<sup>1</sup>A 3 Year Standard Deviation is not available for 2020 due to 36 monthly returns are not available.

N/A - There are five or fewer accounts in the composite the entire year. Total assets and UMA assets are supplemental information to the GIPS Composite Report. While pitch books are updated quarterly to include composite performance through the most recent quarter, we use the GIPS Report that includes annual returns only. To minimize the risk of error we update the GIPS Report annually. This is typically updated by the end of the first quarter.

## GIPS Report

The Global Emerging Markets Growth Composite created and inception on January 1, 2020 contains fully discretionary emerging markets growth equity accounts that are not managed within a wrap fee structure and for comparison purposes is measured against the MSCI Emerging Markets Index. The accounts are highly concentrated and unconstrained with regard to the number of the highest-conviction positions (i.e., positions of greater than 5%) comprising the portfolios. Polen Capital invests exclusively in a portfolio of high-quality companies.

Polen Capital Management claims compliance with the Global Investment Performance Standards (GIPS®) and has prepared and presented this report in compliance with the GIPS standards. Polen Capital Management has been independently verified for the periods April 1, 1992 through June 30, 2021. The verification reports are available upon request. A firm that claims compliance with the GIPS standards must establish policies and procedures for complying with all the applicable requirements of the GIPS standards. Verification provides assurance on whether the firm's policies and procedures related to composite and pooled fund maintenance, as well as the calculation, presentation, and distribution of performance, have been designed in compliance with the GIPS standards and have been implemented on a firm-wide basis. Verification does not provide assurance on the accuracy of any specific performance report.

Polen Capital Management is an independent registered investment adviser. A list of all composite and pooled fund investment strategies offered by the firm, with a description of each strategy, is available upon request. In July 2007, the firm was reorganized from an S-corporation into an LLC and changed names from Polen Capital Management, Inc. to Polen Capital Management, LLC.

Results are based on fully discretionary accounts under management, including those accounts no longer with the firm. The U.S. Dollar is the currency used to express performance. Returns are presented gross and net of fees and include the reinvestment of all income. Net of fee performance was calculated using actual fees. The annual composite dispersion presented is an asset-weighted standard deviation using returns presented gross of management fees calculated for the accounts in the composite the entire year. Policies for valuing portfolios, calculating investments, and preparing GIPS Reports are available upon request.

The management fee schedule is as follows:

Institutional: Per annum fees for managing accounts are 100 basis points (1.00%) on the first \$50 Million and 85 basis points (0.85%) on all assets above \$50 Million of assets under management. HNW: Per annum fees for managing accounts are 175 basis points (1.75%) of the first \$500,000 of assets under management and 125 basis points (1.25%) of amounts above \$500,000 of assets under management. Actual investment advisory fees incurred by clients may vary.

Past performance does not guarantee future results and future accuracy and profitable results cannot be guaranteed. Performance figures are presented gross and net of fees and have been calculated after the deduction of all transaction costs and commissions. Polen Capital is an SEC registered investment advisor and its investment advisory fees are described in its Form ADV Part 2A. The advisory fees will reduce clients' returns. The chart below depicts the effect of a 1% management fee on the growth of one dollar over a 10 year period at 10% (9% after fees) and 20% (19% after fees) assumed rates of return.

The MSCI Emerging Markets Index is a market capitalization weighted index designed to provide a broad measure of equity-market performance throughout the world and captures large- and mid-cap representation across 27 emerging markets countries. The MSCI Emerging Markets Index is maintained by Morgan Stanley Capital International. The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the composite's holdings may be materially different from those within the index. Indices are unmanaged and one cannot invest directly in an index.
