**WHAT IS THIS PRODUCT?**

The Class is a share class of the Fund which is a sub-fund of the Company, an open-ended umbrella investment company with variable capital and segregated liability between Funds incorporated with limited liability in Ireland under the Companies Act 2014 with registration number 522617 and established as an undertaking for collective investment in transferable securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (S.I. No. 352 of 2011), as amended (the "UCITS Regulations").

Subject to the conditions set down in the Prospectus, investors may switch their shares in the Fund or Class for shares in a different class of the Fund or another Fund or Class. Please refer to the section entitled "Conversion of Shares" in the Prospectus and Fund Supplement for further details. The Prospectus of the Company and the periodic reports are prepared for the entire Company. There is no fixed term for this Fund.

The Fund's objective is to achieve long term growth of capital. The Fund will invest in a focused portfolio of global equity securities of small and mid cap companies (market capitalisations within the range of the market capitalisations of companies in the MSCI ACWI SMID Cap Index (the "Benchmark") at the time of purchase) which are listed, traded or dealt in or on global Recognised Exchanges.

The Fund may also invest in common stocks of companies, whose shares are listed or traded on Recognised Exchanges, outside of the above-mentioned market capitalisation where the stock represents an attractive investment opportunity. The Fund's investment in developing or Emerging Markets will not exceed 30% of its Net Asset Value. The Fund may invest up to 10% of its Net Asset Value in Russian securities which are listed or traded on the Moscow Exchange. As part of the Fund's investment in Emerging Markets the Fund may invest in Indian securities. The Fund may also invest in global depositary receipts, American depositary receipts and European depositary where deemed appropriate by the Investment Manager in order to achieve the investment objective of the Fund.

The stocks of small and mid cap companies are selected by the Investment Manager on the basis that they are high quality. For example the Investment Manager will select companies that can demonstrate real organic revenue growth high returns on invested capital and on equity, stable to improving margins, robust free cash flow generation, strong balance sheets and competent shareholder-oriented management teams. Where an appropriate investment opportunity is not available, the Fund may also hold and maintain ancillary liquid assets, including cash and cash equivalents (such as certificates of deposit) and Money Market Instruments (such as commercial paper, bankers acceptance and other short-term debt securities). Investment in such ancillary liquid assets will typically not exceed 10% of the Net Asset Value of the Fund.

The Fund may also invest up to 10% of its Net Asset Value in aggregate in other open-ended collective investment schemes which have investment policies similar to those of the Fund.

The Fund may use a limited number of simple derivative instruments for hedging purposes (such as currency swaps and currency forwards). It is not intended that the Fund will be leveraged as a result of its use of derivatives.

The Fund is considered to be actively managed in reference to the Benchmark by virtue of the fact that it uses the Benchmark to define the characteristics of the securities held by the Fund. Certain of the Fund's securities may be components of and may have similar weightings to the Benchmark. However, the Fund may be wholly invested in securities which are not constituents of the Benchmark. The Fund may also use the Benchmark for performance comparison purposes, however it is not used as a performance target.

The Shares that you will hold in the Fund are accumulating Shares. This means that income from the Fund's investments will be included in the value of your shares rather than being paid to you as a dividend.

You may sell shares in the Fund by submitting an application to the Fund's Administrator before 2 p.m. (Irish time) on any Business Day and/or such other day or days as may be determined by the Directors of the Company.

The Company's depositary is RBC Investor Services S.A. Dublin Branch.
