¹A 3 Year Standard Deviation is not available for 2017 and 2018 due to 36 monthly returns are not available.

Some versions of this GIPS Report previously included assets of the Firm's wholly-owned subsidiary in the 2022 Firm Assets figure, in error. The figure above has been corrected to no longer count assets at the subsidiary level. Total assets and UMA assets are supplemental information to the GIPS Composite Report. N/A - There are five or fewer accounts in the composite the entire year. While pitch books are updated quarterly to include composite performance through the most recent quarter, we use the GIPS Report that includes annual returns only. To minimize the risk of error we update the GIPS Report annually. This is typically updated by the end of the first quarter.

GIPS Report

The International Growth Composite created and inception on January 1, 2017 contains fully discretionary international growth accounts that are not managed within a wrap fee structure and for comparison purposes is measured against MSCI ACWI (ex-USA). Effective January 2022, fully discretionary large cap equity accounts managed as part of our International Growth strategy that adhere to the rules and regulations applicable to registered investment companies subject to the U.S. Investment Company Act of 1940 and the Polen International Growth Collective Investment Trust were included into the International Growth Composite. The accounts comprising the portfolios are highly concentrated and are not constrained by EU diversification regulations.

Polen Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Polen Capital Management has been independently verified for the periods April 1, 1992 through December 31, 2023. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Polen Capital Management is an independent registered investment adviser. Polen Capital Management maintains related entities which together invest exclusively in equity portfolios consisting of high-quality companies. A list of all composite and pooled fund investment strategies offered by the firm, with a description of each strategy, is available upon request. In July 2007, the firm was reorganized from an S-corporation into an LLC and changed names from Polen Capital Management, Inc. to Polen Capital Management, LLC.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. Effective January 1, 2022, composite policy requires the temporary removal of any portfolio incurring a client initiated significant net cash inflow or outflow of 10% or greater of portfolio assets, provided, however, if invoking this policy would result in all accounts being removed for a month, this policy shall not apply for that month. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of management fees and include the reinvestment of all income. Net of fee performance was calculated using either actual management fees or highest fees for fund structures. The annual composite dispersion presented is an asset-weighted standard deviation using returns presented gross of management fees calculated for the accounts in the composite the entire year. Policies for valuing investments, calculating performance, and preparing GIPS Reports are available upon request.

The separate account management fee schedule is as follows:
Institutional: Per annum fees for managing accounts are 85 basis points (0.85%) on the first \$50 Million and 65 basis points (0.65%) on all assets above \$50 Million of assets under management. HNWI: Per annum fees for

managing accounts are 160 basis points (1.60%) of the first \$500,000 of assets under management and 110 basis points (1.10%) of amounts above \$500,000 of assets under management. Actual investment advisory fees incurred by clients may vary.

The per annum fee schedule for managing the Polen International Growth Fund, which is included in the International Growth Composite, is 85 basis points (.85%). The total annual fund operating expenses are up to 135 basis points (1.35%). As of 9/1/2023, the mutual fund expense ratio goes up to 1.33%. This figure may vary from year to year. The per annum all-in fee* schedule for managing the Polen International Growth Collective Investment Trust, which is included in the International Growth Composite, goes up to 70 basis points (.70%). *The all-in fee (which is similar to a total expense ratio) includes all administrative and operational expenses of the fund as well as the Polen Capital management fee.

Past performance does not guarantee future results and future accuracy and profitable results cannot be guaranteed. Performance figures are presented gross and net of management fees and have been calculated after the deduction of all transaction costs and commissions. Portfolio returns are net of all foreign non-reclaimable withholding taxes. Reclaimable withholding taxes are reflected as income if and when received. Polen Capital is an SEC registered investment advisor and its investment advisory fees are described in its Form ADV Part 2A. The advisory fees will reduce clients' returns. The chart below depicts the effect of a 1% management fee on the growth of one dollar over a 10 year period at 10% (9% after fees) and 20% (19% after fees) assumed rates of return.

The MSCI ACWI ex USA Index is a market capitalization weighted equity index that measures the performance of large and mid-cap segments across developed and emerging market countries (excluding the U.S.). The index is maintained by Morgan Stanley Capital International.

The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the composite's holdings may be materially different from those within the index. Indices are unmanaged and one cannot invest directly in an index.

The information provided in this document should not be construed as a recommendation to purchase or sell any particular security. There is no assurance that any securities discussed herein will remain in the composite or that the securities sold will not be repurchased. The securities discussed do not represent the composite's entire portfolio. Actual holdings will vary depending on the size of the account, cash flows, and restrictions. It should not be assumed that any of the securities transactions or holdings discussed will prove to be profitable, or that the investment recommendations or decisions we make in the future will be profitable or will equal the investment performance of the securities discussed herein.

A complete list of our past specific recommendations for the last year is available upon request.
