A High Conviction & Quality Approach

We believe that consistent earnings growth is the primary driver of intrinsic value and long-term stock appreciation. We seek to invest in companies with a durable earnings profile driven by a sustainable competitive advantage, financial strength, sound ESG practices, proven management teams and powerful products/services. By thinking and investing like a business owner and taking a long-term investment approach, we believe we can preserve capital and provide stability across market cycles.

Going Beyond with Polen Capital

Polen Capital is a team of experienced investment industry professionals who share an unwavering commitment to our clients, investors, community and each other. We have been dedicated to serving investors by providing concentrated portfolios of the highest-quality companies for more than three decades. At Polen Capital, we have built a culture of results, and in this, an inherent belief in going beyond what's expected for the people and communities we serve.

We believe that an important part of growing our clients' assets also includes preserving it. To pursue this, we adhere to a time-tested process of researching and analyzing the highest-quality companies around the globe—seeking only the best to build highly concentrated portfolios. Then, we invest for the long haul and with a business owner's mindset—giving these companies time to grow.

Polen Capital Management, LLC is an independent registered investment advisor.

Polen Capital claims compliance with the Global Investment Performance Standards (GIPS). GIPS® is a registered trademark of CFA Institute. All performance is calculated in U.S. Dollars. **Past performance is not indicative of future results.** Returns are presented gross and net of management fees and include the reinvestment of all income.

The MSCI ACWI SMID Cap is a market capitalization weighted equity index that measures the performance of the mid and small-cap segments across developed and emerging market countries. The index is maintained by Morgan Stanley Capital International. It is impossible to invest directly in an index. The performance of an index does not reflect any transaction costs, management fees, or taxes.

The volatility and other material characteristics of the indices referenced may be materially different from the performance achieved. In addition, the portfolio's holdings may be materially different from those within the index. Indices are unmanaged.

Holdings are subject to change. The top holdings, as well as other data, are as of the period indicated and should not be considered a recommendation to purchase, hold, or sell any particular security. There is no assurance that any of the securities noted will remain in a portfolio at the time you receive this fact sheet. Actual holding and percentage allocation in individual client portfolios may vary and are subject to change. It should not be assumed that any of the holdings discussed were or will prove to be profitable or that the investment recommendations or decisions we make in the future will be profitable. A list of all securities held in this portfolio in the prior year is available upon request.

Alpha: the excess return of an investment relative to the return of the benchmark. Beta: the measure of systemic risk of a portfolio in comparison to the market as a whole. Sharpe Ratio: a ratio of the return on an investment relative to its risk. Upside Capture: a statistical measure of overall performance relative to a benchmark during rising markets. Downside Capture: a statistical measure of overall performance relative to a benchmark during declining markets. Information Ratio: a measurement of portfolio returns relative to a given benchmark. Standard Deviation: measurement of the dispersion or volatility of investment returns relative to its mean or average.

Active Share: Active share is a measure of the percentage of stock holdings in a manager's portfolio that differ from the benchmark index. Weighted Average Market Cap: a weighted average of the price of each security multiplied by the number of shares outstanding all the securities in the portfolio. EPS 5 Yr CAGR: 5 Year Compound Annual Growth Rate, or CAGR, of the company's diluted earnings per share (EPS). Net Debt/EBITDA: is a measurement of leverage, calculated as a company's interest-bearing liabilities minus cash or cash equivalents, divided by its EBITDA. P/E Forward: denotes the weighted harmonic average of all the P/E's of the securities in the fund's portfolio. Return on Equity: assesses a company's net income divided by its shareholders' equity. Annual Turnover: the percentage at which a portfolio replaces its security holdings every year.

The Global SMID Company Growth strategy integrates material environmental, social, and governance (ESG) factors into research analysis as part of a comprehensive evaluation of a company's long-term financial sustainability. There is a risk that the investment techniques and risk analyses applied, including but not limited to the integration of ESG factors into the research analysis, will not produce the desired results and that legislative, regulatory, or tax developments may affect the investment techniques available. There is no guarantee that the investment objective will be achieved.
