

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Polen Capital Emerging Markets Small Company Growth Fund B USD Acc

Class B USD Accumulation Shares (ISIN IE00BQ713V97), a sub-fund of Polen Capital Investment Funds II PLC. This Fund is managed by KBA Consulting Management Limited (the "Manager")

Objectives and investment policy

The Fund aims to grow the value of your investment over the long term.

It seeks to do so by investing mainly in equity securities (shares) of a broad range of smaller companies established in, or deriving a significant amount of their income and profit from, emerging markets countries worldwide, including the People's Republic of China. The Fund may also invest a portion of its assets in Frontier markets. Emerging and Frontier markets are markets at an early stage of development, which typically involves higher risk, and potentially higher returns, than developed markets.

The Fund selects quality companies based on four key criteria: sustainable business models; robust balance sheets; proven management teams; and a clear alignment of interest between majority and minority shareholders. Valuations, liquidity, return on invested capital and free cash flow generation are also important considerations for stock selection.

The Fund may use derivatives to gain exposure to its target markets, manage risk and help meet the Fund's objective. A derivative is a financial instrument whose value is based on the performance of another financial asset, index or investment.

The Fund is actively managed. The Fund is not constrained by its comparator benchmark, the MSCI Emerging Markets Small Cap Index (Net Dividends Reinvested), and has significant freedom to invest in a portfolio that is different to the benchmark's own composition.

Income generated by the Fund will be reinvested by the Fund to increase the value of your investment.

There is no minimum holding period for this Fund. However, it may not be appropriate for investors who plan to withdraw their money in under 5 years.

You may sell your shares on any business day on which banks in Dublin and London are open for business by submitting an application to the administrator, State Street Fund Services (Ireland) Limited, by 4:00 p.m. (Irish time) four business days prior to such day.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

The risk category is based on historical data and may not be a reliable indication of the future risk profile of the Fund. The risk category shown is not guaranteed to remain unchanged, and it may shift over time. The lowest risk category does not mean the investment is "risk free".

The Fund may also be exposed to other risks that the risk indicator does not adequately capture. These may include:

Market capitalisation risk: Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.

Emerging markets and frontier markets risk: securities in emerging markets and frontier markets may involve a higher degree of risk because these markets may be more unstable than developed markets due to regulatory, political, economic and social factors. In addition, frontier markets are typically less liquid and may experience greater volatility in prices and currencies than more established markets.

Currency risk: investing in assets denominated in a currency other than the Fund's currency exposes the value of the investment to exchange rate fluctuations.

Liquidity risk: the Fund may not be able to sell or buy certain investments at a suitable time or at a reasonable price.

Counterparty risk: a counterparty to a financial contract with the Fund could fail to return money or instruments belonging to the Fund.

Derivatives risk: where derivatives are used to obtain, increase or reduce exposure to an asset, index or investment, these derivatives may have an impact on the Fund's risk profile.

For a more detailed explanation of these and other risks, please refer to the "Risk Factors" section of the prospectus for the Fund.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

| | |
|--------------|-------|
| Entry charge | 0.00% |
| Exit charge | 3.00% |

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

| | |
|-----------------|-------|
| Ongoing charges | 1.63% |
|-----------------|-------|

Charges taken from the Fund under specific conditions

| | |
|-----------------|------|
| Performance fee | NONE |
|-----------------|------|

The entry and exit charges shown are maximum figures that may be charged. In some cases you may pay less. You can find out the actual entry and exit charges from your financial adviser or by contacting LGM Investments Limited.

The ongoing charges figure is based on expenses for the year ending November 2022. This figure may vary from year to year.

It excludes:

- Performance fees
- Portfolio transaction costs, except in the case of an entry/exit charge paid by the UCITS when buying or selling units in another collective investment undertaking.

For more information about charges, please see the section entitled Fees and Expenses in the Fund's prospectus.

Past performance
