Polen Capital Management, LLC is an independent registered investment advisor. The firm has been managing large cap growth equity portfolios for institutional and high net worth individual clients since 1989.

Polen Capital claims compliance with the Global Investment Performance Standards (GIPS). GIPS® is a registered trademark of CFA Institute. CFA Institute does not endorse or promote this organization, nor does it warrant the accuracy or quality of the content contained herein. This presentation is supplemental information to the fully compliant composite performance disclosure available at polencapital.com.

All performance is calculated in U.S. Dollars. **Past performance is not indicative of future results.** Returns are presented gross and net of management fees and include the reinvestment of all income.

The MSCI Emerging Markets ex China Index is a market capitalization weighted equity index that measures the performance of the large and mid-cap segments across emerging market countries. The index is maintained by Morgan Stanley Capital International. It is impossible to invest directly in an index. The performance of an index does not reflect any transaction costs, management fees, or taxes.

The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the portfolio's holdings may be materially different from those within the index. Indices are unmanaged.

Holdings are subject to change. The top holdings, as well as other data, are as of the period indicated and should not be considered a recommendation to purchase, hold, or sell any particular security. There is no assurance that any of the securities noted will remain in a portfolio at the time you receive this fact sheet. Actual holding and percentage allocation in individual client portfolios may vary and are subject to change. It should not be assumed that any of the holdings discussed were or will prove to be profitable or that the investment recommendations or decisions we make in the future will be profitable. A list of all securities held in this portfolio in the prior year is available upon request.

Alpha: the excess return of an investment relative to the return of the benchmark. **Beta:** the measure of systemic risk of a portfolio in comparison to the market as a whole. **Sharpe Ratio:** a ratio of the return on an investment relative to its risk. **Upside Capture:** a statistical measure of overall performance relative to a benchmark during rising markets. **Downside Capture:** a statistical measure of overall performance relative to a

benchmark during declining markets. **Information Ratio:** a measurement of portfolio returns relative to a given benchmark. **Standard Deviation:** measurement of the dispersion or volatility of investment returns relative to its mean or average.

Active Share: Active share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. **Weighted**

Average Market Cap: a weighted average of the price of each security multiplied by the number of shares outstanding all the securities in the portfolio. **Polen Long Term EPS Growth Estimate:** a Polen Capital estimate of projected long-term earnings growth rates (Earnings Growth is not a measure of future performance). **Net Debt/Equity ex Lease:** is a measure of a company's financial leverage calculated by dividing its net liabilities by stockholders' equity, excluding leases. **P/E Forward:** denotes the weighted harmonic average of all the P/E's of the securities in the fund's portfolio.

Return on Invested Capital: assesses a company's efficiency at allocating the capital and is measured by operating profit after taxes divided by investment capital. **Annual Turnover:** the percentage at which a portfolio replaces its security holdings every year.

The Emerging Markets ex China Growth strategy integrates material environmental, social, and governance (ESG) factors into research analysis as part of a comprehensive evaluation of a company's long-term financial sustainability. There is a risk that the investment techniques and risk analyses applied, including but not limited to the integration of ESG factors into the research analysis, will not produce the desired results and that legislative, regulatory, or tax developments may affect the investment techniques available. There is no guarantee that the investment objective will be achieved.
