Management's Discussion of Fund Performance

- For the 12 months ended April 30, 2025, the Polen Global Growth Fund (the “Fund”) underperformed the MSCI All Country World® Index (“ACWI”)® Index.
- Stock selection in the Health Care and Communication Service sectors detracted from results, while stock selection in Industrials and sector positioning in Energy and Materials enhanced results (sector positioning is a residual of bottom-up stock selection).
- Solid global equity gains were driven by U.S. market leadership and Artificial Intelligence (“AI”) themes in the early part of the period, while international stocks lagged. As 2025 began, a broad rotation shifted away from U.S. and growth-oriented equities, toward international and value-oriented equities.
- The top relative stock detractors were ICON Plc, Novo Nordisk, and Globant. The top relative contributors were SAP SE, Shopify, and Paycom Software.
