, or may use, to achieve the Fund's objective. Additional information about these investment strategies and practices and related risks is also provided in the Fund's Statement of Additional Information ("SAI"). The Fund may also use strategies and invest in securities that are not described in this Prospectus, but that are described in the Fund's SAI. The investments and strategies discussed below are those that the Adviser will use under normal market conditions.

What is the Adviser's Investment Philosophy?

The Adviser's opportunistic high yield investment philosophy is based upon its belief that the lower-rated segments of the high yield market (rated B and below) are the most inefficient areas of the market and provide ample investment opportunities.

The Adviser believes that inefficiencies arise in this market segment (and in particular with respect to issuers within the middle market) for several reasons, including:

- Many traditional managers of large-cap high yield portfolios do not have an in-depth understanding of this market and/or do not participate in it. These traditional high yield managers oftentimes manage outsized, inflexible funds with large minimum investment size criteria. Therefore, they may not find it cost-effective to dedicate resources to the middle market segment, which the Adviser believes to be less frequently traded and offers smaller investment sizes. This segment accordingly is not as widely covered by high yield research analysts, and fewer brokers make a market trading in its securities. Because of the more limited following

in the middle market, investment managers, such as the Adviser, that dedicate the resources and perform a heightened level of due diligence, are able to identify attractive investment opportunities.

- Traditional high yield managers generally may operate under more rigid investment guidelines than the Fund, which give rise to market inefficiencies. For example, certain mutual funds and structured products (e.g., CLOs) that invest in the leveraged credit market may have restrictions on the amount of CCC-rated investments that can be held in their portfolios. In addition, other institutional portfolios also have similar restrictions on the amount of CCC-rated investments that may be held. Consequently, managers of such portfolios may be encouraged, if not required to divest debt securities that are downgraded below a single-B rating, potentially at a depressed trading price, without regard to the merits of the investment or whether the manager agrees with the rating agency's new characterization of risk.

The Adviser seeks to identify and exploit inefficiencies such as these by adhering to a disciplined, fundamental-oriented investment process based upon company-specific research and applying value investing principles to the credit markets through financial and legal analysis. The Adviser's investment process generally involves observing a company as a whole and deriving a total enterprise value, and then generally only targeting those investments in that company's capital structure that the Adviser believes offer a significant margin of safety coupled with strong return potential.

As part of its due diligence process, the Adviser will attempt to create a comprehensive analytical overview of a target company focused on its current and future business prospects. In addition, the Adviser may evaluate the company's senior management, industry fundamentals, market share, pricing power, operating characteristics and historical and projected financial performance to identify the risk and rewards of an investment.

In particular, the Adviser's fundamental analysis of each investment opportunity typically focuses on the following three components:

1. *Cash Flow* – An evaluation of a company's ability to both (a) service its fixed obligations, including interest, capital expenditures, and working capital needs, and (b) generate free cash flow that will enable it to repay its debt or reinvest capital. Polen Credit believes that

understanding an issuer's discretionary free cash flow is important in assessing downside risk in the context of an adverse credit event that causes liquidity or cash flow to deteriorate.

2. *Enterprise Value Coverage* – An analysis of a company's overall enterprise value relative to its liabilities and equity value (a "loan-to-value" analysis), including a determination of a company's value to prospective acquirer(s) of such business in whole or in pieces under a variety of economic assumptions.
3. *Legal Protections and Contractual Remedies* – An assessment of the contractual rights and remedies set forth in relevant legal documents governing a particular investment, such as a loan agreement, bond indenture, and/or intercreditor agreement.

Once a potential investment opportunity is identified, a research analyst will generally prepare a "first pass" analysis outlining the company's business model and financial condition, together with a proposed investment thesis. If a portfolio manager agrees with the analyst's recommendation, the analyst will undertake a more in-depth "second pass" analysis to create an overall financial assessment of the investment opportunity and verify the investment thesis. This second pass, or "deep dive", includes more extensive due diligence on the business and the securities that are being considered for investment. During this stage, Polen Credit's analysts may meet or conduct teleconferences with target company management, as well as with competitors, customers, suppliers and other third parties that are familiar with the company or industry, in order to acquire a more thorough understanding of the relevant aspects of the underlying business and corresponding investment opportunity. At this time, the research analyst is tasked with identifying all material risks related to the investment opportunity (including, without limitation, risks related to sustainability factors) in an effort to evaluate the overall risk-reward profile of the proposed investment.

Maintaining adequate downside protection is a key principle to the Adviser's risk management philosophy. In order to assess downside protection, the Adviser endeavors to undertake a careful evaluation of credit risk, legal risk and liquidity risk, as understanding these risks in particular is a crucial element of the Adviser's due diligence with respect to each investment opportunity. The Adviser believes that its portfolios can appropriately balance these risks with the potential reward by purchasing securities of companies at deep discounts to intrinsic enterprise value, thereby providing significant cushion from a loan-to-value perspective; by properly understanding, as part of the Adviser's due diligence process, the relevant legal

aspects of a bond indenture or loan document with a focus on downside or bankruptcy scenarios and by managing liquidity in the portfolio by limiting the number and size of positions considered by the Adviser to be less liquid in nature.

The Fund may borrow to the extent permitted by the Investment Company Act of 1940, as amended ("1940 Act"). At times, the Fund may be required to segregate or earmark certain assets determined to be liquid by the investment adviser (generally, short-term investment grade fixed income securities) to cover borrowings.

The investments and strategies discussed above are those that the investment adviser will use under normal market conditions. The Fund also may use other strategies and engage in other investment practices, which are described in the Fund's SAI.

In anticipation of or in response to adverse market or other conditions or atypical circumstances such as unusually large cash inflows or redemptions, the Fund may temporarily hold all or a portion of its assets in U.S. government securities, money market funds, cash or cash equivalents. The investment adviser will determine when market conditions warrant temporary defensive measures. Under such conditions, the Fund may not invest in accordance with its investment objective or principal investment strategy and may not achieve its investment objective.

PRINCIPAL RISKS

There are inherent risks associated with the Fund's principal investment strategies. The factors that are most likely to have a material effect on the Fund's investment portfolio as a whole are called "principal risks." The principal risks of the Fund are summarized in the Fund's "Summary Section" above and further described below. The Fund may be subject to additional risks other than those described because, among other reasons, the types of investments made by the Fund may change over time. For additional information regarding risks of investing in the Fund, please see the SAI. It is important to read all the disclosure information provided and to understand that you may lose money by investing in the Fund.

High Yield Securities Risk: High yield securities (also known as junk bonds) are generally considered riskier than investment grade, fixed income securities. The total return and yield of high yield securities can be expected to fluctuate more than the total return and yield of higher quality securities. High yield securities are regarded as predominantly speculative with respect to the issuer's continuing ability to meet principal and interest payments. Successful investment in high yield securities involves greater investment risk and is highly dependent on the Adviser's credit analysis and market analysis.

Credit Risk: The risk that the issuer of a security, or the counterparty to a contract, will default or otherwise become unable to honor a financial obligation (such as the payment of interest or principal on a debt security). Certain U.S. government agency securities are backed by the right of the issuer to borrow from the U.S. Treasury, while others, such as securities issued by the Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Federal National Mortgage Association and Federal Home Loan Bank, are supported only by the issuer's right to borrow from the U.S. Treasury, by the discretionary authority of the U.S. government to purchase the issuer's obligations, or by the issuer's own credit. However, the Fund will invest in the securities of such issuers only when the Adviser believes that the credit risk is minimal.

Debt Securities Risk: Debt securities in which the Fund invests are subject to several types of investment risk, including market or interest rate risk (i.e., the risk that their value will be inversely affected by fluctuations in the prevailing interest rates), credit risk (i.e., the risk that the issuer may be unable to make timely interest payments and repay the principal upon maturity), call or income risk, (i.e., the risk that certain debt securities with high interest rates will be prepaid or "called" by the issuer before they mature), and event risk (i.e., the risk that certain debt securities may suffer a substantial decline in credit quality and market value if the issuer restructures). Fixed income markets have recently experienced a period of relatively high volatility. If the Federal Reserve continues to increase interest rates, fixed income markets (and the high yield market in particular) could experience continuing high volatility, which could negatively impact the Fund's performance. A projection of an economic downturn or of a period rising interest rates, for example, could cause a decline in high yield bond prices because the advent of a recession could lessen the ability of a highly leveraged company to make principal and interest payment on its debt securities.

Bank Loan Risk: The Fund's investment in secured and unsecured assignments of (or participations in) bank loans may create substantial risk. In making investments in bank loans, which are made by banks or other financial intermediaries to borrowers, the Fund will depend primarily upon the creditworthiness of the borrower for payment of principal and interest. In addition, the settlement of bank loans occurs on an extended (multi-week) basis, which may prevent the Fund from obtaining liquidity of certain assets within a desired timeframe. In addition, there is the potential that bank loans and other similar instruments may not be considered "securities" and, as a result, the Fund may not be entitled to rely on the anti-fraud protections under the federal securities laws and instead may have to resort to state law and direct claims.

Bankruptcy and Restructuring Risk: The Fund may target securities and other obligations of issuers that are in financial difficulty and/or may be in, entering, or emerging from bankruptcy proceedings. Bankruptcy or other insolvency proceedings are highly complex and may result in unpredictable outcomes. In any investment opportunity involving work-outs, liquidations, spin-offs, reorganizations, bankruptcies and similar transactions, there exists the risk that the contemplated transaction may be unsuccessful. Similarly, if an anticipated transaction does not in fact occur, the Fund may be required to sell the investment at a loss. The level of analytical sophistication, both financial and legal, necessary for successful investment in companies experiencing significant business and financial difficulties is unusually high. Because there is a substantial uncertainty concerning the outcome of transactions involving financially troubled companies in which the Fund may invest, there is a potential risk of loss of the entire investment in such companies, as well as the risk that the Fund may be required to accept cash or new securities with a value less than the Fund's original investment and/or may be required to accept payment over an extended period of time. Under such circumstances, the returns generated from the Fund's investments may not compensate it adequately for the risks assumed.

Canadian Securities Risk: The Fund may invest in, and/or have exposure to, Canadian securities. The Canadian economy may be significantly affected by the U.S. economy because the U.S. is Canada's largest trading partner and foreign investor. Canada's largest exports are its natural resources, so the Canadian economy is dependent on the demand for, and supply and price of, natural resources, and any market developments that reduce the price of such goods could disproportionately affect the Canadian economy.

Cash Positions: The Fund may not always stay fully invested. For example, when the Adviser believes that market conditions are unfavorable for profitable investing or when it is otherwise unable to locate attractive investment opportunities, the Fund's cash or similar investments may increase. In other words, cash or similar investments generally are a residual – they represent the assets that remain after the Fund has committed available assets to desirable investment opportunities. When the Fund's investments in cash or similar investments increase, it may not participate in market advances to the same extent that it would if the Fund remained more fully invested, and the Fund's ability to achieve its investment objective may be affected.

Convertible Bond Risk: Convertible bonds are hybrid securities that have characteristics of both bonds and common stocks and are therefore subject to both debt securities risk and equity securities risk. Convertible bonds are subject to equity securities risk especially when their

conversion value is greater than the interest and principal value of the bond. The prices of equity securities may rise or fall because of economic or political changes and may decline over short or extended periods of time.

Equity Securities Risk: Markets are volatile. The price of equity securities fluctuates based on changes in a company's financial condition, historical and prospective earnings of the company, interest rates, investor perceptions and overall market and economic conditions. Market performance and economic factors may adversely affect securities markets generally, which could in turn adversely affect the value of the Fund's investments, regardless of the performance or expected performance of companies in which the Fund invests. Holders of common stock generally are subject to more risks than holders of preferred stock or debt securities because the right to repayment of common stockholders' claims is subordinated to that of preferred stock and debt securities upon the bankruptcy of the issuer.

Interest Rate Risk: The risk of market losses attributable to changes in interest rates. With fixed rate securities, a rise in interest rates typically causes a fall in values. The yield earned by the Fund will vary with changes in interest rates. The longer the average maturity of the Fund's investment portfolio, the greater the fluctuation in value. Duration is a measure of the expected life of a debt security that is used to determine the sensitivity of the security's price to changes in interest rates. Generally, the longer the Fund's duration, the more sensitive the Fund will be to changes in interest rates. For example, the price of a fixed income fund with a duration of five years would be expected to fall approximately 5% if interest rates rose by 1%.

Foreign Securities Risk: Foreign (non-U.S.) securities may experience more rapid and extreme changes in value than investments in securities of U.S. companies, due to less liquid securities and markets, and adverse economic, political, diplomatic, financial, and regulatory factors. In addition, there may be fewer investors on foreign exchanges and a smaller number of securities traded each day, making it more difficult for an account to buy and sell securities on those exchanges. Foreign governments also may impose limits on investment and repatriation and impose taxes. Income from foreign issuers may be subject to non-U.S. withholding taxes. In some countries, investor accounts also may be subject to taxes on trading profits and, on certain securities transactions, transfer or stamp duties tax. Settlement and clearance procedures in certain foreign markets differ significantly from those in the U.S. and may involve certain risks (such as delays on payment for or delivery of securities) not typically associated with the settlement of U.S. investments. Foreign companies generally are not subject to uniform accounting, auditing and financial reporting standards or to other regulatory

requirements that apply to U.S. companies. As a result, less information may be available concerning non-U.S. issuers. Accounting and financial reporting standards in emerging markets may be especially lacking. Further, it is often more expensive to trade securities in foreign markets as commissions are generally higher than in the U.S., and foreign exchanges and investment professionals are subject to less governmental regulation than in the U.S. Any of these events could cause the value of the foreign securities in which the Fund invests to decline. Governmental economic policies, whether in the form of tariffs or the imposition or threat of other measures, that would have a restrictive effect on global trade could negatively impact foreign companies. The impact of such policies could be more significant for smaller foreign companies operating in emerging economies that may be more susceptible to adverse economic conditions, which in turn could have a commensurately negative impact on the Fund. The Fund's investment in foreign securities may be subject to foreign withholding and other taxes, and to the extent that is the case, the Fund's return on such investments will be decreased.

Liquidity Risk: The risk that certain securities may be difficult or impossible to sell at the time and the price that the seller would like. The seller may have to lower the price, sell other securities instead or forego an investment opportunity, any of which could have a negative effect on Fund management or performance.

Management Risk: As with any managed fund, the Adviser may not be successful in selecting the best performing securities or investment techniques, and the Fund's performance may lag behind that of similar funds. The Adviser may also miss out on an investment opportunity because the assets necessary to take advantage of the opportunity are tied up in less advantageous investments.

Market Risk: The market values of, and/or the income generated by, securities held by the Fund may decline due to factors that are specifically related to a particular company, as well as general market conditions, such as real or perceived adverse economic or political conditions, inflation rates and/or investor expectations concerning such rates, changes in interest rates, or adverse investor sentiment generally. Securities markets are volatile and may decline significantly in response to adverse issuer, regulatory, political, or economic developments. Different sectors of the market and different security types may react differently to such developments. Geopolitical events, including terrorism, tensions or open conflict between nations, or political or economic dysfunction within some nations that are global economic powers, may lead to instability in world economies and markets, may lead to increased market volatility, and may have adverse long-term effects. Events such as environmental and

natural disasters, public health crises (such as epidemics and pandemics), social unrest, and cybersecurity incidents, and governments' reactions to such events, could cause uncertainty in the markets and may adversely affect the performance of the global economy.

Preferred Stock Risk: Preferred stock is a class of a capital stock that typically pays dividends at a specified rate. Preferred stock is generally senior to common stock, but subordinate to debt securities, with respect to the payment of dividends and on liquidation of the issuer. The market value of preferred stock generally decreases when interest rates rise and is also affected by the issuer's ability to make payments on the preferred stock.

Prepayment Risk: The risk that a debt security may be paid off and proceeds invested earlier than anticipated. Depending on market conditions, the new investments may or may not carry the same interest rate.

Private Placement Risk: Private placements involve securities not registered under the 1933 Act. In addition to the general risks associated with fixed income securities, such securities (including "144A" securities) may be subject to restrictions on resale, transaction costs for such securities may be higher than comparable securities, and there may be no liquid secondary market for such securities.

Rule 144A Securities Risk: The market for certain Rule 144A securities can be less active than the market for publicly-traded securities. Certain Rule 144A securities carry a heightened risk that the liquidity of these securities may become impaired, making it more difficult for the Fund to sell these bonds at reasonable prices.

Small- and Mid-Cap Risk: The Fund's investment approach is focused on identifying attractive securities issued by "middle market" companies. However, the securities of smaller and mid-size companies tend to be more volatile and less liquid than securities of larger companies. This can adversely affect the prices at which the Fund can purchase and sell these securities, and thus the value of the Fund's shares.

Valuation Risk: Unlike publicly-traded common stock, which trades on national exchanges, there is no central exchange for fixed-income securities, including bank loans, to trade. Such fixed-income securities generally trade on an "over-the-counter" market, where the buyer and seller can settle on a price. Due to the lack of centralized information and trading, the valuation of fixed-income securities, particularly in the lower tier of the high yield market where there are fewer market makers, may carry more risk than that of publicly-traded common stocks. Uncertainties in the conditions of the financial market, unreliable reference data, lack of transparency

and inconsistency of valuation models and processes may lead to inaccurate asset pricing by third-party pricing vendors. Moreover, to the extent that prices or quotations are not available from such third-party pricing vendors, or when the Adviser believes that they are unreliable, securities may be priced by the Fund using fair value procedures approved by the Fund's Board of Trustees. In addition, other market participants may value securities differently than the Fund. As a result, the Fund may be subject to the risk that when a fixed-income security is sold in the market, the amount received by the Fund is less than the value of such fixed-income security carried on the Fund's books.

OTHER RISKS

In addition to the principal risks described above, the Fund may also be subject to the following additional risks.

Cyber Security Risk: As part of its business, the Adviser processes, stores and transmits large amounts of electronic information, including information relating to the transactions of the Fund. The Adviser and the Fund may be susceptible to operational and information security risk. Cyber security failures or breaches of the Adviser or the Fund's other service providers have the ability to cause disruptions and impact business operations, potentially resulting in financial losses, the inability of the Fund's shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties and/or reputational damage. The Fund and its shareholders could be negatively impacted as a result.

Other Investment Company Risk: The Fund may invest in investment companies that are corporations, trusts, or partnerships that invest pooled shareholder dollars in securities appropriate to the organization's objective. Mutual funds, closed-end funds, unit investment trusts and ETFs are examples of investment companies. By investing in another investment company, the Fund will indirectly bear any asset-based fees and expenses charged by the underlying investment company in which the Fund invests. Investments in securities of other investment companies are subject to statutory limitations prescribed by the 1940 Act. Absent an available exemption, the Fund may not: (i) acquire more than 3% of the voting securities of any other investment company; (ii) invest more than 5% of its total assets in securities of any one investment company; or (iii) invest more than 10% of its total assets in securities of all investment companies.

Leverage Risk: The use of leverage by the Fund, such as borrowing money to purchase securities or the use of options, will cause the Fund to incur additional expenses and magnify the Fund's gains or losses. The Fund intends to generally use leverage, if any, to meet Fund redemptions.

Portfolio Turnover Risk: The Fund may engage in short-term trading to try and achieve its investment objective, and accordingly may have portfolio turnover rates in excess of 100%. A portfolio turnover rate of 100% is equivalent to a fund buying and selling all of the securities in its portfolio once during the course of a year. How long the Fund holds a security in its portfolio is generally not a factor in making buy and sell decisions. Increased portfolio turnover may cause the Fund to incur higher brokerage costs, which may adversely affect the Fund's performance and may produce increased taxable distributions. In the fixed income market, brokerage commissions are built directly into the applicable bid-ask spread. Distributions resulting from short-term trading may be taxed to shareholders at ordinary income rates.

Disclosure of Portfolio Holdings

A description of the Fund's policies and procedures with respect to the disclosure of its portfolio securities is available in the Fund's SAI, which is available, free of charge, by calling Shareholder Services toll-free at (888) 678-6024 and on the Fund's website at <https://www.polencapital.com/strategies/us-opportunistic-high-yield-fund>. The SAI may also be viewed or downloaded, free of charge, from the EDGAR database on the Securities and Exchange Commission's ("SEC") website at www.sec.gov.

MORE INFORMATION ABOUT MANAGEMENT OF THE FUND

The Trust's Board of Trustees supervises the management, activities and affairs of the Fund and has approved contracts with various organizations to provide, among other services, the day-to-day management required by the Fund and its shareholders.

INVESTMENT ADVISER

Polen Capital Credit, LLC ("Polen Credit" or the "Adviser") is a registered investment adviser headquartered at 1075 Main Street, Suite 320, Waltham, Massachusetts 02451. Polen Credit was founded in 1996 as DDJ Capital Management, LLC and, in addition to serving as the investment adviser to the Fund, provides portfolio management services to individuals, pension and profit sharing plans, other pooled investment vehicles, charitable organizations, state or municipal government agencies and other businesses. As of June 30, 2024, Polen Credit had approximately \$7.6 billion in assets under management. On January 31, 2022, Polen Capital Management, LLC ("Polen Capital"), an investment adviser registered with the SEC, acquired 100% of the outstanding equity units of Polen Credit. Accordingly, as of such date, Polen Credit became a wholly-owned subsidiary of Polen Capital.

Polen Credit, subject to the general oversight of the Trust's Board of Trustees, has overall responsibility for directing the investments of the Fund in accordance with their investment objectives, policies and limitations. For its services as Adviser to the Fund, Polen Credit is entitled to receive an investment advisory fee of 0.70% of the average daily net assets of the Fund. For the fiscal year ended April 30, 2024, after fee waiver and expense reimbursements, the Adviser received an aggregate investment advisory fee of 0.66% of the Fund's average net assets.

A discussion of the basis for the Board of Trustees' approval of the investment management agreement between Polen Credit and the Trust, on behalf of the Fund is available in the Fund's annual report to shareholders for the period ended September 30, 2023.

PORTFOLIO MANAGERS

David J. Breazzano, Head of Team for Credit and Portfolio Manager, is a co-founder of Polen Credit (formerly DDJ Capital Management, LLC) and has more than 43 years of experience in high yield, distressed, and special situations investing. Mr. Breazzano provides general oversight of Polen Credit's entire investment portfolio. In addition, Mr. Breazzano also presently serves as a co-portfolio manager for Polen Credit's U.S. Opportunistic

High Yield and U.S. High Yield strategies. He chairs Polen Credit's Investment Review Committee, and he also sits on the Operating Committee of Polen Capital (the parent company to Polen Credit). Prior to forming Polen Credit, from 1990 to 1996, he was a vice president and portfolio manager in the High Income group at Fidelity Investments, where he directed the investment management of high yield and distressed assets. Mr. Breazzano earned his BA from Union College and an MBA from Cornell University. Mr. Breazzano serves on the Boards of Trustees of both Union College and Cornell University.

Benjamin J. Santonelli, Portfolio Manager, joined Polen Credit (formerly DDJ Capital Management, LLC) in 2004 and has more than 19 years of experience in sourcing, analyzing, and managing investments across a variety of industries. Mr. Santonelli serves as co-portfolio manager of Polen Credit's U.S. Opportunistic High Yield strategy, portfolio manager of its Credit Opportunities strategy, and assistant portfolio manager of its Bank Loan strategy. He is also a member of Polen Credit's Investment Review Committee. Mr. Santonelli serves as a member of the board of directors of a portfolio company held by certain funds and accounts managed by Polen Credit. Mr. Santonelli received his BA from Amherst College.

John W. Sherman, Portfolio Manager, joined Polen Credit (formerly DDJ Capital Management, LLC) in 2007 and has more than 19 years of corporate finance and investment experience. Mr. Sherman serves as co-portfolio manager of Polen Credit's U.S. Opportunistic High Yield strategy, portfolio manager of its Bank Loan strategy, and assistant portfolio manager of its Credit Opportunities strategy. He is also a member of Polen Credit's Investment Review Committee. Prior to joining Polen Credit, Mr. Sherman was an associate in the Healthcare Group at Thoma Cressey Equity Partners, focusing on private equity investments in middle-market companies. Prior to joining Thoma Cressey Equity Partners, Mr. Sherman was in the Investment Banking Division of Citigroup where he was an analyst in the Global Healthcare Group. Mr. Sherman serves as a member of the board of directors of a portfolio company held by certain funds and accounts managed by Polen Credit. Mr. Sherman graduated *magna cum laude* with a BBA from the University of Notre Dame.

The Fund's SAI provides additional information about each Portfolio Manager's compensation, other accounts managed by each Portfolio Manager and each Portfolio Manager's ownership of Fund shares.

SHAREHOLDER INFORMATION

PRICING OF SHARES

The price of the Fund's shares is based on its NAV. The Fund values its assets, based on current market values when such values are available. The NAV per share of the Fund is calculated as follows:

$$\text{NAV} = \frac{\text{Value of Assets Attributable to the Shares} - \text{Value of Liabilities Attributable to the Shares}}{\text{Number of Outstanding Shares}}$$

The Fund's NAV per share is calculated once daily as of the close of regular trading on the Exchange (typically 4:00 p.m., Eastern time) on each business day (i.e., a day that the Exchange is open for business). The Exchange is generally open on Monday through Friday, except national holidays. The price at which a purchase, redemption or exchange is effected is based on the next calculation of NAV after the order is received in good form by an authorized financial institution or the transfer agent, plus any applicable sales charges.

The Fund's equity securities listed on any national or foreign exchange market system will be valued at the last sale price. Equity securities traded in the over-the-counter market are valued at their closing sale or official closing price. If there were no transactions on that day, securities traded principally on an exchange will be valued at the mean of the last bid and ask prices prior to the market close. Prices for equity securities normally are supplied by an independent pricing service approved by the Board of Trustees. The valuations of securities that trade principally on a foreign market that closes before the time as of which a Fund calculates its NAV will generally be based on an adjusted fair value price furnished by an independent pricing service as of the time NAV is calculated.

The Fund's fixed income securities are valued based on market quotations, which are furnished by an independent pricing service. Certain fixed income securities may be valued based upon appraisals received from a pricing service using a computerized matrix system or based upon appraisals derived from information concerning the security or similar securities received from a recognized dealer or dealers in those securities. The amortized cost method of valuation may be used to value fixed income securities with 60 days or less remaining until maturity, so long as such amortized cost method approximates fair value. Any assets held by the Fund that are denominated in foreign currencies are valued daily in U.S. dollars at the foreign currency exchange rates that are prevailing at the time that the Fund determines the daily NAV per share. Foreign securities may trade on weekends or other days when the Fund does not calculate NAV. As a result, the market value of these investments may change on days when you cannot buy or sell shares of the Fund. Investments in any mutual fund are valued at their respective NAVs as determined by those mutual funds each business day (which may use fair value pricing as disclosed in their prospectuses).

Securities that do not have a readily available current market value are valued in good faith by the Adviser as "valuation designee" under the oversight of the Trust's Board of Trustees. The Adviser has adopted written policies and procedures for valuing securities and other assets in circumstances where market quotes are not readily available. In the event that market quotes are not readily available, and the security or asset cannot be valued pursuant to one of the aforementioned valuation methods, the value of the security or asset will be determined in good faith by the Adviser pursuant to its policies and procedures. On a quarterly basis, the Adviser's fair valuation determinations will be reviewed by the Trust's Board of Trustees. The Adviser's policy is intended to result in a calculation of the Fund's NAV that fairly reflects security or asset values as of the time of pricing. However, fair values for a security or asset determined pursuant to the Adviser's policies and procedures may not accurately reflect the price that the Fund could obtain if it were to dispose of that security or asset as of the time of pricing.

Market quotes are considered not readily available in circumstances where there is an absence of current or reliable market-based data (e.g., trade information, bid/asked information, broker quotes), including where events occur after the close of the relevant market, but prior to the close of the Exchange, that materially affect the values of the Fund's securities or assets. In addition, market quotes are considered not readily available when, due to extraordinary circumstances, an exchange or market on which a security trades does not open for trading for the entire day and no other market prices are available. The Adviser as valuation designee will monitor for significant events that may materially affect the values of the Fund's securities or assets and for determining whether the value of the applicable securities or assets should be re-evaluated in light of such significant events.

PURCHASE OF SHARES

Share Classes

The Trust offers Investor Class shares, Institutional Class shares and Class Y shares of the Fund. Each Class of shares has different expenses and distribution arrangements to provide for different investment needs. This allows you to choose the class of shares most suitable for you depending on the amount and expected length of your investment and other relevant factors. Sales personnel may receive different compensation for selling each class of shares. Investor Class shares are for individuals, corporate investors and retirement plans. Institutional Class shares are available to individuals who can meet the required investment minimum and corporations or other institutions such as trusts, endowments, foundations or broker-dealers purchasing for the accounts of others. If you purchase Institutional Class shares through a financial intermediary, you may be charged a brokerage commission on shares transacted in, other transaction-based fees or other fees for the services of such organization. Class Y shares are available exclusively to institutional investors, including, but not limited to, charitable organizations, governmental institutions, corporations, and trust & private bank platforms. Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary. If you purchase Class Y shares through a financial intermediary, you may be charged a transaction-based fee or other fee for the services of such organization.

Investor Class	Institutional Class	Class Y
No initial sales charge	No initial sales charge	No initial sales charge
Higher annual expenses than Institutional Class shares due to distribution fee	Lower annual expenses than Investor Class shares due to no distribution fee	Lower annual expenses than Investor Class shares and Institutional Class shares due to no distribution fees and other expenses

Shares representing interests in the Fund are offered on a continuous basis by the Fund's principal underwriter, Foreside Funds Distributors LLC, a wholly owned subsidiary of Foreside Financial Group, LLC (d/b/a ACA Group) (the "Underwriter"). Shares of the Fund do not charge any sales loads or deferred sales loads in connection with the purchase of shares. Shares of the Fund are offered only to residents of states in which the shares are registered or qualified. You can purchase Investor Class and Institutional Class shares of the Fund through certain financial intermediaries who may charge you a commission, or directly through BNY Mellon Investment Servicing, the Fund's transfer agent, as discussed below. No share certificates are issued in connection with the purchase of Fund shares. The Fund reserves the right to waive the minimum initial investment requirement for any investor.

In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be redeemed by the Trust unless you make arrangements to (a) transfer your Fund's shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund's transfer agent by following the instructions under "To Open An Account." To open an account directly with the Fund, you must meet the minimum initial investment amount or, if available, exchange your shares for shares of another class in which you are eligible to invest.

In the event you modify or change your relationship with your financial intermediary through which you invest in the Fund (for instance, from an advisory relationship to a brokerage relationship) you may no longer be eligible to invest in a particular share class and your financial intermediary may exchange your shares for another share class which may be subject to higher expenses and Rule 12b-1 distribution fees.

In addition, the availability of certain classes of shares may be limited to certain intermediary platforms, which means that your eligibility to purchase a specific class of Fund shares may depend on whether your intermediary offers that class.

The Trust is not responsible for any loss in an investor's account or tax liability resulting from an involuntary redemption.

Investor Class Shares

Distribution Plan

The Trust's Board of Trustees, on behalf of the Fund's Investor Class shares, has adopted a plan pursuant to Rule 12b-1 under the 1940 Act that allows the Fund to pay distribution and service fees for the sale and distribution of its shares and for services provided to its shareholders. Because these fees are paid out of the Fund's assets on an ongoing basis, over time, these fees will increase the cost of your investment and may cost more than paying other types of sales charges. The distribution plan for Investor Class shares provides for payments of up to 0.25% of the average daily net assets of the Fund's Investor Class shares.

Institutional Class Shares

Sales of the Fund's Institutional Class shares are not subject to a Rule 12b-1 fee. Institutional Class shares are available to individuals who can meet the required investment minimum and corporations or other institutions such as trusts, endowments, foundations or broker dealers purchasing for the accounts of others. If you purchase Institutional Class shares through an institutional organization, or a financial intermediary, you may be charged a brokerage commission on shares transacted in, other transaction-based fees or other fees for the services of such organization.

Class Y Shares

Sales of the Fund's Class Y shares are not subject to a Rule 12b-1 fee. Class Y shares are available exclusively to institutional investors, including, but not limited to, charitable organizations, governmental institutions, corporations, and trust & private bank platforms. Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary. If you purchase Class Y shares through a financial intermediary, you may be charged a transaction-based fee or other fee for the services of such organization.

TO OPEN AN ACCOUNT

By Mail

Complete the application and mail it to BNY Mellon Investment Servicing (US) Inc. ("BNY Mellon Investment Servicing") at the address noted below, together with a check payable to the Fund. **Please make sure your check is for at least \$3,000 with respect to Investor Class shares (\$2,000 if investing in an IRA) and at least \$100,000 with respect to Institutional Class shares.** Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or authorized financial intermediary. Mail the application and your check to:

500 Ross Street, 154-0520
Pittsburgh, PA 15262
(888) 678-6024

The Fund will only accept checks drawn on U.S. currency on domestic banks. The Fund will not accept any of the following: cash or cash equivalents, money orders, traveler's checks, cashier's checks, bank checks, official checks and treasurer's checks, payable through checks, third-party checks and third-party transactions.

While the Fund does not generally accept foreign investors, it may in instances where either (i) an intermediary makes shares of the Fund available or (ii) the transfer agent, in the case of a direct to Fund subscription, has satisfied its internal procedures with respect to the establishment of foreign investor accounts. Please contact Shareholder Services toll-free at (888) 678-6024 for more information.

The USA PATRIOT Act requires financial institutions, including the Fund, to adopt certain policies and programs to prevent money-laundering activities, including procedures to verify the identity of customers opening new accounts. As requested on the application, you must supply your full name, date of birth, social security number, and permanent street address. If you are opening the account in the name of a legal entity (e.g., partnership, limited liability company, business trust, corporation, etc.), you must also supply the identity of the beneficial owners. This information will assist the Fund in verifying your identity. Until such verification is made, the Fund may temporarily limit additional share purchases. In addition, the Fund may limit additional share purchases or close an account if it is unable to verify a shareholder's identity. As required by law, the Fund may employ various procedures, such as comparing the information to fraud databases or requesting additional information or documentation from you, to ensure that the information supplied by you is correct.

By Wire

To make a same-day wire investment, call Shareholder Services toll-free at (888) 678-6024 before 4:00 p.m. Eastern time for current wire instructions. An account number will be assigned to you. **Please make sure your wire is for at least \$3,000 with respect to Investor Class shares (\$2,000 if investing in an IRA) and at least \$100,000 with respect to Institutional Class shares.** Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary. Your wire must be received by the stock market close, typically 4:00 p.m. Eastern time, to receive that day's price per share. Your bank may charge a wire fee.

Individual Retirement Account and Education Savings Account Investments

You may invest in the Fund through the following individual retirement accounts:

- Traditional Individual Retirement Accounts ("IRAs")
- Savings Incentive Match Plan for Employees ("SIMPLE IRAs")
- Spousal IRAs
- Roth Individual Retirement Accounts ("Roth IRAs")
- Simplified Employee Pension Plans ("SEP IRAs")
- Coverdell Education Savings Accounts ("CESAs")

Additional Information

If you have questions regarding the purchase of Fund shares, call Shareholder Services toll-free at (888) 678-6024 before 4:00 p.m. Eastern time.

TO ADD TO AN ACCOUNT

By Mail

Fill out an investment slip from a previous confirmation and write your account number on your check. **Please make sure that your check is payable to the Fund and that your additional investment is for at least \$100 with respect to Investor Class shares.** There is no minimum additional investment with respect to Institutional Class shares. Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary. Mail the slip and your check to:

Regular Mail:

Polen Opportunistic High Yield Fund

Attention: 534445
500 Ross Street, 154-0520
Pittsburgh, PA 15262
(888) 678-6024

By Wire

Call Shareholder Services toll-free at (888) 678-6024 for current wire instructions. The wire must be received by the stock market close, typically 4:00 p.m. Eastern time, for same day processing. Your bank may charge a wire fee. **Please make sure your wire is for at least \$100 with respect to Investor Class shares.** There is no minimum additional investment with respect to Institutional Class shares. Individual investors cannot invest directly in Class Y shares other than through a trust, private bank platform or other authorized financial intermediary.

Automatic Investment Plan

You may open an automatic investment plan account for Investor Class shares with a \$2,000 initial purchase and a \$100.00 monthly investment and for Institutional Class shares with a \$100,000 initial purchase and no minimum monthly investment. If you have an existing account that does not include the automatic investment plan, you can contact the Fund toll-free at (888) 678-6024 to establish an automatic investment plan. The automatic investment plan provides

a convenient method to have monies deducted directly from your bank account for investment in the Fund. You may authorize the automatic withdrawal of funds from your bank account for a monthly minimum amount of \$100.00. The Fund may alter, modify or terminate this plan at any time. To begin participating in this plan, please complete the "Automatic Investment Plan" section found on the application or contact the Fund's transfer agent toll-free at (888) 678-6024.

Automated Clearing House (ACH) Purchase

Current shareholders may purchase additional shares via Automated Clearing House ("ACH"). To have this option added to your account, please send a letter to the Fund requesting this option and supply a voided check for the bank account. Only bank accounts held at domestic institutions that are ACH members may be used for these transactions.

You may not use ACH transactions for your initial purchase of Fund shares. ACH purchases will be effective at the closing price per share on the same business day for orders placed prior to 4:00 p.m. Eastern time. Orders placed thereafter will be effective at the closing price per share on the next business day. The Fund may alter, modify or terminate this purchase option at any time.

Shares purchased by ACH will not be available for redemption until the transactions have cleared. Shares purchased via ACH transfer may take up to 15 days to clear.

Purchase Price

Purchase orders received in good order by the Fund's transfer agent before the close of regular trading on the Exchange on any business day will be priced at the NAV that is determined as of the close of trading on the Exchange. Purchase orders received in good order after the close of regular trading on the Exchange will be priced as of the close of regular trading on the following business day. "Good Order" means that the purchase request is complete and includes all accurate required information. Purchase requests not in good order may be rejected.

Financial Intermediaries

You may purchase shares of the Fund through a financial intermediary who may charge you a commission on your purchase, may charge additional fees, and may require different minimum investments or impose other limitations on buying and selling shares. "Financial intermediaries" include brokers, dealers, banks (including bank trust departments), insurance companies, investment advisers, financial advisers, financial planners, retirement or 401(k) plan administrators, their designated intermediaries and any other firm having a selling, administration or similar agreement. The financial intermediary is responsible for transmitting orders by close of business and may have an earlier cut-off time for purchase and sale requests. Purchase and redemption orders placed through a financial intermediary will be deemed to have been received and accepted by the Fund when the financial intermediary accepts the order. It is the responsibility of the financial intermediary or nominee to promptly forward purchase or redemption orders and payments to the Fund. Customer orders are required to be priced at the Fund's NAV next computed after the authorized financial intermediary or its authorized representatives' receipt of the order to buy or sell. Purchase and redemption requests sent to such authorized broker (or its designee) are executed at the NAV next determined after the intermediary receives the request if transmitted to the Fund's transfer agent in accordance with the Fund's procedures and applicable law. Financial intermediaries may also designate other intermediaries to accept purchase and redemption orders on the Fund's behalf. Consult your investment representative for specific information.

It is the responsibility of the financial intermediary to transmit orders for the purchase of shares by its customers to the transfer agent and to deliver required funds on a timely basis, in accordance with the procedures stated above.

In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be subject to involuntary redemption unless you make arrangements to (a) transfer your Fund shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund's transfer agent by following the instructions under "To Open An Account."

Networking and Sub-Transfer Agency Fees. The Fund may also directly enter into agreements with financial intermediaries pursuant to which it will pay the financial intermediary for services such as networking or sub-transfer agency, including the maintenance of "street name" or omnibus accounts and related sub-accounting, record-keeping and administrative services provided to such accounts. Payments made pursuant to such agreements are generally based on either (1) a percentage of the average daily net assets of clients serviced by such financial intermediary or (2) the number of accounts serviced by such financial intermediary. Any payments made pursuant to such agreements

are in addition to, rather than in lieu of, Rule 12b-1 distribution or shareholder service fees the financial intermediary may also be receiving. From time to time, the Adviser or its affiliates may pay a portion of the fees for networking or sub-transfer agency at its or their own expense and out of its or their own resources. These payments may be material to financial intermediaries relative to other compensation paid by the Fund and/or the Underwriter, the Adviser and their affiliates. The payments described above may differ and may vary from amounts paid to the Fund's transfer agent for providing similar services to other accounts. The financial intermediaries are not audited by the Fund, the Adviser or their service providers to determine whether such intermediaries are providing the services for which they are receiving such payments.

Additional Compensation to Financial Intermediaries. The Adviser, and, from time to time, affiliates of the Adviser may also, at their own expense and out of their own resources, provide additional cash payments to financial intermediaries who sell shares of the Fund. These additional cash payments are payments over and above sales commissions or reallowances, distribution fees or servicing fees (including networking, administration and sub-transfer agency fees) payable to a financial intermediary which are disclosed elsewhere in this Prospectus. These additional cash payments are generally made to financial intermediaries that provide sub-accounting, sub-transfer agency, shareholder or administrative services or marketing support. Marketing support may include: (i) access to sales meetings or conferences, sales representatives and financial intermediary management representatives; (ii) inclusion of the Fund on a sales list, including a preferred or select sales list, or other sales programs to which financial intermediaries provide more marketing support than to other sales programs on which the Adviser or its affiliates may not need to make additional cash payments to be included; (iii) promotion of the sale of the Fund's shares in communications with a financial intermediaries' customers, sales representatives or management representatives; and/or (iv) other specified services intended to assist in the distribution and marketing of the Fund's shares. These additional cash payments also may be made as an expense reimbursement in cases where the financial intermediary provides shareholder services to Fund shareholders. The Adviser and its affiliates may also pay cash compensation in the form of finders' fees or referral fees that vary depending on the dollar amount of shares sold.

The amount and value of additional cash payments vary for each financial intermediary. The additional cash payment arrangement between a particular financial intermediary and the Adviser or its affiliates may provide for increased rates of compensation as the dollar value of the Fund's shares or particular class of shares sold or invested through such financial intermediary increases. The availability of these additional cash payments, the varying fee structure within a particular additional cash payment arrangement and the basis for and manner in which a financial intermediary compensates its sales representatives may create a financial incentive for a particular financial intermediary and its sales representatives to recommend the Fund's shares over the shares of other mutual funds based, at least in part, on the level of compensation paid. A financial intermediary and its sales representatives may have similar financial incentives to recommend a particular class of the Fund's shares over other classes of its shares. You should consult with your financial adviser and review carefully any disclosure by the financial firm as to compensation received by your financial adviser.

Although the Fund may use financial firms that sell the Fund's shares to effect portfolio transactions for the Fund, the Fund and the Adviser will not consider the sale of Fund shares as a factor when choosing financial firms to effect those transactions.

For more information about these additional cash payments made to financial intermediaries, please refer to the section entitled "Additional Compensation to Financial Intermediaries" located in the SAI.

Rights Reserved by the Fund

The Fund reserves the right to:

- reject any purchase order;
- suspend the offering of shares;
- vary the initial and subsequent investment minimums;
- waive the minimum investment requirement for any investor;
- redeem accounts with balances below the minimum account size after 30 days' written notice;
- redeem your shares in the event your financial intermediary's relationship with the Trust is modified or terminated;

- subject to applicable law, redeem your shares in other circumstances determined by the Board of Trustees to be in the best interest of the Fund; and
- redeem your shares if you hold your shares through a financial intermediary and you propose to transfer your shares to another financial intermediary that does not have a relationship with the Trust.

The Trust will not be responsible for any loss in an investor's account or tax liability resulting from an involuntary redemption.

Market Timing and Frequent Trading Policy

The Fund discourages frequent purchases and redemptions, and the Trust's Board of Trustees has adopted policies and procedures consistent with such position. The Fund is not designed to accommodate market timing or short-term trading. Frequent or excessive trades into or out of the Fund in an effort to anticipate changes in market prices of its investment portfolio is generally referred to as "market timing." Market timing can adversely impact the ability of the Adviser to invest assets in an orderly manner, which in turn may adversely impact the expenses and the performance of the Fund. These expenses are borne by all Fund shareholders, including long-term investors who do not generate such costs. Specifically, frequent trading may result in the Fund engaging in activities to a greater extent than it otherwise would, such as maintaining higher cash balances, using a line of credit and trading in portfolio securities, each of which may increase expenses and decrease performance. This occurs when market timers attempt to trade Fund shares when the NAV of the Fund does not reflect the value of the underlying portfolio securities.

To deter market timing and to minimize harm to the Fund and its shareholders, the Fund (i) charges a redemption fee of 1.00% on shares redeemed within sixty (60) days of purchase and (ii) reserves the right to restrict, reject or cancel, without prior notice, any purchase order by market timers or by those persons the Fund believes are engaging in similar trading activity that, in the judgment of the Fund or the Adviser, may be disruptive to the Fund. The Fund will not be liable for any loss resulting from rejected purchase orders. No waivers of the provisions of this policy established to detect and deter market timing and other excessive trading activity are permitted that would harm the Fund and its shareholders or would subordinate the interests of the Fund and its shareholders to those of the Adviser or any affiliated person or associated person of the Adviser.

The Fund's Chief Compliance Officer ("CCO") reviews on an as-needed basis, as determined by the CCO in coordination with the Adviser and other service providers, available information related to the trading activity in the Fund in order to assess the likelihood that the Fund may be the target of market timing or similar trading practices. If, in its judgment, the Fund or the Adviser detects excessive, short-term trading, the Fund may reject or restrict a purchase request and may further seek to close an investor's account with the Fund. The Fund may modify its procedures from time to time without prior notice regarding the detection of excessive trading or to address specific circumstances. The Fund will apply its procedures in a manner that, in the Fund's judgment, will be uniform.

There is no guarantee that the Fund or its agents will be able to detect frequent trading activity or the shareholders engaged in such activity, or, if it is detected, to prevent its recurrence.

In order for a financial intermediary to purchase shares of the Fund for an "omnibus" account, in nominee name or on behalf of another person, the Trust will enter into shareholder information agreements with such financial intermediary or its agent. These agreements require each financial intermediary to provide the Fund access, upon request, to information about underlying shareholder transaction activity in these accounts and the Shareholder's Taxpayer Identification Number (or International Taxpayer Identification Number or other government issued identifier). If a shareholder information agreement has not been entered into by a financial intermediary, such financial intermediary will be prohibited from purchasing Fund shares for an "omnibus" account, in nominee name or on behalf of another person. If necessary, the Fund may prohibit additional purchases of Fund shares by a financial intermediary or by certain customers of the financial intermediary. Financial intermediaries may also monitor their customers' trading activities in the Fund. The criteria used by intermediaries to monitor for excessive trading may differ from the criteria used by the Fund. If a financial intermediary fails to enforce the Fund's excessive trading policies, the Fund may take certain actions, including terminating the relationship.

REDEMPTION OF SHARES

You may “redeem” or sell your shares on any day the Exchange is open, either directly through the Fund's transfer agent, BNY Mellon Investment Servicing, or through your broker-dealer. The price you receive will be the NAV next calculated after receipt of the request in good order. “Good Order” means that the redemption request is complete and includes all accurate required information including any medallion signature guarantees, if necessary. The Fund charges a redemption fee of 1.00% on proceeds of shares redeemed within 60 days following their acquisition (see “Redemption Fee”).

Redemption Fee

The Fund charges a redemption fee of 1.00% on proceeds of shares redeemed within 60 days following their acquisition. The redemption fee will be calculated as a percentage of the NAV of total redemption proceeds. Those shares held the longest will be treated as being redeemed first and the shares held shortest as being redeemed last. The fee will be paid directly to the Fund and is intended to offset the trading costs, market impact and other costs associated with short-term money movements in and out of the Fund. This redemption fee is not intended to accommodate short-term trading and the Fund will monitor the assessment of redemption fees against your account. The redemption fee may be waived either entirely or in part at the Adviser's discretion. Please see “Market Timing and Frequent Trading Policy” above.

The 1.00% redemption fee will not be charged on the following transactions:

1. Redemptions on shares held through retirement plans (including, without limitation, those maintained pursuant to Sections 401, 403, 408, 408A and 457 of the Internal Revenue Code of 1986, as amended (the “Code”) and nonqualified plans), unless the plan has the systematic capability of assessing the redemption fee at the participant or individual account level;
2. Redemptions requested following (a) the death of a shareholder or (b) the post-purchase “disability” or “hardship” (as such terms are defined by the Code or the rules and regulations thereunder) of the shareholder or as required by law (i.e., a divorce settlement) provided that such death, disability, hardship or other event (i.e., a divorce settlement) occurs after the shareholder's account was established with the Fund;
3. Redemptions initiated by the Fund (e.g., for failure to meet account minimums, to pay account fees funded by share redemptions, in the event of the liquidation of the Fund, if your financial intermediary modifies or terminates its relationship with the Fund);
4. Shares acquired through the reinvestment of distributions (dividends and capital gains);
5. Redemptions in omnibus accounts where redemptions cannot be tracked to the individual shareholder;
6. Redemptions in connection with periodic or automatic portfolio rebalancing arrangements of certain wrap accounts or funds of funds; and
7. Exchange requests submitted by written request to the Fund.

Redemption Policies

Payment for redemptions of Fund shares is usually made within one business day, but not later than seven calendar days after receipt of your redemption request, unless the check used to purchase the shares has not yet cleared. The Fund may suspend the right of redemption or postpone the date of payment for more than seven days during any period when: (1) trading on the Exchange is restricted or the Exchange is closed for other than customary weekends and holidays, (2) the SEC has by order permitted such suspension for the protection of the Fund's shareholders or (3) an emergency exists, as determined by the SEC, making disposal of portfolio securities or valuation of net assets of the Fund not reasonably practicable. The Fund will automatically redeem shares if a purchase check is returned for insufficient funds and the shareholder's account will be charged for any loss. The Fund reserves the right to reject any third-party check.

Under normal market conditions, the Fund generally meets redemption requests through its holdings of cash or cash equivalents or by selling a portion of the Fund's holdings consistent with its investment strategy. The Fund generally pays redemptions proceeds in cash; however, the Fund reserves the right to honor certain redemptions “in-kind” with securities, rather than cash. The Fund is more likely to redeem in-kind to meet large redemption requests or during times of market stress.

TO REDEEM FROM YOUR ACCOUNT

By Mail

To redeem your shares by mail:

- Write a letter of instruction that includes: the name of the Fund, your account number, the name(s) in which the account is registered and the dollar value or number of shares you wish to sell.
- Include all signatures and any additional documents that may be required.
- Mail your request to:

Regular Mail:

Polen Opportunistic High Yield Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
P.O. Box 534445
Pittsburgh, PA 15253-4445

Overnight Mail:

Polen Opportunistic High Yield Fund
FundVantage Trust
c/o BNY Mellon Investment Servicing
Attention: 534445
500 Ross Street, 154-0520
Pittsburgh, PA 15262
(888) 678-6024

- A check will be mailed to the name(s) and address in which the account is registered and may take up to seven days.
- The Fund may require additional documentation or a medallion signature guarantee on any redemption request to help protect against fraud.
- The Fund requires a medallion signature guarantee if the written redemption request exceeds \$100,000, the address of record has changed within the past 30 days or the proceeds are to be paid to a person other than the account owner of record.

By Telephone

To redeem your shares by telephone, call Shareholder Services toll-free at (888) 678-6024. The proceeds will be paid to the registered owner: (1) by mail at the address on the account or (2) by wire to the pre-designated bank account on the fund account. To use the telephone redemption privilege, you must have selected this service on your original account application or submitted a subsequent medallion signature guaranteed request in writing to add this service to your account. The Fund and BNY Mellon Investment Servicing reserve the right to refuse any telephone transaction when they are unable to confirm to their satisfaction that a caller is the account owner or a person preauthorized by the account owner. BNY Mellon Investment Servicing has established security procedures to prevent unauthorized account access. Neither the Fund nor any of its service contractors will be liable for any loss or expense in acting upon telephone instructions that are reasonably believed to be genuine. The telephone transaction privilege may be suspended, limited, modified or terminated at any time without prior notice by the Fund or BNY Mellon Investment Servicing.

By Wire

In the case of redemption proceeds that are wired to a bank, the Fund transmits the payment only on days that commercial banks are open for business and only to the bank and account previously authorized on your application or your medallion signature guaranteed letter of instruction. The Fund and BNY Mellon Investment Servicing will not be responsible for any delays in wired redemption proceeds due to heavy wire traffic over the Federal Reserve System. The Fund reserves the right to refuse a wire redemption if it believes that it is advisable to do so. You may also have your redemption proceeds sent to your bank via ACH. BNY Mellon Investment Servicing does not charge for this service; however, please allow 2 to 3 business days for the transfer of money to reach your banking institution.

Systematic Withdrawal Plan

Once you have established an account with \$10,000 or more, you may automatically receive funds from your account on a monthly, quarterly or semi-annual basis (minimum withdrawal of \$100). Call Shareholder Services toll-free at (888) 678-6024 to request a form to start the Systematic Withdrawal Plan.

Selling Recently Purchased Shares

If you wish to sell shares that were recently purchased by check, the Fund may delay mailing your redemption check for up to 15 business days after your redemption request to allow the purchase check to clear. The Fund reserves the right to reject any redemption request for shares recently purchased by check that has not cleared, and the Fund may require that a subsequent request be submitted. The Fund charges a redemption fee of 1.00% on proceeds redeemed within 60 days following their acquisition (see “Redemption of Shares — Redemption Fee”).

Late Trading

Late trading is the practice of buying or selling Fund shares at the closing price after the Fund's NAV has been set for the day. Federal securities laws governing mutual funds prohibit late trading. The Fund has adopted trading policies designed to comply with requirements of the federal securities laws.

TRANSACTION POLICIES

Timing of Purchase or Sale Requests

All requests received in Good Order by BNY Mellon Investment Servicing or authorized dealers of Fund shares before the close of regular trading on the Exchange, typically 4:00 p.m. Eastern time, will be executed the same day, at that day's NAV. Such orders received after the close of regular trading of the Exchange will be executed the following day, at that day's NAV. All investments must be in U.S. dollars. Purchase and redemption orders are executed only on days when the Exchange is open for trading. If the Exchange closes early, the deadlines for purchase and redemption orders are accelerated to the earlier closing time.

New York Stock Exchange Closings

The Exchange is typically closed for trading on New Year's Day, Martin Luther King, Jr. Day, Presidents' Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day and Christmas Day.

Investments through Financial Intermediaries/Nominees

If you invest through a financial intermediary or nominee, such as a broker-dealer or financial adviser (rather than directly through the Fund), certain policies and fees regarding your investment in the Fund may be different than those described in this Prospectus.

In the event your financial intermediary modifies or terminates its relationship with the Trust, your shares may be subject to involuntary redemption unless you make arrangements to (a) transfer your Fund shares to another financial intermediary that is authorized to process Fund orders or (b) establish a direct account with the Fund's transfer agent by following the instructions under “To Open An Account.” Financial intermediaries and nominees may charge transaction fees, may charge you a commission on your purchase, and may set different minimum investments or limitations or procedures on buying or selling shares; however, in the event that your financial intermediary modifies or terminates its relationship with the Trust and you chose to open an account directly with the Fund, you must meet the minimum initial investment amount or, if available, exchange your shares for shares of another class in which you are eligible to invest. The Fund will be deemed to have received a purchase or redemption order when an authorized broker, or, if applicable, a broker's designee receives the order.

It is the responsibility of the financial intermediary or nominee to promptly forward purchase or redemption orders and payments to the Fund. You will not be charged any additional fees by the Fund (other than those described in this Prospectus) if you purchase or redeem shares directly through the Fund.

Contact your financial intermediary for specific information regarding the availability and suitability of various account options described throughout this Prospectus. Contact your financial intermediary for specific information with respect to the financial intermediary's policies regarding minimum purchase and minimum balance requirements and involuntary redemption, which may differ from what is described throughout this Prospectus.

Account Minimum

You must keep at least \$2,000 worth of Investor Class and Institutional Class shares and at least \$1,000,000 worth of Class Y shares in your account to keep the account open. If, after giving you 30 days' prior written notice, your account value is still below \$2,000 due to your redemptions (not including market fluctuations), the Fund may redeem your shares and send you a check for the redemption proceeds.

Medallion Signature Guarantees

The Fund may require additional documentation for the redemption of corporate, partnership or fiduciary accounts, or medallion signature guarantees for certain types of transfer requests or account registration changes. A medallion signature guarantee helps protect against fraud. A medallion signature guarantee is required if the written redemption request exceeds \$100,000, the address of record has changed within the past 30 days, or the proceeds are to be paid to a person other than the account owner of record. When the Fund requires a signature guarantee, a medallion signature must be provided. A medallion signature guarantee may be obtained from a domestic bank or trust company, broker, dealer, clearing agency, saving association or other financial institution that is participating in a medallion program recognized by the Securities Transfer Association. The Fund recognizes the following three medallion programs: (i) Securities Transfer Agents Medallion Program (STAMP), (ii) Stock Exchanges Medallion Program (SEMP) and (iii) New York Stock Exchange, Inc., Medallion Signature Program (MSP). Signature guarantees from a financial institution that does not participate in one of these programs will not be accepted. Call Shareholder Services toll-free at (888) 678-6024 for further information on obtaining a proper signature guarantee.

Customer Identification Program

Federal law requires the Fund to obtain, verify and record identifying information, which includes the name, residential or business street address, date of birth (for an individual), social security or taxpayer identification number or other identifying information for each investor who opens or reopens an account with the Fund. Applications without the required information, or without any indication that a social security or taxpayer identification number has been applied for, will not be accepted. After acceptance, to the extent permitted by applicable law or its customer identification program, the Fund reserves the right to: (i) place limits on transactions in any account until the identity of the investor is verified or (ii) refuse an investment in the Fund or to involuntarily redeem an investor's shares and close an account in the event that an investor's identity is not verified. The Fund and its agents will not be responsible for any loss in an investor's account resulting from the investor's delay in providing all required identifying information or from closing an account and redeeming an investor's shares when an investor's identity cannot be verified.

Other Documents

Additional documents may be required for purchases and redemptions when shares are registered in the name of a corporation, partnership, association, agent, fiduciary, trust, estate or other organization. For further information, call Shareholder Services toll-free at (888) 678-6024.

EXCHANGING INTO OTHER SHARE CLASSES

You may transfer your shares into another class of shares of this Fund if you meet the eligibility requirements for the class into which you would like to transfer. If you purchased your shares from the Fund directly, call the transfer agent toll-free at (888) 678-6024 for information on exchanging shares into another class of the Fund. If you purchased your shares through a financial intermediary, you should contact such financial intermediary for information on exchanging shares into another class of the Fund. Transfers between classes of a single Fund are generally not considered a taxable transaction. This exchange privilege may be modified or terminated upon sixty (60) days' written notice to shareholders.

EXCHANGING INTO OTHER POLEN FUNDS

An exchange occurs when you use the proceeds from the redemption of shares of one Polen fund to simultaneously purchase shares of a different Polen fund. You can make exchange requests by telephone or by mail. See *"To Redeem from Your Account"* for contact information.

If the Exchange is open for regular trading (generally until 4 p.m. Eastern time, on a business day) at the time an exchange request is received in good order, the trade date generally will be the same day. See *"Redemption of Shares"* for additional information on transaction requests.

The Fund will not accept your request to cancel any exchange request once processing has begun. Please be careful when placing an exchange request. Call Shareholder Services toll-free at (888) 678-6024 from Monday through Friday, 8:00 a.m. to 6:00 p.m., Eastern time before attempting to exchange a large dollar amount. By calling us *before* you attempt to exchange a large dollar amount, you may avoid delayed or rejected transactions.

Please note that the Fund reserves the right, without notice, to revise or terminate the exchange privilege, limit the amount of any exchange, or reject an exchange, at any time, for any reason. See “*Market Timing and Frequent Trading Policy*” for additional restrictions on exchanges.

SHAREHOLDER SERVICES

Your Account

If you have questions about your account, including purchases, redemptions and distributions, call Shareholder Services toll-free at (888) 678-6024 from Monday through Friday, 8:00 a.m. to 6:00 p.m., Eastern time.

Account Statements

The Fund currently provides the following account information:

- confirmation statements after transactions (except for certain automatic transactions, such as those related to automatic investment plan purchases or dividend reinvestments);
- account statements reflecting transactions made during the covered period (generally, monthly for Institutional Class shares and Class Y shares and quarterly or annually for Investor Class shares); and
- tax information, which will be mailed each year by the Internal Revenue Service (the “IRS”) deadline, a copy of which will also be filed with the IRS, if necessary.

Financial statements with a summary of portfolio composition and performance will be available at least twice a year.

The Fund routinely provides the above shareholder services, but may charge additional fees for special services such as requests for historical transcripts of accounts.

With the exception of statutorily required items, the Fund may change any of the above practices without notice.

Delivery of Shareholder Documents

To reduce expenses, the Fund mails only one copy of its Prospectus and each annual and semi-annual report to those addresses shared by two or more accounts. If you wish to receive individual copies of these documents, call Shareholder Services toll-free at (888) 678-6024 or, if your shares are held through a financial institution, please contact the financial institution directly. The Fund will begin sending you individual copies within 30 days after receiving your request.

DISTRIBUTIONS

Distributions of net investment income, if any, are declared and paid monthly to you. Distributions of net capital gains, if any, are declared and paid annually to you. The amount of any distribution will vary and there is no guarantee that the Fund will distribute either investment income or capital gains.

Distributions are payable to the shareholders of record at the time the distributions are declared (including holders of shares being redeemed, but excluding holders of shares being purchased). All distributions are reinvested in additional shares, unless you elect to receive the distributions in cash. Shares become entitled to receive distributions on the day after the shares are issued. If you invest in the Fund shortly before the ex-dividend date of a taxable distribution, the distribution will lower the value of the Fund’s shares by the amount of the distribution and, in effect, you will receive some of your investment back in the form of a taxable distribution. (see “More Information about Taxes — Distributions”).

MORE INFORMATION ABOUT TAXES

Each shareholder and prospective investor's particular tax situation is unique, and, therefore, the tax information in this Prospectus is provided only for general information purposes and only for U.S. taxpayers and should not be considered as tax advice or relied on by a shareholder or prospective investor.

General. The Fund intends to qualify annually to be treated as a regulated investment company (a "RIC") under Subchapter M of the Code. As such, the Fund will not be subject to federal income tax on the earnings it distributes to shareholders provided it satisfies certain requirements and restrictions set forth in the Code one of which is to distribute to its shareholders substantially all of its income and gains each year. If for any taxable year the Fund fails to qualify as a RIC: (1) it will be subject to tax in the same manner as an ordinary corporation and will be subject to tax at the corporate tax rates then in effect; and (2) all distributions from its earnings and profits (as determined under federal income tax principles) will be taxable as ordinary dividend income eligible for the dividends-received deduction for corporate shareholders and the non-corporate shareholder long-term capital gain rate for "qualified dividend income" and ordinary rates for all other distributions, except for those treated as a return of capital or substitute dividends with respect to dividends paid on securities lent out by the Fund. In addition, dividends paid on securities lent out by the Fund may not qualify for the dividends received deduction.

Distributions. The Fund will make distributions to you that may be taxed as ordinary income or capital gains (which may be taxed at different rates depending on the length of time the Fund holds its assets). The dividends and distributions you receive may be subject to federal, state and local taxation, depending upon your tax situation. Distributions are taxable whether you reinvest such distributions in additional shares of the Fund or choose to receive cash.

Unless you are investing through a tax-deferred retirement account (such as a 401(k) or an IRA), you should consider avoiding a purchase of Fund shares shortly before the Fund makes a distribution, because making such a purchase can increase your taxes and the cost of the shares. This is known as "buying a dividend." For example: On December 15, you invest \$5,000, buying 250 shares for \$20 each. If the Fund pays a distribution of \$1 per share on December 16, its share price will drop to \$19 (not counting market change). You still have only \$5,000 (250 shares x \$19 = \$4,750 in share value, plus 250 shares x \$1 = \$250 in distributions), but you owe tax on the \$250 distribution you received — even if you reinvest it in more shares and have to pay the tax due on the dividend without receiving any cash to pay the taxes. To avoid "buying a dividend," check the Fund's distribution schedule before you invest.

Ordinary Income. Net investment income (except for qualified dividends and income designated as tax-exempt), distributions of income from securities lending, and short-term capital gains that are distributed to you are taxable as ordinary income for federal income tax purposes regardless of how long you have held your Fund shares. Certain dividends distributed to non-corporate shareholders and designated by the Fund as "qualified dividend income" are eligible for the long-term capital gains tax rates. Short-term capital gains that are distributed to you are taxable as ordinary income for federal income tax purposes regardless of how long you have held your Fund shares. In addition, certain qualified REIT dividends may be eligible for a deduction for non-corporate shareholders.

Net Capital Gains. Net capital gains (i.e., the excess of net long-term capital gains over net short-term capital losses) distributed to you, if any, are taxable as long-term capital gains (based on the Fund's holding period) for federal income tax purposes regardless of how long you have held your Fund shares.

Sale of Shares. It is a taxable event for you if you sell shares of the Fund. Depending on the purchase price and the sale price of the shares you sell, you may have a taxable gain or loss on the transaction. Any realized gain will be taxable to you, and, generally, will be capital gain, assuming you held the shares of the Fund as a capital asset. The capital gain will be long-term or short-term depending on how long you have held your shares in the Fund. Sales of shares of the Fund that you have held for twelve months or less will be a short-term capital gain or loss and if held for more than twelve months will constitute a long-term capital gain or loss. Any loss realized by a shareholder on a disposition of shares held for six months or less will be treated as a long-term capital loss to the extent of any distributions of capital gain dividends received by the shareholder and disallowed to the extent of any distributions of tax-exempt interest dividends, if any, received by the shareholder with respect to such shares.

Returns of Capital. If the Fund's distributions exceed its taxable income and capital gains realized during a taxable year, all or a portion of the distributions made in the same taxable year may be recharacterized as a return of capital to shareholders. A return of capital distribution will generally not be taxable to the extent of each shareholder's basis in the Fund's shares, but will reduce each shareholder's cost basis in the Fund and result in a higher reported capital gain or lower reported capital loss when those shares on which the distribution was received are sold. If the return of

capital distribution exceeds a shareholder's cost basis, the excess amount will be capital gain, assuming you held your shares as a capital asset, and will be long-term or short-term capital gain depending on how long you have held your Fund shares.

Medicare Contribution Tax. U.S. individuals with income exceeding \$200,000 (\$250,000, if married and filing jointly and \$125,000 if married and filing separately) will be subject to a 3.8% Medicare contribution tax on net investment income including interest (excluding tax-exempt interest), dividends, and capital gains. If applicable, the tax will be imposed on the lesser of the individual's (i) net investment income or (ii) the excess of modified adjusted gross income over \$200,000 (\$250,000 if married and filing jointly and \$125,000 if married and filing separately).

IRAs and Other Tax-Qualified Plans. One major exception to these tax principles is that a distribution on or the sale or exchange of shares held in an IRA (or other tax-qualified plan) will not be currently taxable unless the shares were acquired with borrowed funds.

Backup Withholding. The Fund may be required to withhold U.S. federal income tax on all taxable distributions and sales payable to shareholders who fail to provide their correct taxpayer identification number or to make required certifications, or who have been notified by the IRS that they are subject to backup withholding. The current backup withholding rate is 24%.

State and Local Income Taxes. This Prospectus does not discuss the state and local tax consequences of an investment in the Fund. **You are urged and advised to consult your own tax adviser concerning state and local taxes, which may have different consequences from those of the federal income tax laws.**

Non-U.S. Shareholders. Non-U.S. shareholders may be subject to U.S. tax as a result of an investment in the Fund. The Fund is required to withhold 30% tax on certain payments made to foreign entities that do not qualify for reduced withholding rates under a treaty and do not meet specified information reporting requirements under the Foreign Account Tax Compliance Act. This Prospectus does not discuss the U.S. or foreign country tax consequences of an investment by a non-U.S. shareholder in the Fund. **Non-U.S. shareholders are urged and advised to consult their own tax advisers as to the U.S. and foreign country tax consequences of an investment in the Fund.**

Basis Reporting and Holding Periods. A shareholder is responsible for tracking the tax basis and holding periods of the shareholder's shares in the Fund for federal income tax purposes. However, RICs, such as the Fund, must report cost basis information to you and the IRS when a shareholder sells or exchanges shares that are not in a tax deferred retirement account. The Fund will permit shareholders to elect from among several IRS accepted cost basis methods.

Statements and Notices. You will receive an annual statement outlining the tax status of your distributions. You may also receive written notices of certain foreign taxes and distributions paid by the Fund during the prior taxable year.

This section is only a summary of some of the important U.S. federal income tax considerations of taxable U.S. shareholders that may affect your investment in the Fund. This summary is provided for general information purposes only and should not be considered as tax advice and may not be relied on by a prospective investor. This general summary does not apply to non-U.S. shareholders or tax-exempt shareholders, and does not address state, local or foreign taxes. More information regarding these considerations is included in the Fund's SAI. All prospective investors and shareholders are urged and advised to consult their own tax adviser regarding the effects of an investment in the Fund on their particular tax situation.

FINANCIAL HIGHLIGHTS

The Financial Highlights tables are intended to help you understand the Fund's financial performance for the periods shown. Certain information reflects financial results for a single share of the Fund. The total investment returns in the table represent the rate at which an investor would have earned (or lost) on an investment in the Fund (assuming reinvestment of all dividends and distributions). The information provided for the fiscal year ended April 30, 2024 has been audited by PricewaterhouseCoopers LLP, an independent registered public accounting firm, whose report, along with the Fund's financial statements, is included in the Fund's Annual Report, which is available upon request without charge by calling Shareholder Services toll-free at (888) 678-6024 or visiting the Fund's website at <https://www.polencapital.com/strategies/us-opportunistic-high-yield-fund>. Beginning with the fiscal year ended in 2024, the Fund's fiscal year was changed from September 30, 2014 to April 30, 2014. Information for the fiscal years from September 30, 2022 and prior was audited by the former independent registered public accounting firm of the Predecessor Fund.
